

**CONCRETE BATCHING PLANTS
AIR GENERAL PERMIT EXAMPLE REGISTRATION WORKSHEET**

Facility Identification Number - If known (seven digit number)

7775532-002-AG

7775532

Registration Type

Check one:

INITIAL REGISTRATION - Notification of intent to:

- Construct and operate a proposed new facility.
- Operate an existing permitted facility not currently using an air general permit (e.g., a facility proposing to go from an air operation permit to an air general permit). If the facility currently holds one or more air operation permits, such permit(s) must be surrendered by the owner or operator upon the effective date of this air general permit. (See "Surrender of Existing Air Operation Permit(s)" below.)
- Operates an existing facility not currently permitted or using an air general permit.

RE-REGISTRATION (for facilities currently using an air general permit) - Notification of intent to:

- Continue operating the facility after expiration of the current term of air general permit use.
- Continue operating the facility after a change of ownership.
- Make an equipment change requiring re-registration pursuant to Rule 62-210.310(2)(e), F.A.C.
- Any other change not considered an administrative correction under Rule 62-210.310(2)(d), F.A.C.

Surrender of Existing Air Operation Permit(s) - For Initial Registrations Only, if Applicable

All existing air operation permits for this facility are hereby surrendered upon the effective date of this air general permit; specifically permit number(s):

NA

General Facility Information

Facility Owner/Company Name (Name of corporation, agency, or individual owner who or which owns, leases, operates, controls, or supervises the facility.)
A MATERIALS GROUP, INC.

Site Name (Name, if any, of the facility site; e.g., Plant A, Metropolis Plant, etc. If more than one facility is owned, a complete registration must be submitted for each.)
A MATERIALS GROUP - VINCE HAGAN PORTABLE PLANT - AMGI Plant #31.

Facility Location (Physical location of the facility, not necessarily the mailing address.)
Street Address: 8191 NW 160TH STREET (PLANT IS CURRENTLY INACTIVE AND STAGED AT THIS LOCATION)
City: CHIEFLAND County: LEVY Zip Code: 32696

Facility Start-Up Date (Estimated start-up date of proposed **new** facility.)(N/A for existing facility.)
NA

Facility Contact

Name and Position Title (Plant manager or person to be contacted regarding day-to-day operations at the facility.)

Print Name and Title: CASEY PETERSON, REGIONAL MANAGER

Facility Contact Telephone Numbers

Telephone: 850-942-0170

Fax: _____

Cell phone: 850-251-7469

E-mail: Casey.Peterson@andersoncolumbia.com

Facility Contact Mailing Address

Organization/Firm: A MATERIALS GROUP, INC.

Mailing Address: P.O. Box 1829

City: Lake City

County: Columbia

Zip Code: 32056

Correspondence Contact/Representative (to serve as additional Department contact)

Name and Position Title

Print Name and Title: Scott Cleveland, Environmental Director

Correspondence Contact/Representative Telephone Numbers

Telephone: 386-752-7585

Fax: _____

Cell phone: 386-623-2126

E-mail: scottc@andersoncolumbia.com

Correspondence Contact/Representative Mailing Address

Organization/Firm: A MATERIALS GROUP, INC.

Mailing Address: P.O. Box 1829

City: Lake City

County: Columbia

Zip Code: 32056

Government Facility Code (check only one)

- Facility not owned or operated by a federal, state, or local government.
- Facility owned or operated by the federal government.
- Facility owned or operated by the state.
- Facility owned or operated by the county.
- Facility owned or operated by the municipality.
- Facility owned or operated by a water management district.

Type of Facility

Check one:

Stationary Facility Relocatable Facility

Type(s) of Reasonable Precautions Used to Prevent Unconfined Emissions

Check all precautions to be used for the management of roads, parking areas, stock piles and yards:

Pave Roads Pave Parking Areas Pave Yards
 Maintain Roads/Parking/Yards Use Water Application Use Dust Suppressant
 Remove Particulate Matter Reduce Stock Pile Height Install Wind Breaks

Check all precautions to be used for the management of drop points to trucks:

Spray Bar Chute Enclosure
 Partial enclosure

Equipment Details Provide information for each silo, weigh hopper (batcher), and other enclosed storage and conveying equipment that are limited to a visible emissions of 5 percent opacity pursuant to Rule 62-296.414(1), F.A.C.

PROCESS EQUIPMENT TYPE (silo, weigh hopper, batcher, etc.)	PROCESS EQUIPMENT IDENTIFICATION*	CONTROL DEVICE (baghouse, vent filter, etc.)	CONTROL DEVICE MANUFACTURER	CONTROL DEVICE MODEL NUMBER
Vince Hagan Concrete Batch Plant	HT/CM12400D	Spray Bar	NA	NA
Vince Hagan Horizontal Mixer	Model HM 10			
Vince Hagan 75' Radial Stacker	NA	NA	NA	NA
Vince Hagan 400 BBL Silo		Baghouse	Vince Hagan	Model VH-1083JP

* If there are multiple pieces of the same types of process equipment (more than one silo, etc), provide an identifier (location, numeric designation, capacity or product) specific to each piece of equipment.

Description of Facility

Below, or as an attachment to this form, provide a description of the concrete batching plant operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe type of concrete product(s) manufactured, all air pollutant-emitting processes, and identify any air pollution control measures used. Mobile source equipment information is not needed (eg.: trucks, bulldozers, front-end loaders, etc.)

This facility is a ready-mix concrete batch plant. The plant will weight or meter cement and pozzolans, sand, rock, water and admixtures into mixer trucks. The requested operating schedule is 24 hrs/day, 7 days/wk and 52 weeks/year. The typical production rate is approx 95 cubic yds/hour of wet cement.

The plant was manufactured by Vince Hagan and has one silo for the storage of cement (400 bbls). The silo is equipped with a Vince Hagan baghouse located on the top of the silo storage compartment. Emissions during batching are controlled by a spray bar misting system. The typical loading rates for the silos will be approx 25 tons/hr.

**RE: Air General Permit Renewal Submittal for A Materials Group, Inc.,
Concrete Batch Plant No. 31 (7775532-AG), Temporarily Staged in Chiefland,
Florida.**

To Who It May Concern:

Please find enclosed two (2) copies of the Air General Permit renewal application for the above referenced Concrete Batch Plant. A check for \$100.00 has been enclosed to cover the processing of the permit.

This plant was last located in Inglis, Florida, but is now temporarily staged at our Concrete Batch Plant facility in Chiefland, Florida. The plant is disassembled and inactive.

If you have any additional questions concerning this matter, please call me at (386) 623-2126.

Sincerely,

A MATERIALS GROUP, INC.

Scott R. Cleveland, P.G.
