NONMETALLIC MINERAL PROCESSING PLANTS (CRUSHERS)
AIR GENERAL PERMIT REGISTRATION FORM

MAR 14 2011

Bureau of Air Monitoring & Mobile Sources

Part II. Notification to Permitting Office

(Detach and submit to appropriate permitting office; keep copy onsite)

Instructions: To give notice to the Department of an eligible facility's intent to use this air general permit, the owner or operator of the facility must detach and complete this part of the Air General Permit Registration Form and submit it to the appropriate Department of Environmental Protection or local air pollution control program office which has permitting authority. Please type or print clearly all information, and enclose the appropriate air general permit registration processing fee pursuant to Rule 62-4.050, F.A.C. (\$100 as of the effective date of this form)

7775325-002

Registration Type

Check one:

INITIAL REGISTRATION - Notification of intent to:

- Construct and operate a proposed new facility.
- Operate an existing facility not currently using an air general permit (e.g., a facility proposing to go from an air operation permit to an air general permit).

RE-REGISTRATION (for facilities currently using an air general permit) - Notification of intent to:

- Continue operating the facility after expiration of the current term of air general permit use.
- Continue operating the facility after a change of ownership.
- Make an equipment change requiring re-registration pursuant to Rule 62-210.310(2)(e), F.A.C., or any other change not considered an administrative correction under Rule 62-210.310(2)(d), F.A.C.

Surrender of Existing Air Operation Permit(s) - For Initial Registrations Only

If the facility currently holds one or more air operation permits, such permit(s) must be surrendered by the owner or operator upon the effective date of this air general permit. In such case, check the first box, and indicate the operation permits being surrendered. If no air operation permits are held by the facility, check the second box.

- All existing air operation permits for this facility are hereby surrendered upon the effective date of this air general permit; specifically permit number(s):
7775325-AG-001
- No air operation permits currently exist for this facility.

General Facility Information

Facility Owner/Company Name (Name of corporation, agency, or individual owner who or which owns, leases, operates, controls, or supervises the facility.)

Crush-It, Inc.

Site Name (Name, if any, of the facility site; e.g., Plant A, Metropolis Plant, etc. If more than one facility is owned, a registration form must be completed for each.)

* SEE ATTACHED E-MAIL DATED 03/16/11 AS AN ADDENDUM TO THIS

Facility Location (Provide the physical location of the facility, not necessarily the mailing address.)

Street Address:

City: 6000 E. Hanna Ave

County: Hillsborough

Zip Code: 34981 - 4609

Type of Facility

Check one:

Stationary Facility

Relocatable Facility

Type(s) of Precautions Used to Prevent Unconfined Emissions

Check all that apply for the management of roads, parking areas, stock piles and yards:

Maintain Roads/Parking/Yards

Use Water Application

Use Dust Suppressant

Remove Particulate Matter

Reduce Stock Pile Height

Install Wind Breaks

Check the location of spray bars at the nonmetallic mineral processing plant:

Feeders

Entrance to "Crusher"

Exit of "Crusher"

Classifier Screens

Conveyor Drop Points

Description of Reasonable Precautions

Below, or as an attachment to this form, provide details of all types of reasonable precautions to be used to prevent unconfined emissions at the facility.

Crush-It, Inc. strives to maintain a high level of dust control at each job site. We keep traffic at a low speed in the yards and keep roadways around the crusher and equipment watered to suppress dust. Crush-It requires our customers to have water available at each job site. Also, we have newer, highly efficient tier 3 diesel engines. Crush-It also has a low employee turn-over rate which means our employees are highly skilled at their jobs, each very familiar with the crusher and accompanying equipment.

Description of Facility

Below, or as an attachment to this form, provide a description of the nonmetallic mineral processing operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe all air pollutant-emitting processes and equipment at the facility, and identify any air pollution control measures or equipment used.

The daily process with which the crusher and our crews perform is as follows:

1. The excavator loosens and sorts the rubble pile which can consist of either concrete or asphalt.
2. The loader then scoops up the loosened and sorted rubble pile and drops the material in the feed hopper of the crusher.
3. The material is then run through the crusher and screened.
4. After screening, the material is deposited into the radial stacked and is stock-piled.

Water is continually running during the crusher process to eliminate dust. We normally have a 4-man crew consisting of a crusher operator, loader operator, excavator operator, and laborer.

The following is a detailed description of our equipment:

1. Eagle 1200 Crusher, serial number 30425

Capacity in T/HR is less than 150 TPH per hour

2. Crusher power unit is a Cummins QSM11, serial number 35145746, 325 HP

This is a high-efficiency, Tier-3 Diesel engine

3. Screening operation consists of a Simplicity 80 FT², serial number 6159, model number 2516-M110BS with the same fuel type as the power unit

There is no screening operation power unit because the screening operation is not a stand-alone unit.

To: Dibble, Dickson
Subject: Crush-It, Inc. Air Permit

Mr. Dibble,

As discussed, please find the current location for permit #7775325:

East Coast Recycling
4880 Glades Cut-Off Road
Ft. Pierce, FL 34981

The other location at 6000 E. Hanna in Tampa is the unit's base location.

I also noticed an error in the SURRENDER OF EXISTING AIR OPERATION PERMIT section. The permit number appears to be incorrect and should read 7775325-001-AG.

I apologize for these errors and will monitor more closely next time.

Thank you,

John Wohlwend

RE: DEP Permit # 7775325-001-AG expiration date 05/11/2011

Dear Sir/Madam:

We are submitting an application for renewal of air general permit #7775325. Enclosed please find DEP form No. 62-210.920(2)(e) Nonmetallic Mineral Processing Plant Air General Permit Registration Form (Crusher). Also enclosed please find our \$100.00 processing fee.

Please send our renewal permit to our NEW mailing address as we do not receive mail at the facility location:

**Crush-It, Inc.
PO Box 1210
Osprey, FL 34229**

If you need anything further please do not hesitate to contact our office at the NEW number of 941-918-2400 or email us at lrichardson@customcrushers.com.

Sincerely,

William D. Richardson
President
