NONMETALLIC MINERAL PROCESSING PLANTS (CRUSHERS)
AIR GENERAL PERMIT REGISTRATION FORM

DEC 27 2010

Part II. Notification to Permitting Office
(Detach and submit to appropriate permitting office; keep copy onsite)

Bureau of Air Monitoring
& Mobile Sources

Instructions: To give notice to the Department of an eligible facility's intent to use this air general permit, the owner or operator of the facility must detach and complete this part of the Air General Permit Registration Form and submit it to the appropriate Department of Environmental Protection or local air pollution control program office which has permitting authority. Please type or print clearly all information, and enclose the appropriate air general permit registration processing fee pursuant to Rule 62-4.050, F.A.C. (\$100 as of the effective date of this form)

7775664-001

Registration Type

Check one:

INITIAL REGISTRATION - Notification of intent to:

- Construct and operate a proposed new facility.
- Operate an existing facility not currently using an air general permit (e.g., a facility proposing to go from an air operation permit to an air general permit).

RE-REGISTRATION (for facilities currently using an air general permit) - Notification of intent to:

- Continue operating the facility after expiration of the current term of air general permit use.
- Continue operating the facility after a change of ownership.
- Make an equipment change requiring re-registration pursuant to Rule 62-210.310(2)(c), F.A.C., or any other change not considered an administrative correction under Rule 62-210.310(2)(d), F.A.C.

Surrender of Existing Air Operation Permit(s) - For Initial Registrations Only

If the facility currently holds one or more air operation permits, such permit(s) must be surrendered by the owner or operator upon the effective date of this air general permit. In such case, check the first box, and indicate the operation permits being surrendered. If no air operation permits are held by the facility, check the second box.

All existing air operation permits for this facility are hereby surrendered upon the effective date of this air general permit; specifically permit number(s):

No air operation permits currently exist for this facility.

General Facility Information

Facility Owner/Company Name (Name of corporation, agency, or individual owner who or which owns, leases, operates, controls, or supervises the facility.)

R. Huston Hollister / Sunbelt Crushing, LLC

Site Name (Name, if any, of the facility site; e.g., Plant A, Metropolis Plant, etc. If more than one facility is owned, a registration form must be completed for each.)

Sunbelt Crushing, LLC Panama City Yard

Facility Location (Provide the physical location of the facility, not necessarily the mailing address.)

Street Address: 1653 Maple Avenue

City: Panama City

County: Bay

Zip Code: 32405-6044

Facility Start-Up Date (Estimated start-up date of proposed new facility. (N/A for existing facility)

January 15, 2010

Type of Facility

Check one:
 Stationary Facility Relocatable Facility

Type(s) of Precautions Used to Prevent Unconfined Emissions

Check all that apply for the management of roads, parking areas, stock piles and yards:

<input type="checkbox"/> Maintain Roads/Parking/Yards	<input checked="" type="checkbox"/> Use Water Application	<input checked="" type="checkbox"/> Use Dust Suppressant
<input type="checkbox"/> Remove Particulate Matter	<input type="checkbox"/> Reduce Stock Pile Height	<input type="checkbox"/> Install Wind Breaks

Check the location of spray bars at the nonmetallic mineral processing plant:

<input checked="" type="checkbox"/> Feeders	<input checked="" type="checkbox"/> Entrance to "Crusher"	<input type="checkbox"/> Exit of "Crusher"
<input checked="" type="checkbox"/> Classifier Screens	<input type="checkbox"/> Conveyor Drop Points	

Description of Reasonable Precautions

Below, or as an attachment to this form, provide details of all types of reasonable precautions to be used to prevent unconfined emissions at the facility.

Water Spray.

* SEE ATTACHED E-MAIL DATED 01/12/11
AS AN ADDENDUM TO THIS FORM

Description of Facility

Below, or as an attachment to this form, provide a description of the nonmetallic mineral processing operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe all air pollutant-emitting processes and equipment at the facility, and identify any air pollution control measures or equipment used.

mobile rock crusher that has a Diesel powered generator, dust emissions at transfer point treated with water sprayers.

used to recycle concrete rubble into road base, to be used in lieu of limestone or other natural aggregates.

material will be loaded into crusher, crushed, screened, discharged, stockpiled and loaded onto trucks.

Subject: Response to :Request for additional information - Nonmetallic Mineral Processing Plant Air General Permit (NMMP AGP) Registration Form, Page 10, Description of Facility, equipment identification
Attachments: Lippman Plant 001.tif

Dear Mr. Dibble,

Enclosed is the additional information you requested: Please note that the crusher has an electric motor that is powered by an auxiliary generator. The Reciprocating Internal Combustion Engine information listed is for the generator.

- C Crusher (if more than one, list each)
- a) Make : Lippman
 - b) Model # 4800
 - c) Serial # 2010 -11193
 - d) Machine rated capacity in T/hr (**not production rate, but maximum machine rated capacity regardless of material processed**) : maximum 150 T/hr
- 2) Screener(s) – stand-alone, (if more than one, list each)
- a) Make: None
 - b) Model #
 - c) Serial #
 - d) Size of screen(s)
 - e) Decks (single , 2x, 3x, etc.)
 - f) Machine rated capacity in T/hr (**not production rate, but maximum machine rated capacity regardless of material processed**)
- 3) Conveyor(s) – stand-alone, (if more than one, list each)
- a) Make : None
 - b) Model #
 - c) Serial # or belt size
 - d) Type (transfer, stacker, enclosed, auger, etc.)
 - e) If a stacker, list height
- 4) Reciprocating Internal Combustion Engines (RICE) (**list only those used as a power source for crusher, screener, conveyor operations, not those associated with front-end loaders, excavators, trucks, material haulers**)
- a) Make : Caterpillar
 - b) Model # C18
 - c) Serial # EKW01144
 - d) Hp :400
 - e) Fuel type : Diesel

Thank you for your assistance in this matter.

If you need additional information, please feel free to contact me.

Sincerely,

Pamela Kay

LIPPMANN 4800 SERIES

IMPACT CRUSHING PLANTS OFFER GREATER VALUE

SUPERIOR QUALITY, MORE PORTABILITY AND BETTER FEATURES FOR THOUSANDS LESS!

Introducing the 4800 Impact Crushing Plant from Lippmann. The ultimate, completely self-contained easy to transport crushing plant for recycle crushing or aggregate processing that offers contractors all the features they need.

- Lippmann's 4248LP Impactor with a true 34"x48" feed opening that devours concrete full of rebar, ripped asphalt and C&D debris.
- 47"x16' feeder with 4' grizzly and by-pass chute.
- 48"x72" pan feeder under the impactor that allows rebar to pass easily without tearing belts.
- 360HP diesel engine with 75kW generator set.
- 13'6" travel height, 8'6" width, under 60,000 lbs. on triple axle, 95,000 lbs. total gross weight.
- 48" discharge conveyor.
- Continuous same direction material flow.
- 36" permanent magnet (optional).
- 52"x8' single deck inclined scalping screen (optional).
- Abrasion-resistant hopper.

The Lippmann 4800 is the complete, quality impact crushing plant designed to make you more profitable, at an *incredible value*. For more information, contact Lippmann today.

THE NAME YOU SHOULD KNOW FOR QUALITY CRUSHING MACHINERY.
