Mr. Elliot Mallard
President
MFM Limestone, LLC
15249 North County Road 329
Reddick, Florida 32686

Dear Mr. Mallard:

This is to acknowledge that your notification of intent to use the authority of Rule 62-210.310 to operate your facility was received on April 17, 2008. We have assigned ARMS No. 7775513-001 to this facility.

As you know, pursuant to Florida Statutes section 403.814, authority to operate under general permits commences thirty days after receipt of the registration form unless you have been notified by this office that your facility has not shown entitlement to operate pursuant to the rule provisions.

For your information, authority to operate pursuant to Rule 62-210.310 expires after 5 years. Therefore, a new registration form must be received no later than 5 years after the date your notice was received as indicated above. If your general permit rule conditions require testing, such testing must be completed within the time frame specified in the rule.

If you have any additional questions, please contact Dickson Dibble at 850/921-9586.

Sincerely,

Sandra F. Veazey, Chief
Bureau of Air Monitoring
and Mobile Sources

SFV/pg

cc: Ms. Caroline Shine, Central District

**NONMETALLIC MINERAL PROCESSING PLANTS (CRUSHERS)
AIR GENERAL PERMIT REGISTRATION FORM**

Part II. Notification to Permitting Office

(Detach and submit to appropriate permitting office; keep copy onsite)

Instructions: To give notice to the Department of an eligible facility's intent to use this air general permit, the owner or operator of the facility must detach and complete this part of the Air General Permit Registration Form and submit it to the appropriate Department of Environmental Protection or local air pollution control program office which has permitting authority. Please type or print clearly all information, and enclose the appropriate air general permit registration processing fee pursuant to Rule 62-4.050, F.A.C. (\$100 as of the effective date of this form)

7775513-001

Registration Type

Check one:

INITIAL REGISTRATION - Notification of intent to:

- Construct and operate a proposed new facility.
 Operate an existing facility not currently using an air general permit (e.g., a facility proposing to go from an air operation permit to an air general permit).

RE-REGISTRATION (for facilities currently using an air general permit) - Notification of intent to:

- Continue operating the facility after expiration of the current term of air general permit use.
 Continue operating the facility after a change of ownership.
 Make an equipment change requiring re-registration pursuant to Rule 62-210.310(2)(e), F.A.C., or any other change not considered an administrative correction under Rule 62-210.310(2)(d), F.A.C.

Surrender of Existing Air Operation Permit(s) - For Initial Registrations Only

If the facility currently holds one or more air operation permits, such permit(s) must be surrendered by the owner or operator upon the effective date of this air general permit. In such case, check the first box, and indicate the operation permits being surrendered. If no air operation permits are held by the facility, check the second box.

- All existing air operation permits for this facility are hereby surrendered upon the effective date of this air general permit; specifically permit number(s): _____
 No air operation permits currently exist for this facility.

Owner/Authorized Representative Statement

This statement must be signed and dated by the person named above as owner or authorized representative

I, the undersigned, am the owner or authorized representative of the owner or operator of the facility addressed in this Air General Permit Registration Form. I hereby certify, based on information and belief formed after reasonable inquiry, that the facility addressed in this registration form is eligible for use of this air general permit and that the statements made in this registration form are true, accurate and complete. Further, I agree to operate and maintain the facility described in this registration form so as to comply with all applicable standards for control of air pollutant emissions found in the statutes of the State of Florida and rules of the Department of Environmental Protection and revisions thereof.

I will promptly notify the Department of any changes to the information contained in this registration form.

Exit of "Crusher"

Classifier Screens

Conveyor Drop Points

Description of Reasonable Precautions

Below, or as an attachment to this form, provide details of all types of reasonable precautions to be used to prevent unconfined emissions at the facility.

**Equipment is located at a mine or quarry and processes material from onsite natural deposits.
Spraybars are located at the entrance of the screen and at the screen.**

Description of Facility

Below, or as an attachment to this form, provide a description of the nonmetallic mineral processing operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe all air pollutant-emitting processes and equipment at the facility, and identify any air pollution control measures or equipment used.

The purpose of this Nonmetallic Mineral Processing Plant Air General Permit Registration Form is to operate relocatable screening operation facility owned by MFM Limestone, LLC.

The facility meets the Eligibility Requirements specified in Rule 62-210.310(2), F.A.C.

Please refer to Page 9 of the Nonmetallic Mineral Processing Plant Air General Permit Registration Form for air pollution control measures.

Please refer to Attachment 1 for Affected Facilities Description.

The facility process saturated material starting from the screening operations until the end of the production line. Per 40 CFR 60.675(h)(1), initial Method 9 performance tests are not required for wet screening operations and belt conveyors that process saturated material up to, but not including the next crusher, grinding mill, or storage bin. The unit is powered by a generator that was manufactured in 2005 and as a result, IS NOT subject to 40 CFR 60, Subpart III.

Attachment 1: MFM Limestone, LLC – Affected Facilities Description

Affected Facility	Manufacturer	Date of Manufacture	Model Number	Identifier & Serial Number	Size (TPH, hp, kW, etc.)	Subject to 40 CFR Part 60, Subpart 000	
						Yes	No
Screening Operation(s)	Powerscreen ✓	Post-1983	616		96 FT ²	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Belt Conveyor(s)	In house ✓	Post-1983		Feed Hopper	30 IN.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
	In house ✓	Post-1983		Feed	30 IN.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
	In house ✓	Post-1983		Oversize	24 IN.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
	In house ✓	Post-1983		57 Stone	24 IN.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
	In house ✓	Post-1983		Screenings	24 IN.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
	In house ✓	Post-1983		89 Stone	24 IN.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
	Eagle ✓	Post-1983		Radial	24 IN.	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Comments:

Equipment is located at a mine or quarry and processes material from onsite natural deposits. Spraybars are located at the entrance of the screen and at the screen.

The facility process saturated material starting from the screening operations until the end of the production line. Per 40 CFR 60.675(h)(1), initial Method 9 performance tests are not required for wet screening operations and belt conveyors that process saturated material up to, but not including the next crusher, grinding mill, or storage bin. The unit is powered by a generator that was manufactured in 2005 and as a result, *IS NOT* subject to 40 CFR 60, Subpart III.
