

**NONMETALLIC MINERAL PROCESSING PLANTS (CRUSHERS) RECEIVED
AIR GENERAL PERMIT REGISTRATION FORM**

NOV 10 2010

Part II. Notification to Permitting Office

(Detach and submit to appropriate permitting office; keep copy onsite) Bureau of Air Monitoring & Mobile Sources

Instructions: To give notice to the Department of an eligible facility's intent to use this air general permit, the owner or operator of the facility must detach and complete this part of the Air General Permit Registration Form and submit it to the appropriate Department of Environmental Protection or local air pollution control program office which has permitting authority. Please type or print clearly all information, and enclose the appropriate air general permit registration processing fee pursuant to Rule 62-4.050(4)(o), F.A.C. (\$100 as of the effective date of this form)

7775637-002

Registration Type

Check one:

INITIAL REGISTRATION - Notification of intent to:

- Construct and operate a proposed new facility.
- Operate an existing facility not currently using an air general permit (e.g., a facility proposing to go from an air operation permit to an air general permit).

RE-REGISTRATION (for facilities currently using an air general permit) - Notification of intent to:

- Continue operating the facility after expiration of the current term of air general permit use.
- Continue operating the facility after a change of ownership.
- Make an equipment change requiring re-registration pursuant to Rule 62-210.310(2)(e), F.A.C., or any other change not considered an administrative correction under Rule 62-210.310(2)(d), F.A.C.

Surrender of Existing Air Operation Permit(s) - For Initial Registrations Only

If the facility currently holds one or more air operation permits, such permit(s) must be surrendered by the owner or operator upon the effective date of this air general permit. In such case, check the first box, and indicate the operation permits being surrendered. If no air operation permits are held by the facility, check the second box.

- All existing air operation permits for this facility are hereby surrendered upon the effective date of this air general permit; specifically permit number(s): _____
- No air operation permits currently exist for this facility.

General Facility Information

Facility Owner/Company Name (Name of corporation, agency, or individual owner who or which owns, leases, operates, controls, or supervises the facility.)
Florida CRI dba Florida Shell

Site Name (Name, if any, of the facility site; e.g., Plant A, Metropolis Plant, etc. If more than one facility is owned, a registration form must be completed for each.)
Florida Shell and Rock

Facility Location (Provide the physical location of the facility, not necessarily the mailing address.)
Street Address: 2351 SR 31
City: Punta Gorda County: Charlotte Zip Code: 33982-8718

Facility Start-Up Date (Estimated start-up date of proposed **new** facility.)(N/A for existing facility)

Owner/Authorized Representative Statement

This statement must be signed and dated by the person named above as owner or authorized representative

I, the undersigned, am the owner or authorized representative of the owner or operator of the facility addressed in this Air General Permit Registration Form. I hereby certify, based on information and belief formed after reasonable inquiry, that the facility addressed in this registration form is eligible for use of this air general permit and that the statements made in this registration form are true, accurate and complete. Further, I agree to operate and maintain the facility described in this registration form so as to comply with all applicable standards for control of air pollutant emissions found in the statutes of the State of Florida and rules of the Department of Environmental Protection and revisions thereof.

I will promptly notify the Department of any changes to the information contained in this registration form.

Type of Facility

Check one:

Stationary Facility

Relocatable Facility

Type(s) of Precautions Used to Prevent Unconfined Emissions

Check all that apply for the management of roads, parking areas, stock piles and yards:

Maintain Roads/Parking/Yards

Use Water Application

Use Dust Suppressant

Remove Particulate Matter

Reduce Stock Pile Height

Install Wind Breaks

Check the location of spray bars at the nonmetallic mineral processing plant:

Feeders

Entrance to "Crusher"

Exit of "Crusher"

Classifier Screens

Conveyor Drop Points

Description of Reasonable Precautions

Below, or as an attachment to this form, provide details of all types of reasonable precautions to be used to prevent unconfined emissions at the facility.

Water will be used as a dust suppressant, as necessary, on roads and yards.

The portable crusher is equipped with three (3) spray bars as detailed in the "Description of Facility" on p. 10 of this FORM, to be operated only as necessary. The mined sand and limestone materials will have some degree of inherent moisture.

FIRMING
REVENUE

Description of Facility

Below, or as an attachment to this form, provide a description of the nonmetallic mineral processing operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe all air pollutant-emitting processes and equipment at the facility, and identify any air pollution control measures or equipment used.

The MGL Engineering, Inc., crusher described below was assigned Air General Permit No. 7775637-001-AG effective July 4, 2010 to then owner: Powerscreen of Florida. The purpose of this Notification Form is to notify DEP that Florida Shell is the new owner/operator of the crusher.

The Florida Shell and Rock facility ("Florida Shell"), operated by Florida CRI dba Florida Shell, is a sand and limestone mine (quarry) and processing facility located at 2351 SR 31, Punta Gorda, Charlotte County, Florida 33982, in Sections 27/28, Township 42, Range 25, approximate latitude: 27/00/08 N, longitude: 81/46/08 W. Florida Shell runs this operation at this location where "Florida Shell and Fill Company" (Larry Diner, President) previously operated a portable crusher under Permit No. 7770095-001-AG at the site. That crusher (ID No. 7770095) has been removed from the site and Florida Shell and Fill Company does not operate at the site.

The Florida Shell crusher is described as follows:

Sand and limestone materials from the quarry are loaded into a MGL Engineering, Inc., Model MGL 43x54 Primary Impact Crusher, Serial No.: PI4354DS102. The crusher is powered by a Tier 3, Cummins Model QSM-11 (11 Liter, 400 hp maximum) diesel engine. The crusher has a 12 cu.yd. feed hopper which feeds the crusher unit, which is a Trio APP 4354 horizontal shaft impactor with 750 TPH maximum throughput. The crusher system has the following conveyors: Collection Conveyor: 48" belt width, approx 12' Long; and Discharge Conveyor: 48" belt width, approx 42' Long. The crusher has three (3) water spray bars: one located at the in-feed to the crusher; one located at the output; and one located at the end of the product discharge conveyor.
