Mr. Morris Williams
Materials Recovery Director
Cash Development, LLC
Coastal Landfill Disposal of Florida, LLC
11416 Houston Avenue
Hudson, Florida 34667

Dear Mr. Williams:

This is to acknowledge that your notification of intent to use the authority of Rule 62-210.310 to operate your facility was received on December 1, 2008. We have assigned ARMS No. 7775447-002 to this facility.

As you know, pursuant to Florida Statutes section 403.814, authority to operate under general permits commences thirty (30) days after receipt of the registration form unless you have been notified by this office that your facility has not shown entitlement to operate pursuant to the rule provisions.

For your information, authority to operate pursuant to Rule 62-210.310 expires after five (5) years. Therefore, a new registration form must be received no later than five (5) years after the date your notice was received as indicated above. If your general permit rule conditions require testing, such testing must be completed within the time frame specified in the rule.

If you have any additional questions, please contact Dickson Dibble at 850/921-9586.

Sincerely,

Sandra F. Veazey, Chief
Bureau of Air Monitoring
and Mobile Sources

Serial # 73668 488998 DEC 1 2008
Air Permit #: 7775447

**NONMETALLIC MINERAL PROCESSING PLANTS (CRUSHERS)
AIR GENERAL PERMIT REGISTRATION FORM**

Part II. Notification to Permitting Office

(Detach and submit to appropriate permitting office; keep copy onsite)

Instructions: To give notice to the Department of an eligible facility's intent to use this air general permit, the owner or operator of the facility must detach and complete this part of the Air General Permit Registration Form and submit it to the appropriate Department of Environmental Protection or local air pollution control program office which has permitting authority. Please type or print clearly all information, and enclose the appropriate air general permit registration processing fee pursuant to Rule 62-4.050, F.A.C. (\$100 as of the effective date of this form)

RECEIVED
DEC 05 2008
Bureau of Air Monitoring & Mobile Source Control

7775447-002

Registration Type

Check one:

INITIAL REGISTRATION - Notification of intent to:

- Construct and operate a proposed new facility.
- Operate an existing facility not currently using an air general permit (e.g., a facility proposing to go from an air operation permit to an air general permit).

RE-REGISTRATION (for facilities currently using an air general permit) - Notification of intent to:

- Continue operating the facility after expiration of the current term of air general permit use.
- Continue operating the facility after a change of ownership. Permit # 7775447
- Make an equipment change requiring re-registration pursuant to Rule 62-210.310(2)(e), F.A.C., or any other change not considered an administrative correction under Rule 62-210.310(2)(d), F.A.C.

Surrender of Existing Air Operation Permit(s) - For Initial Registrations Only

If the facility currently holds one or more air operation permits, such permit(s) must be surrendered by the owner or operator upon the effective date of this air general permit. In such case, check the first box, and indicate the operation-permits being surrendered. If no air-operation permits are held by the facility, check the second-box.

- All existing air operation permits for this facility are hereby surrendered upon the effective date of this air general permit; specifically permit number(s): _____
- No air operation permits currently exist for this facility.

General Facility Information

Facility Owner/Company Name (Name of corporation, agency, or individual owner who or which owns, leases, operates, controls, or supervises the facility.)

Cash Development, LLC

Site Name (Name, if any, of the facility site; e.g., Plant A, Metropolis Plant, etc. If more than one facility is owned, a registration form must be completed for each.)

Coastal Landfill Disposal of Florida, LLC

Facility Location (Provide the physical location of the facility, not necessarily the mailing address.)

Street Address: 11416 Houston Ave.

City: Hudson, FL

County: Pasco

Zip Code: 34667

Facility Start-Up Date (Estimated start-up date of proposed new facility.)(N/A for existing facility)

12-01-8

Owner/Authorized Representative

Name and Position Title (Person who, by signing this form below, certifies that the facility is eligible to use this air general permit.)

Owner/Authorized Representative Statement

This statement must be signed and dated by the person named above as owner or authorized representative

I, the undersigned, am the owner or authorized representative of the owner or operator of the facility addressed in this Air General Permit Registration Form. I hereby certify, based on information and belief formed after reasonable inquiry, that the facility addressed in this registration form is eligible for use of this air general permit and that the statements made in this registration form are true, accurate and complete. Further, I agree to operate and maintain the facility described in this registration form so as to comply with all applicable standards for control of air pollutant emissions found in the statutes of the State of Florida and rules of the Department of Environmental Protection and revisions thereof.

I will promptly notify the Department of any changes to the information contained in this registration form.

Type of Facility

Check one:

Stationary Facility

Relocatable Facility

Type(s) of Precautions Used to Prevent Unconfined Emissions

Check all that apply for the management of roads, parking areas, stock piles and yards:

Maintain Roads/Parking/Yards

Use Water Application

Use Dust Suppressant

Remove Particulate Matter

Reduce Stock Pile Height

Install Wind Breaks

Check the location of spray bars at the nonmetallic mineral processing plant:

Feeders

Entrance to "Crusher"

Exit of "Crusher"

Classifier Screens

Conveyor Drop Points

Description of Reasonable Precautions

Below, or as an attachment to this form, provide details of all types of reasonable precautions to be used to prevent unconfined emissions at the facility.

See Attachment "A"

Description of Facility

Below, or as an attachment to this form, provide a description of the nonmetallic mineral processing operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe all air pollutant-emitting processes and equipment at the facility, and identify any air pollution control measures or equipment used.

See attachment "B"

ATTACHMENT "A"

Metso LT1110 Portable Crusher

The Metso LT1110 Portable Crusher comes factory equipped with a water atomization system designed and fitted by the manufacturer to control and minimize operating emissions. Three emission control spray bars are located at the crusher inlet, under the crusher and after the magnet on the main conveyor.

A maintenance program is in place to sustain maximum operating efficiency and emission control throughout the effective life of the apparatus. Unconfined emission control and minimization is central to the facility owner's site management plan. Tactics employed to achieve optimum results include a company-owned and -operated water tanker to damp down roadways, yards and staging areas; stockpile height management; stockpile dust control via spray-sprinklers and, where need be, a flow of water to the top of the pile for percolated saturation of the material below; and concrete barrier wind-breaks. In extreme wind events, the facility owner is prepared to avoid unconfined emissions by covering potential problems with a layer of soil.

ATTACHMENT "B"

Metso LT1110 Portable Crusher

The Metso LT1110 Portable Crusher is a state-of-the-art concrete crushing facility rated at 300tph (tons/hour) of processed material and fully equipped with high-end emissions control apparatus and systems (see Exhibit "A"). It is powered by a diesel/hydraulic Caterpillar C-9 325hp engine and comes equipped with one main conveyor and one side conveyor. Drop Point positions: feeder into the crusher, crusher onto the main conveyor belt and main conveyor to stockpile. Three emission control spray bars are located at the crusher inlet, under the crusher and after the magnet on the main conveyor.

With this facility, the owner will conduct ongoing concrete crushing operations (1) on the grounds of the firm's sister-company Coastal Landfill Disposal of Florida, a state-permitted Construction and Demolition (C&D) disposal and recycling business located at 11416 Houston Avenue, Hudson, Florida 34667 (FDEP C&D Permit#26095-005-SO/22) and (2) off-site throughout the west-central Florida marketplace. Products produced by the crusher, including #57 stone, 5/8 inch-and-down filler material and concrete fines, will be used internally by the landfill and sold in the marketplace. Front-end loaders will feed the crusher and conveyor belts will transport crushed material to the coupled screening operation (see Metso ST352 Portable Screening Plant description) and from there to stockpiles. Concrete dust generated in the feeding, crushing, conveying and storage processes is the primary focus of all emissions strategies and tactics employed by the operator.

November 26, 2008

Ladies/Gentlemen:

On instruction from Dickson Dibble with the Florida Air General Permit Program, I forward you Air General Permit Registration Forms for two pieces of equipment: a Metso LT1110 Portable Crusher and a Metso ST352 Portable Screening Plant. Fully executed registration forms are attached with the specified \$100.00 fee for each facility. Also attached to each form is a copy of a letter to Jim McDonald with the Florida Air Operating Permit office surrendering the air curtain permit held by Coastal Landfill Disposal of Florida, LLC, sister-company to Cash Development, LLC. If there are questions, please contact the undersigned at the phone number noted. Thanks so much. Happy Thanksgiving.

Sincerely,

John Thompson
