Subject: RE: Facility Closures #1010495 & #7775263 - INACTIVE

Wendy,

This e-mail is a follow-up confirmation regarding the subject item facilities. Per your request, I have processed the INACTIVATION of the following respective facilities in the ARMs database.

Facility #1010495

09/30/09-To INACTIVE per Jeff Porter e-mail dated 01/15/09 to W.Simmons (SWD)-request to relinquish entitlement, facility never constructed w/no plans in the immediate future.

Subject: Facility Closures

Dick,

Attached to this email is documentation providing evidence that the following facilities are closed and the companies have relinquished their General Permits. Necessary Inspections to close these facilities have been conducted and uploaded to GPCI Lite. They are also attached. Please inactivate these facilities in ARM's.

Western Ready Mix-Permit Id# is 7775263-001-AG
CEMEX/Rinker Materials-Permit Id# 1010495-001-AG

Please let me know if you have any questions.

Thanks,

Wendy D. Simmons

**RE: Western Ready Mix, Inc.
ID# 7775263-001-AG**

Dear Wendy Simmons:

This letter is to serve as written documentation that Western Ready Mix, Inc. is requesting to relinquish the FDEP Air permits entitlement for the portable concrete batching facility.

As requested, we are providing the following information:

- The date when the equipment last operated in Florida was 11/17/05.
- The location where the equipment last operated in Florida was at the job address of Southern Wine & Spirits, 4440 Old Tampa Highway, Lakeland, FL 33811.
- Concrete Transport Leasing was always the owner of the equipment; however we moved the equipment to Alabama in July, 2006.

Sincerely,

A handwritten signature in black ink, appearing to read 'James Lohse, Sr.', written over a faint, larger version of the same signature.

James Lohse, Sr.
Owner

CONCRETE BATCHING PLANT

COMPLIANCE INSPECTION CHECKLIST

INSPECTION TYPE: ANNUAL (INS1, INS2) COMPLAINT/DISCOVERY (CI)
 RE-INSPECTION (FUI) ARMS COMPLAINT NO: _____

| | | | |
|--|-------------------------|-----------------------|-----------------------|
| AIRS ID#: 7775263 | DATE: <u>11/04/2008</u> | ARRIVE: <u>8:51am</u> | DEPART: <u>8:58am</u> |
| FACILITY NAME: WESTERN READY-MIX, INC. | | | |
| FACILITY LOCATION: 4440 OLD TAMPA HIGHWAY LAKELAND 33811 | | | |
| OWNER/AUTHORIZED REPRESENTATIVE: JIM LOHSE | | PHONE: (636)519-1522 | |

| ENTITLEMENT PERIOD: 2/6/2005 / 2/6/2010 (effective date) (end date) | | | |

PART I: INSPECTION COMPLIANCE STATUS (check only one box)

IN COMPLIANCE MINOR Non-COMPLIANCE SIGNIFICANT Non-COMPLIANCE

PART II: TESTING/RECORDKEEPING REQUIREMENTS – Rule 62-296.414, F.A.C.
 (check appropriate box(es))

Stack Emissions

1. Were visible emissions tests conducted during this site visit according to EPA Method 9 (Ref.: Chapter 62-297, F.A.C.)?----- Yes No
2. Are emissions from silos, weigh hoppers (batchers), and other enclosed storage and conveying equipment controlled to the extent necessary to limit visible emissions to 5 percent opacity?----- Yes No
3. During visible emissions tests of the silo dust collector exhaust points was the loading of the silo conducted at a rate that is representative of the normal silo loading rate, or at least at the minimum 25 tons per hour rate, unless such rate is unachievable in practice?----- Yes No
4. Are emissions from the weigh hopper (batcher) operation controlled by the silo dust collector? (If answer to this question is "Yes", then continue on to questions 4.a) and 4.b) below. If answer is "No" then skip 4.a) and 4.b) and continue on to question 5.)----- Yes No
 - a) Was the batching operation in operation during the visible emissions test?----- Yes No
 - b) During the visible emissions test, was the batching rate representative of the normal batching rate and duration?----- Yes No
5. If emissions from the weigh hopper (batcher) operation are controlled by a dust collector, which is separate from the silo dust collector, are the visible emissions tests of the weigh hopper (batcher) dust collector conducted while batching at a rate that is representative of the normal batching rate and duration?----- Yes No

PART II: TESTING/RECORDKEEPING REQUIREMENTS – Rule 62-296.414, F.A.C. – (continued)

(check appropriate box(es))

Compliance Demonstration - (Rule 62-296.401(5)(i), F.A.C.)

1. Is each dust collector exhaust point tested according to the visible emissions limiting standard as part of the annual compliance demonstration? (Rule 62-297.310(7)(a), F.A.C.)----- Yes No

New Facilities – (permitted pursuant to Rule 62-210.300(4), F.A.C., Air General Permits)

2. Did this facility demonstrate:
- a) initial compliance no later than 30 days after beginning operation?----- Yes No
- b) annual compliance within 60 days prior to each anniversary of the air general permit notification form submittal date?----- Yes No

Existing Facilities – (permitted pursuant to Rule 62-210.300(4), F.A.C., Air General Permits)

3. In order to demonstrate annual compliance, was an annual visible emissions test conducted 60 days prior to the AGP Notification form submission, and within 60 days prior to each anniversary date?----- Yes No

Test Reports – (Rules 62-213.440, F.A.C. and 62-297.310(8)(b), F.A.C.)

4. Was the required test report filed with the department as soon as practical, but no later than 45 days after the test was completed?----- Yes No

PART III: OPERATING/RECORDKEEPING REQUIREMENTS – Rule 62-210.300(4)(c)2., F.A.C.

(check appropriate box(es))

1. Is this facility: 1) a stationary ; 2) a relocatable ; or does it have: 3) both, stationary and relocatable concrete batching and/or nonmetallic mineral processing plants? (*Please check only one box.*)
2. If this is a stationary concrete batching plant, is there one or more relocatable nonmetallic mineral processing plants using individual air general permits at the same location? (*If your answer to this question is YES, then proceed to questions 2.a), thru 2.d,) below.*)----- Yes No
- a) Are there any additional nonexempt units located at this facility?----- Yes No
- b) Is the total combined annual facility-wide fuel oil usage of all plants less than 240,000 gallons per calendar year?----- Yes No
- c) Is the quantity of material processed less than ten million tons per calendar year?----- Yes No
- d) Is the fuel oil sulfur content 0.5% by weight or less?----- Yes No
3. Does the owner/operator of the concrete batching plant maintain a log book or books to account for:
- a) fuel consumption on a monthly basis?----- Yes No
- b) material processed on a monthly basis?----- Yes No
- c) the sulfur content of the fuel being burned (Fuel supplier certifications)?----- Yes No

PART III: OPERATING/RECORDKEEPING REQUIREMENTS – Rule 62-296.414(2)(a) and (b), F.A.C. (continued)

(check appropriate box(es))

Unconfined Emissions – (Rule 62-296.320(4)(c), F.A.C.)

1. Does the owner /operator of the concrete batching plant take reasonable precautions to control unconfined emissions by:
- a) management of roads, parking areas, stock piles, and yards, which shall include one or more of the following:
 - 1) paving and maintenance of roads, parking areas, stock piles, and yards?----- Yes No
 - 2) application of water or environmentally safe dust-suppressant chemicals when necessary to control emissions?----- Yes No
 - 3) removal of particulate matter from roads and other paved areas under control of the owner/operator to re-entrainment, and from building or work areas to reduce airborne particulate matter?----- Yes No
 - 4) reduction of stock pile height, or installation of wind breaks to mitigate wind entrainment of particulate matter from stock piles?----- Yes No
 - b) use of spray bar, chute, or partial enclosure to mitigate emissions at the drop point to the truck?----- Yes No

PART IV: SPECIAL CONDITIONS AND PROCEDURES – Rule 62-210.300(4)(d)4., F.A.C.

A. New or Modified Process Equipment

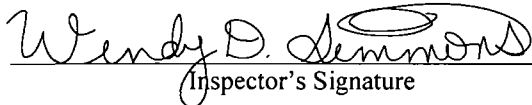

1. Since the last inspection has there been
- a) installation of any new process equipment?----- Yes No
 - b) alterations to existing process equipment without replacement?----- Yes No
 - c) replacement of existing equipment substantially different than that noted on the most recent notification form?----- Yes No
 - d) If you answered **YES** to any of the above, did the owner submit a new and complete notification form and appropriate fee (Rule 62-4.050, FAC) to the appropriate DEP or local program office?----- Yes No

Approximate Date of Next Inspection

COMMENTS: Pre-inspection Review: Last Visible Emissions (VE) testing was conducted by Grove Scientific 04/15/2005. No other VE testing in ARM's or in facility files. Registration became effective 02/06/2005. No inspections have ever been conducted at this facility according to facility file and ARMS. A FWN should be issued if facility is in operation or has operated since 01/01/2006. According to NED, the facility never relocated to their district, request was denied because there was a Asphalt Plant at the same location with no crusher on their permit. This facility has just 1EU in ARM's a cement silo with a baghouse. Inspection Findings: There is no relocatable Concrete Batch Plant at this location. The location is now a large plant all enclosed in a building, for a company called SWS. Need to contact RO to find out where relocatable CBP equipment has been moved to. On 2/11/09, I contacted Mr. Jim Lohse, Sr. Mr. Lohse stated that this equipment was sold quite some time ago to a company in Alabama. See attached conversation record. I explained to Mr. Lohse that it would be in his company's best interest to relinquish the permit entitlement by submitting a letter to the Department. Jim said he would be glad to send necessary information to relinquish entitlement and provided his email address, so I could send specifics to him via email. On 02/13/2009, I sent Mr. Lohse an email with necessary requirements for relinquishing the facility entitlement. See attached email dated 02/13/2009. Photos were taken during my visit to the last known location for this facility and are attached to this report. Letter to relinquish facility entitlement was received on March 31, 2009.
