CONCRETE BATCHING PLANT AIR GENERAL PERMIT REGISTRATION FORM

Gurcau OI A.I WONITOIN & Mobile Sources

Part II. Notification to Permitting Office

(Detach and submit to appropriate permitting office; keep copy onsite)

Instructions: To give notice to the Department of an eligible facility's intent to use this air general permit, the owner or operator of the facility must detach and complete this part of the Air General Permit Registration Form and submit it to the appropriate Department of Environmental Protection or local air pollution control program office which has permitting authority. Please type or print clearly all information, and enclose the appropriate air general permit registration processing fee pursuant to Rule

62-4	4.050, F.A.C. (\$100 as of the effective date of this form) 7775600-00 distration Type
Reg	istration Type
Che	ck one:
% IN	ITTIAL REGISTRATION - Notification of intent to: Construct and operate a proposed new facility. Operate an existing facility not currently using an air general permit (e.g., a facility proposing to go from an air operation permit to an air general permit).
	E-REGISTRATION (for facilities currently using an air general permit) - Notification of intent to: Continue operating the facility after expiration of the current term of air general permit use. Continue operating the facility after a change of ownership. Make an equipment change requiring re-registration pursuant to Rule 62-210.310(2)(e), F.A.C., or any other change not considered an administrative correction under Rule 62-210.310(2)(d), F.A.C.
Sur	render of Existing Air Operation Permit(s) - For Initial Registrations Only
or o	e facility currently holds one or more air operation permits, such permit(s) must be surrendered by the owner perator upon the effective date of this air general permit. In such case, check the first box, and indicate the ration permits being surrendered. If no air operation permits are held by the facility, check the second box. All existing air operation permits for this facility are hereby surrendered upon the effective date of this air general permit; specifically permit number(s):
X	No air operation permits currently exist for this facility.

DEP Form No. 62-210.920(2)(b) Effective: January 10, 2007

Description of Facility

Below, or as an attachment to this form, provide a description of the concrete batching plant operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe all air pollutant-emitting processes and equipment at the facility, and identify any air pollution control measures or equipment used.

The Crom Corporation (Crom) uses a small (9 cu/yd) capacity batch plant on an occasional basis to produce shotcrete for Crom's tank build operation. Crom uses a "wet" process to virtually eliminate emissions during the application of shotcrete. Shotcrete is transferred from the batch plant to a concrete pump. From the concrete pump, the shotcrete travels through a 4"–5" hose. Air is injected into the shotcrete at the end of the hose where an employee controls the application of the shotcrete in successive layers to complete the tank wall.

Upon completion of the tanks (24 weeks) the batch plant will be returned to Crom's Shop located at 6801 SW Archer Road, Gainesville, Florida, for cleaning and storage until the next time it is needed.

Addendum:

The batch plant was returned to Crom's Shop at the address mentioned above on December 9, 2009 for modification to bag house. The batch plant has been retrofitted with a new pollution control device (see attached) and is now ready to be put back into service. The assigned arms number for this unit is 7775600-001. (Please see attached letter from DEP).

Florida Department of **Environmental Protection**

Bob Martinez Center 2600 Blair Stone Road Tallahassee, Florida 32399-2400 Charlie Crist Governor

leff Kottkamp Lt. Governor

Michael W. Sole Secretary

August 13, 2009

Mr. Apidet Phromviyo The Crom Corporation Peace River WTP 8998 Southwest County Road #769 Arcadia Florida 34269

Dear Mr. Phromvioyo:

This is to acknowledge that your notification of intent to use the authority of Rule 62-210.310 to operate your Concrete Batching Plant facility was received on July 13, 2009. We have assigned ARMS No. 7775600-001 to this facility.

As you know, pursuant to Florida Statutes section 403.814, authority to operate under general permits commences thirty (30) days after receipt of the registration form unless you have been notified by this office that your facility has not shown entitlement to operate pursuant to the rule provisions.

If you have or expect any administrative changes in your mailing address, location address, responsible official, or telephone number, please notify the Department at the following address:

Air General Permits Office Bureau of Air Monitoring and Mobile Sources MS 5510 Department of Environmental Protection 2600 Blair Stone Road Tallahassee, FL 32399-2400

For your information, authority to operate pursuant to Rule 62-210.310 expires after five (5) years. Therefore, a new registration form must be received no later than five (5) years after the date your notice was received as indicated above. If your general permit rule conditions require testing, such testing must be completed within the time frame specified in the rule.

If you have any additional questions, please contact Dickson Dibble at 850/921-9586.

Sandra F. Veazey, Chief
Bureau of Air Monitoring

O Collectors

Round Silo Dust Collectors

General Information

STEEL

GENERATION 2.0

C&W's "O Collectors" (Round Silo Dust Collectors) offer you Pulse-Jet technology and our cartridge filters to provide an efficient yet inexpensive solution for dust control. These collectors are compact and user-friendly with a low-profile and POP in-out filter media exchange, with no tools or need to remove blow pipes. They can also expand to higher capacities without having to replace the units.

Options

- Automatic On/Off Flow Switch
- Minihelic Gauge
- Special Adaptable Mounting Flange
- Air Tank Auto-Drain
- Silo Anti-Overfill System
- Pressure Relief Valves and Bin Indicators

Dear Mr. Barrio,

Thank you for your assistance.

I do have one further request for additional information. You have indicated on the cover sheet that the power source is a Lister diesel engine.

In order to be considered a completed form, would you be so kind and provide the engine model #, S/N and rated Hp?

We are getting close to the end of the statutory thirty (30) day review and processing period and I will need the information in order for the submitted form to be considered complete.

Thank you for your kind attention to this matter. Have a great day!
