Bureau of Air Monitoring & Mobile Sources
CONCRETE BATCHING PLANT
 AIR GENERAL PERMIT REGISTRATION FORM

Bureau of Air & Mobile Sources

Part II. Notification to Permitting Office
 (Detach and submit to appropriate permitting office; keep copy onsite)

Instructions: To give notice to the Department of an eligible facility's intent to use this air general permit, the owner or operator of the facility must detach and complete this part of the Air General Permit Registration Form and submit it to the appropriate Department of Environmental Protection or local air pollution control program office which has permitting authority. Please type or print clearly all information, and enclose the appropriate air general permit registration processing fee pursuant to Rule 62-4.050(4)(o), F.A.C. (\$100 as of the effective date of this form)

7715642-001

Registration Type

Check one:

INITIAL REGISTRATION - Notification of intent to:

Construct and operate a proposed new facility.

Operate an existing facility not currently using an air general permit (e.g., a facility proposing to go from an air operation permit to an air general permit).

RE-REGISTRATION (for facilities currently using an air general permit) - Notification of intent to:

Continue operating the facility after expiration of the current term of air general permit use.

Continue operating the facility after a change of ownership.

Make an equipment change requiring re-registration pursuant to Rule 62-210.310(2)(e), F.A.C., or any other change not considered an administrative correction under Rule 62-210.310(2)(d), F.A.C.

D.D.
D.D.

Surrender of Existing Air Operation Permit(s) - For Initial Registrations Only

If the facility currently holds one or more air operation permits, such permit(s) must be surrendered by the owner or operator upon the effective date of this air general permit. In such case, check the first box, and indicate the operation permits being surrendered. If no air operation permits are held by the facility, check the second box.

All existing air operation permits for this facility are hereby surrendered upon the effective date of this air general permit; specifically permit number(s):

No air operation permits currently exist for this facility.

General Facility Information

Facility Owner/Company Name (Name of corporation, agency, or individual owner who or which owns, leases, operates, controls, or supervises the facility.)

Orlando Ready-Mix Concrete Products, Incorporated

Site Name (Name, if any, of the facility site; e.g., Plant A, Metropolis Plant, etc. If more than one facility is owned, a registration form must be completed for each.)

Orlando Ready-Mix Concrete Products

Facility Location (Provide the physical location of the facility, not necessarily the mailing address.)

Street Address: 9961 Boggy Creek Dr.
 City: Orlando County: Orange Zip Code: 32824 - 8724

Facility Start-Up Date (Estimated start-up date of proposed new facility.)(N/A for existing facility)

September 20th, 2010

Type of Facility

Check one:

Stationary Facility

Relocatable Facility

Type(s) of Reasonable Precautions Used to Prevent Unconfined Emissions

Check all precautions to be used for the management of roads, parking areas, stock piles and yards:

Pave Roads

Pave Parking Areas

Pave Yards

Maintain Roads/Parking/Yards

Use Water Application

Use Dust Suppressant

Remove Particulate Matter

Reduce Stock Pile Height

Install Wind Breaks

Check all precautions to be used for the management of drop points to trucks:

Spray Bar

Chute

Enclosure

Partial enclosure

Description of Reasonable Precautions

Below, or as an attachment to this form, provide details of all types of reasonable precautions to be used to prevent unconfined emissions at the facility.

Unconfined emissions will be prevented by partially paved drives and parking areas, maintenance of paved roads and drives including periodic dry sweeping for removal of potential particulate matter, water application to stock piles and unpaved drives, and barrier walls for material stock piles.

Description of Facility

Below, or as an attachment to this form, provide a description of the concrete batching plant operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe all air pollutant-emitting processes and equipment at the facility, and identify any air pollution control measures or equipment used.

A concrete ready-mix batch plant:

The plant that will be installed will be a Rex-con LoGo 5 portable. The plant has an integral silo with a 30 ton capacity. The plant will be supplemented with another silo with a capacity of 50 tons. Both silos will use a PDC50R01 Dust Collector manufactured by Wam. The typical silo loading rate is approximately 27 tons per hour.

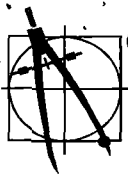

Air pollution control equipment:

- WAM (PDC50R01), ~264 square-feet filter area (Silo 1)
- WAM (PDC50R01), ~264 square-feet filter area (Silo 2)

8/18/10 - 0915 HRS

Called Doug Bauman for
any info on control devices
for mixer/batcher and/or truck
load-out.

**RE: Concrete Batching Plant Air General Permit Registration Package
Orlando Ready-Mix Concrete Products, Inc.
9961 Boggy Creek Dr., Orlando, Orange County, Florida 32824**

Dear Mr. Dibble:

Please find the completed Concrete Batching Plant Air General Permit Registration package for the above referenced facility.

Please note the new Orlando Ready-Mix Concrete Products, Inc concrete batch plant is located at the same location as the former Orlando Read-Mix's (Facility ID# 0951304) concrete batch plant; however, the site will have new concrete batch plant equipment and the owner/operator is different. Therefore, a new General Permit/Facility ID is required.

Should you have any question pertaining to this package, please contact me at (407) 822-7655.

Regards,
General Civil & Environmental Engineering LLC
