MAR 13 2012

Part II. Notification to Permitting Office

(Detach and submit to appropriate permitting office; keep copy on site)

DIVISION OF AIR
RESOURCE MANAGEMENT

Instructions: To give notice to the Department of an eligible facility's intent to use this air general permit, the owner or operator of the facility must detach and complete this part of the Air General Permit Registration Form and submit it to the appropriate Department of Environmental Protection or local air pollution control program office which has permitting authority. Please type or print clearly all information, and enclose the appropriate air general permit registration processing fee pursuant to Rule 62-4.050, F.A.C. (\$100 as of the effective date of this form)

Registration Type

7775593-002

Check one:

INITIAL REGISTRATION - Notification of intent to:

- Construct and operate a proposed new facility.
 Operate an existing facility not currently using an air general permit (e.g., a facility proposing to go from an air operation permit to an air general permit).

RE-REGISTRATION (for facilities currently using an air general permit) - Notification of intent to:

- Continue operating the facility after expiration of the current term of air general permit use.
 Continue operating the facility after a change of ownership.
 Make an equipment change requiring re-registration pursuant to Rule 62-210.310(2)(e), F.A.C., or any other change not considered an administrative correction under Rule 62-210.310(2)(d), F.A.C.

Surrender of Existing Air Operation Permit(s) - For Initial Registrations Only

If the facility currently holds one or more air operation permits, such permit(s) must be surrendered by the owner or operator upon the effective date of this air general permit. In such case, check the first box, and indicate the operation permits being surrendered. If no air operation permits are held by the facility, check the second box.

- All existing air operation permits for this facility are hereby surrendered upon the effective date of this air general permit; specifically permit number(s):
7775593-002-AG
 No air operation permits currently exist for this facility.

General Facility Information

Facility Owner/Company Name (Name of corporation, agency, or individual owner who or which owns, leases, operates, controls, or supervises the facility.)

CEMEX Construction Materials Florida, L.L.C.

Site Name (Name, if any, of the facility site; e.g., Plant A, Metropolis Plant, etc. If more than one facility is owned, a registration form must be completed for each.)

CEMEX - Portable Ready-Mix

Facility Location (Provide the physical location of the facility, not necessarily the mailing address.)

Street Address: 1290 Fox Moor St.

City: Moore Haven

County: Glades

Zip Code: 33471-9201

Facility Start-Up Date (Estimated start-up date of proposed **new** facility.)(N/A for existing facility)

Owner/Authorized Representative

Name and Position Title (Person who, by signing this form below, certifies that the facility is eligible to use this air general permit.)

Print Name and Title: Jason Jones - Environmental Manager, West Florida Materials Division

Owner/Authorized Representative Mailing Address

Organization/Firm: CEMEX Construction Materials Florida, L.L.C.

Street Address: 3820 Northdale Blvd. Suite 100-B

Owner/Authorized Representative Statement

This statement must be signed and dated by the person named above as owner or authorized representative

I, the undersigned, am the owner or authorized representative of the owner or operator of the facility addressed in this Air General Permit Registration Form. I hereby certify, based on information and belief formed after reasonable inquiry, that the facility addressed in this registration form is eligible for use of this air general permit and that the statements made in this registration form are true, accurate and complete. Further, I agree to operate and maintain the facility described in this registration form so as to comply with all applicable standards for control of air pollutant emissions found in the statutes of the State of Florida and rules of the Department of Environmental Protection and revisions thereof.

I will promptly notify the Department of any changes to the information contained in this registration form.

Type of Facility

Check one:

Stationary Facility

Relocatable Facility

Type(s) of Reasonable Precautions Used to Prevent Unconfined Emissions

Check all precautions to be used for the management of roads, parking areas, stock piles and yards:

Pave Roads

Pave Parking Areas

Pave Yards

Maintain Roads/Parking/Yards

Use Water Application

Use Dust Suppressant

Remove Particulate Matter

Reduce Stock Pile Height

Install Wind Breaks

Check all precautions to be used for the management of drop points to trucks:

Spray Bar

Chute

Enclosure

Partial enclosure

Description of Reasonable Precautions

Below, or as an attachment to this form, provide details of all types of reasonable precautions to be used to prevent unconfined emissions at the facility.

This facility will be provided with a stormwater/wastewater drainage system, which will be designed to flush particulate matter from the paved yard and entrance drive. This will keep the paving cleaner, substantially reducing fugitive emissions. Aggregate stockpiles in the yard are kept watered, partly for quality control and partly to reduce potentiation emissions from these materials.

Description of Facility

Below, or as an attachment to this form, provide a description of the concrete batching plant operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe all air pollutant-emitting processes and equipment at the facility, and identify any air pollution control measures or equipment used.

Proposed Portable Ready-Mix Concrete Batching Facility (No. 6), which will utilize cement, flyash and aggregate materials to produce ready-mix concrete. Dust emissions generated during the filling of the plant's silos or loading of concrete mixer trucks will be controlled by cartridge dust collectors. Details of these proposed emissions units (EU's) are as follows:

EU-01 - "In truss" cement bin compartment no. 1 (with a C. & W. Dust Systems Model CP-305-839 cartridge dust collector).

EU-02 - "In-truss" cement bin compartment no. 2 (with a C. & W. Dust Systems Model CP-305-839 cartridge dust collector).

EU-03 - Single-compartment flyash silo (with a C. & W. Dust Systems Model CP-305-839 cartridge dust collector).

EU-04 - Cement weigh hopper (with a C. & W. Dust Systems Model CP-70-419 cartridge batcher vent).

EU-05 - Truck Load-out (with a C. & W. Model CP-1220 Dust Collector)

Re: Cemex Construction Materials Florida, LLC
Portable Plant Relocation
South Bay RM to Moore Haven RM
7775593-002-AG

Dear Mr. Dibble,

Enclosed, please find the Concrete Batching Plant Air General Notification Form as well as the appropriate processing fee for the relocation of the above portable plant from South Bay to Moore Haven. The General Permit notification is being submitted as in addition to its relocation we will also be adding a C&W CP-1220 dust collector to the plant.

In addition the existing plant located at our Moore Haven RM plant 0430007-004-AG is being removed from the property. As a result we respectfully request that the emissions units associated with this permit be inactivated

If you have any questions please do not hesitate to contact me.

Sincerely,

Jason Jones
Environmental Manager
West Florida
