Please disregard the first e-mails I sent in error, they were made during the trail & error mode while substituting for J.Wise this week but now all the changes have been made and this second copy is the corrected copy.

Thank you for your patience, Pat Grant.

The attached documents represent recently received air general permit registration forms for your area. As requested, each form has been scanned and attached for your office use. These registrations are currently in the 30-day review cycle. We request that any updates to EU information be made after the 30-day review cycle ends. The actual receipt date and other facility information may be obtained in GPCI.

The complete scanned file for each facility will be available in ADH Search after the 30-day review cycle.
