Description of Facility

Below, or as an attachment to this form, provide a description of the concrete batching plant operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe all air pollutant-emitting processes and equipment at the facility, and identify any air pollution control measures or equipment used.

This notification is for renewal of 7775315-001-AG.

The facility uses a Belgrade Portable Cement Silo with a capacity of 50 tons. The silo is approximately 8.5 feet in diameter, 28 feet in height and has a 150 square feet bag area baghouse/dust filter with an air vibrator mounted on the top which controls emissions during loading.
