Good morning Roger and Doug!

I have received from Bottorf, the attached NMMP Plant AGP Registration Worksheet for a new mobile crusher facility.

The facility location is entered on the form as Edgewood St in Jacksonville and the Zip Code entered (34787) is for **Winter Haven**. My problem is that I am trying to obtain GPS coordinate data and am not having any success

I can't locate an Edgewood St in Jacksonville, but there are the following Edgewood's in Jacksonville.

Edgewood Drive N
Edgewood Drive S
Edgewood Avenue N
Edgewood Avenue S
Edgewood Avenue W
Edgewood Circle
Edgewood Court

These are the available Zip Codes for all streets in Jacksonville which contain the word "EDGEWOOD".

32219
32209
32208
32254
32205

While I understand that this facility is a relocatable and it is sometimes difficult to obtain a decent location address in these situations, I need something better than what has been provided on the form. I appreciate any assistance that you may be able to provide.

If you have any questions, comments or concerns please e-mail or call.

Thank you and have a great day!

Regards,

Dick

Dick,

I have discussed this issue with the client and we have located the job site as being near the intersection of I-10 and Edgewood Ave. South the correct zip code is 32254. Approximate GPS coordinates are 30 19.127' N and 81 43.616' W. The site is along the roadway near exit 358 on I-10.

Thank you,

Kent D. Bottorf
