Mr. Ron Wohlfiel
President
P.A.W. Materials
PS-1 – Power Grid Deck
6640 State Road #52, West
Bayonet Point, Florida 34667

Dear Mr. Wohlfiel:

This is to acknowledge that your notification of intent to use the authority of Rule 62-210.310 to operate your facility was received on October 15, 2008. We have assigned ARMS No. 7775545-001 to this facility.

As you know, pursuant to Florida Statutes section 403.814, authority to operate under general permits commences thirty (30) days after receipt of the registration form unless you have been notified by this office that your facility has not shown entitlement to operate pursuant to the rule provisions.

For your information, authority to operate pursuant to Rule 62-210.310 expires after five (5) years. Therefore, a new registration form must be received no later than five (5) years after the date your notice was received as indicated above. If your general permit rule conditions require testing, such testing must be completed within the time frame specified in the rule.

If you have any additional questions, please contact Dickson Dibble at 850/921-9586.

Sincerely,

Sandra F. Veazey, Chief
Bureau of Air Monitoring
and Mobile Sources

SFV/pg

AIR GENERAL PERMIT REGISTRATION FORM**

Part II. Notification to Permitting Office

(Detach and submit to appropriate permitting office; keep copy onsite)

Instructions: To give notice to the Department of an eligible facility's intent to use this air general permit, the owner or operator of the facility must detach and complete this part of the Air General Permit Registration Form and submit it to the appropriate Department of Environmental Protection or local air pollution control program office which has permitting authority. Please type or print clearly all information, and enclose the appropriate air general permit registration processing fee pursuant to Rule 62-4.050, F.A.C. (\$100 as of the effective date of this form)

BUREAU OF AIR QUALITY
& METEOROLOGICAL SERVICES

RECEIVED

Registration Type

Check one:

INITIAL REGISTRATION - Notification of intent to:

- Construct and operate a proposed new facility.
- Operate an existing facility not currently using an air general permit (e.g., a facility proposing to go from an air operation permit to an air general permit).

RE-REGISTRATION (for facilities currently using an air general permit) - Notification of intent to:

- Continue operating the facility after expiration of the current term of air general permit use.
- Continue operating the facility after a change of ownership.
- Make an equipment change requiring re-registration pursuant to Rule 62-210.310(2)(e), F.A.C., or any other change not considered an administrative correction under Rule 62-210.310(2)(d), F.A.C.

Surrender of Existing Air Operation Permit(s) - For Initial Registrations Only

If the facility currently holds one or more air operation permits, such permit(s) must be surrendered by the owner or operator upon the effective date of this air general permit. In such case, check the first box, and indicate the operation permits being surrendered. If no air operation permits are held by the facility, check the second box.

- All existing air operation permits for this facility are hereby surrendered upon the effective date of this air general permit; specifically permit number(s): _____
- No air operation permits currently exist for this facility.

Owner/Authorized Representative Statement

This statement must be signed and dated by the person named above as owner or authorized representative
I, the undersigned, am the owner or authorized representative of the owner or operator of the facility addressed in this Air General Permit Registration Form. I hereby certify, based on information and belief formed after reasonable inquiry, that the facility addressed in this registration form is eligible for use of this air general permit and that the statements made in this registration form are true, accurate and complete. Further, I agree to operate and maintain the facility described in this registration form so as to comply with all applicable standards for control of air pollutant emissions found in the statutes of the State of Florida and rules of the Department of Environmental Protection and revisions thereof.

I will promptly notify the Department of any changes to the information contained in this registration form.

Conveyor Drop Points

Description of Reasonable Precautions

Below, or as an attachment to this form, provide details of all types of reasonable precautions to be used to prevent unconfined emissions at the facility.

- Water shall be applied as necessary to the facility grounds;
- Unpaved roads and gravel piles are wetted down 3 times a day depending on weather conditions.

2009 OCT 17 PM 2:14
STATE OF FLORIDA
REVENUE

Description of Facility

Below, or as an attachment to this form, provide a description of the nonmetallic mineral processing operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe all air pollutant-emitting processes and equipment at the facility, and identify any air pollution control measures or equipment used.

The unit is a Power Grid Deck Screener that sorts processed nonmetallic minerals (materials) by size such as reclaimed asphalt, gravel, and concrete.

1. Material received from trucks or a crusher is dumped on the ground in outdoor storage piles.
2. Emission Point Number 1:
 - A. Material is transferred from outdoor storage piles to the deck screener or by a conveyor belt of a crusher to the deck screener for sorting.
3. Emission point number 1, top of screener: Material is dropped directly into the shaker/screener.
4. Emission Point Number 2: From the bottom of the screener, the unwated material drops onto the ground.
5. Emission Point Number 3: The wanted material is sent on a conveyor to be stockpiled or to a crusher for further processing.

Jeff,

Thank you for your report regarding your efforts to collect the requested information from PAW Materials.

As you know, it is important that we receive the information in order that we meet the thirty (30) day review period clock and complete the entitlement process.

The review clock for the two facilities began on October 15th. I would be hard pressed to be able to complete the review process if I were to receive it at or near the end of the review period, so it is best to get it to me as soon as possible.

Thank you for your efforts in "bird-dogging" for this information

Dick

Dickson,

I am in still in the process of obtaining the information from PAW Materials that you requested for the mobile screeners. I have not received all of the information from them yet, but hope to in the near future. As soon as I receive all of the information, I will forward it on to you. If you have any questions, please give myself or Kevin Golden a call at (813) 639-1241.
