AIR GENERAL PERMIT REGISTRATION FORM**

RECEIVED

DEC 21 2010

Part II. Notification to Permitting Office

(Detach and submit to appropriate permitting office; keep copy on file)
Bureau of Air Monitoring & Mobile Sources

Instructions: To give notice to the Department of an eligible facility's intent to use this air general permit, the owner or operator of the facility must detach and complete this part of the Air General Permit Registration Form and submit it to the appropriate Department of Environmental Protection or local air pollution control program office which has permitting authority. Please type or print clearly all information, and enclose the appropriate air general permit registration processing fee pursuant to Rule 62-4.050, F.A.C. (\$100 as of the effective date of this form)

7775663-001

Registration Type

Check one:

INITIAL REGISTRATION - Notification of intent to:

- Construct and operate a proposed new facility.
 Operate an existing facility not currently using an air general permit (e.g., a facility proposing to go from an air operation permit to an air general permit).

RE-REGISTRATION (for facilities currently using an air general permit) - Notification of intent to:

- Continue operating the facility after expiration of the current term of air general permit use.
 Continue operating the facility after a change of ownership.
 Make an equipment change requiring re-registration pursuant to Rule 62-210.310(2)(e), F.A.C., or any other change not considered an administrative correction under Rule 62-210.310(2)(d), F.A.C.

Surrender of Existing Air Operation Permit(s) - For Initial Registrations Only

If the facility currently holds one or more air operation permits, such permit(s) must be surrendered by the owner or operator upon the effective date of this air general permit. In such case, check the first box, and indicate the operation permits being surrendered. If no air operation permits are held by the facility, check the second box.

- All existing air operation permits for this facility are hereby surrendered upon the effective date of this air general permit; specifically permit number(s): _____
 No air operation permits currently exist for this facility.

Good evening Debbie!

Hope you are having a Happy New Year!

I am writing as a courtesy reminder that I have not yet received a response to my January 4, 2011 e-mail below requesting clarification as to whether or not a crusher is to be included on the Nonmetallic Mineral Processing Plant AGP Form. If there is no crusher to be included on this entitlement then we will continue with the registration and entitlement process as submitted.

If there is to be a crusher included on this entitlement, I will need to know the following information no later than close of business on Monday, January 17th, 2011 in order to add it as an addendum to the submitted form. If no crusher, I will need to be advised of that fact by no later than the same date.

- 1) Manufacturer: Cedarapids
- 2) Model #: 3633
- 3) Serial #: 33555
- 4) Maximum machine rated capacity (regardless of the material being processed): 200 tons
- 5) Type (hammer, jaw, cone, etc): Hammer
- 6) Feeder size:
- 7) Number & location of spray-bars: Two spray-bars - one on the crusher and one on the feeder

Thank you for your prompt attention to this matter.

Have a great day!

Sincerely yours,

Dick

Debbie,

Thank you for providing the information I requested from Paul, however I am a bit confused (not unusual).

You mentioned in your e-mail below that "Paul is getting the information on the Generator for the Crusher, and will get that to you as soon as he has it.", but there is no mention of a crusher on the submitted Air General Permit Registration Form. The form was submitted as an Asphalt Screening Operation, no mention of a crusher.

Could someone clarify that for me? Do we need to amend the original form to include/add a crusher? If so I will need similar particulars for the crusher.

Thanks for any insight you can provide.

Sincerely yours,

Dick
