Good morning Mr. Harris,

This is just a friendly reminder, but we are down to the last three (3) days of the mandatory thirty (30) day review and processing time clock for your Nonmetallic Mineral Processing Plants Air General Permit Registration.

I am in need of the equipment information which we discussed during our telephone conversation on Tuesday, 02/22/11 and which I outlined in my e-mail of the same date (see below). Since that time I have left a couple of voicemail messages as a reminder.

I will need the information requested no later than close of business on Thursday, March 10th, or I will be forced to deny these entitlements and I really don't want to have to do that.

Please help me keep this on track.

Thank you for your attention to this matter.

Hope you have a great day!

Sincerely yours,

Dickson E. Dibble
