

NONMETALLIC MINERAL PROCESSING PLANT (CRUSHER)
AIR GENERAL PERMIT EXAMPLE REGISTRATION WORKSHEET

Facility Identification Number - If known (seven digit number)

— 0010128 **0010128-002**

Registration Type

Check one:

INITIAL REGISTRATION - Notification of intent to:

- Construct and operate a proposed new facility.
- Operate an existing permitted facility not currently using an air general permit (e.g., a facility proposing to go from an air operation permit to an air general permit). If the facility currently holds one or more air operation permits, such permit(s) must be surrendered by the owner or operator upon the effective date of this air general permit. (See "Surrender of Existing Air Operation Permit(s)" below.)
- Operates an existing facility not currently permitted or using an air general permit.

RE-REGISTRATION (for facilities currently using an air general permit) - Notification of intent to:

- Continue operating the facility after expiration of the current term of air general permit use.
- Continue operating the facility after a change of ownership.
- Make an equipment change requiring re-registration pursuant to Rule 62-210.310(2)(e), F.A.C.
- Any other change not considered an administrative correction under Rule 62-210.310(2)(d), F.A.C.

Surrender of Existing Air Operation Permit(s) - For Initial Registrations Only, if Applicable

All existing air operation permits for this facility are hereby surrendered upon the effective date of this air general permit; specifically permit number(s):

General Facility Information

Facility Owner/Company Name (Name of corporation, agency, or individual owner who or which owns, leases, operates, controls, or supervises the facility.)

— Florida Concrete Recycling Inc.

Site Name (Name, if any, of the facility site; e.g., Plant A, Metropolis Plant, etc. If more than one facility is owned, a complete registration must be submitted for each.)

— 930 SW 3rd Street

Facility Location (Physical location of the facility, not necessarily the mailing address.)

Street Address:

City: Gainesville

County: Alachua

Zip Code: 32601-7934

Facility Start-Up Date (Estimated start-up date of proposed new facility.)(N/A for existing facility.)

— N/A

Facility Contact

<u>Name and Position Title</u> (Plant manager or person to be contacted regarding day-to-day operations at the facility.) Print Name and Title: <u>Tim Renfroe - Owner</u>		
<u>Facility Contact Telephone Numbers</u> Telephone: <u>352-372-1237</u> Fax: <u>352-372-9272</u> Cell phone: <u>352-494-4506</u> E-mail: <u>f1crinc@bellsouth.net</u>		
<u>Facility Contact Mailing Address</u> Organization/Firm: <u>Florida Concrete Recycling Inc</u> Mailing Address: <u>930 SW 3rd St</u> City: <u>Gainesville</u> County: <u>Alachua</u> Zip Code: <u>32601-7934</u>		

Other Contact/Representative (to serve as additional Department contact)

<u>Name and Position Title</u> <u>William Renfroe III - plant supervisor</u> Print Name and Title: _____		
<u>Other Contact/Representative Telephone Numbers</u> Telephone: <u>352-372-1237</u> Fax: _____ Cell phone: _____ E-mail: _____		
<u>Other Contact/Representative Mailing Address</u> Organization/Firm: <u>SAME</u> Mailing Address: _____ City: _____ County: _____ Zip Code: _____		

Affected Facilities Description

Affected Facility	Manufacturer	Date of Manufacture	Model Number	Identifier & Serial Number	Size (TPH, hp, kW, etc.)	Subject to 40 CFR Part 60, Subpart OOO	
						Yes	No
Primary Crusher(s)	Armadillo Jaw Crusher	Post-1983	2436	CR-1	150 TPH	X	<input type="checkbox"/>
Secondary Crusher(s)	Horizontal Impact Cedar Rapids	Post-1983	4040	CR-2	150 TPH	X	<input type="checkbox"/>
Screening Operation(s)	Simplicity	Pre-1983	4 x 12 Single Deck	SC-1	48 FT ²	<input type="checkbox"/>	X
	Tyler Tyrock	Pre-1983	5 x 14 Double Deck	SC-2	70 FT ²	<input type="checkbox"/>	X
Belt Conveyor(s)	In-House	Post-1983		BC-1 Delivery	24 IN.	X	<input type="checkbox"/>
	In-House	Post-1983		BC-2 Delivery	24 IN.	X	<input type="checkbox"/>
	In-House	Post-1983		BC-3 Delivery	24 IN.	X	<input type="checkbox"/>
	In-House	Post-1983		BC-4 Delivery	36 IN.	X	<input type="checkbox"/>
	In-House	Post-1983		BC-5 Delivery	24 IN.	X	<input type="checkbox"/>
	In-House *	Post-1983		BC-6 Delivery	24 IN.	X	<input type="checkbox"/>
	In-House	Post-1983		BU-1 Underbelt	24 IN.	X	<input type="checkbox"/>
	In-House	Post-1983		BU-2 Underbelt	24 IN.	X	<input type="checkbox"/>
	In-House	Post-1983		BU-3 Underbelt	24 IN.	X	<input type="checkbox"/>
	In-House	Post-1983		BU-4 Underbelt	24 IN.	X	<input type="checkbox"/>
	In-House	Post-1983		BS-1 Stacker	24 IN.	X	<input type="checkbox"/>
	In-House *	Post-1983		BS-2 Stacker	24 IN.	X	<input type="checkbox"/>
	In-House	Post-1983		BS-3 Stacker	24 IN.	X	<input type="checkbox"/>
	In-House *	Post-1983		SR-1 Screw Conveyor	24 IN.	<input type="checkbox"/>	X

Comments: Facility is operated by electric power.

The facility has a loading hopper and a grizzly (manufactured pre-1983) as well; however, these points are not subject to 40 CFR 60, Subpart OOO.

* The following items process saturated materials: Belt Conveyors BC-6, BS-2, and Screw Conveyor SR-1.

Description of Facility

Please see attached

Below, or as an attachment to this form, provide a description of the nonmetallic mineral processing plant operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe material(s) processed, all air pollutant-emitting processes, and identify any air pollution control measures used. Mobile source equipment information is not needed (eg.: trucks, bulldozers, front-end loaders, etc.)

facility crushes concrete from construction and demolition sites.

~~See Attached~~

Helpful Definitions:

"Capacity" – Per 40 CFR 60.671, the cumulative rated capacity of all initial crushers that are part of the plant.

"Department" or "DEP" - The State of Florida Department of Environmental Protection.

"Emissions Unit" - Any part or activity of a facility that emits or has the potential to emit any air pollutant.

"Facility" - All of the emissions units which are located on one or more contiguous or adjacent properties, and which are under the control of the same person (or persons under common control).

"Owner" or "Operator" - Any person or entity who or which owns, leases, operates, controls or supervises an emissions unit or facility.

"Nonmetallic Mineral Processing Plant" – Per 40 CFR 60.671, any combination of equipment that is used to crush or grind any nonmetallic mineral wherever located, including lime plants, power plants, steel mills, asphalt concrete plants, portland cement plants or any other facility processing nonmetallic minerals except as provided in 40 CFR §60.670 (b) and (c).

"Relocatable Facility" - A facility such as, but not limited to, an asphalt plant, portable power generator, or relocatable nonmetallic mineral processing plant, which is designed to be physically moved to, and operated on, different sites by being wholly or partially dismantled and re-erected in essentially the same configuration. It shall not be operable while in transit.

"Screening Operation" – Per 40 CFR 60.671, a device for separating material according to size by passing undersize material through one or more mesh surfaces (screens) in series and retaining oversize material on the mesh surfaces (screens). Grizzly feeders associated with truck dumping and static (non-moving) grizzlies used anywhere in the nonmetallic mineral processing plant are not considered to be screening operations.

"Size" – Per 40 CFR 60.671, the rated capacity in tons per hour of a crusher, grinding mill, bucket elevator, bagging operation, or enclosed truck or railcar loading station; the total surface area of the top screen of a screening operation; the width of a conveyor belt; and the rated capacity in tons of a storage bin.

"Unconfined Emissions" - Emissions which escape and become airborne from unenclosed operations or which are emitted into the atmosphere without being conducted through a stack.

The facility crushes material from construction and demolition sites. The facility is capable of separating the crushed materials into four categories- dirt metal and two different grades of concrete. The metals found in the construction and demolition material does not make up the majority of the material stream, therefore the facility can be considered a nonmetallic mineral processing facility. A process flow diagram is attached.

Description of Facility

Below, or as an attachment to this form, provide a description of the nonmetallic mineral processing operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe all air pollutant-emitting processes and equipment at the facility, and identify any air pollution control measures or equipment used.

The facility meets the Eligibility Requirements specified in Rule 62-210.310(2), F.A.C.

The facility meets the fuel usage requirements specified in Rule 62-210.310(5)(e), F.A.C.

Please refer to Page 9 of the Nonmetallic Mineral Processing Plant Air General Permit Registration Form for air pollution control measures.

Please refer to Attachment 1 for a Facility Equipment List and Process Flow Diagram.

The facility's screening operations and grizzly were manufactured Pre-1983; therefore, the facility is not subject to 40 CFR 60, Subpart OOO. No testing frequency guidelines or conditions are prescribed in Rule 62-210.310(5)(e), F.A.C. for facilities not affected by 40 CFR 60, Subpart OOO.

The facility's crushers and belt conveyors were manufactured Post-1983; therefore, the facility is subject to 40 CFR 60, Subpart OOO. In accordance with 40 CFR 60, Subpart OOO, performance tests for visible emissions are required annually for these pieces of equipment.

Please refer to Attachment 2 for a copy of the facility's most recent compliance test report. Visible emissions observations for the facility were last conducted on December 22, 2006. The Compliance Test Report was submitted to the FDEP NE District Air Compliance Section on January 10, 2007.

DIVISION OF AIR
RESOURCE MANAGEMENT

Air General Permit Example Registration Worksheet

The Department of Environmental Protection ("Department" or "DEP") has established an "air general permit" at Florida Administrative Code ("F.A.C.") Rule 62-210.310(5)(e) for nonmetallic mineral processing plants. An air general permit is an authorization by rule to construct or operate a specific type of air pollutant emitting facility. Use of such authorization by any individual facility does not require action by the Department. The terms and conditions of the air general permit are set forth in the rule, rather than in a separately issued air construction or air operation permit.

If you are the owner or operator of an eligible facility comprising one or more nonmetallic mineral processing plants, you may register to use the air general permit at Rule 62-210.310(5)(e), F.A.C., by following the general procedures given at subsections 62-210.310(2) and 62-210.310(3), F.A.C. To register, use the Department's electronic registration system (currently under development) or submit all the information specified in the above rules to either of the following addresses, along with the air general permit registration processing fee (\$100.00), payable to FDEP.

Regular USPS Mail Delivery

Department of Environmental Protection
Receipts
Post Office Box 3070
Tallahassee, Florida 32315-3070

or

Overnight Delivery (FedEx, UPS, DHL, etc.)

Department of Environmental Protection
3800 Commonwealth Blvd.
Mail Station 77
Tallahassee, Florida 32399

If you properly register to use an air general permit, and are not denied use of the air general permit by the Department, you are authorized to construct and operate the facility in accordance with the general terms and conditions of Rule 62-210.310, F.A.C., and the specific terms and conditions of Rule 62-210.310(5)(e), F.A.C. Your facility may vary, so be sure your registration describes the operations at your facility in sufficient detail to demonstrate the facility's eligibility for use of the air general permit and to provide a basis for tracking any future equipment or process changes. Your registration should describe all air pollutant-emitting processes and equipment at the facility, and it should identify any air pollution control measures or equipment used.

The rules do not require any specific format for the registration. This worksheet, however, has been designed to assist owners and operators. Using it as a template for a general permit registration will help ensure that all necessary information is submitted.

Additional information can be found on the Department's air general permit program website (http://www.floridadep.org/air/emission/air_gp.htm) or by calling the Small Business Environmental Assistance Program Hotline at 1-800-SBAP-HLP (1-800-722-7457).
