Description of Facility

Below, or as an attachment to this form, provide a description of the nonmetallic mineral processing operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe all air pollutant-emitting processes and equipment at the facility, and identify any air pollution control measures or equipment used.

This is an application for registration for a McCloskey Model 621RELH, Serial No. 12878 Non Metallic Mineral Crushing Machine. The design capacity varies according to the material processed. There is one screen at the feeder grizzly. The machine is powered by a Caterpillar 173 Hp engine manufactured in September of 2007. The conveyors are used at the hopper, main crusher, discharge and side. The machine will be used to process concrete, asphalt, assorted building materials, limestone, granite and other aggregate products.

This machine is owned by Peninsula Equipment and is intended to be used as lease equipment. Peninsula Equipment, Inc. will not be operating or overseeing the operation of this machine.
