Helpful Definitions.

“Emissions Unit” - Any part or activity of a facility that emits or has the potential to emit any air pollutant.

“Facility” - All of the emissions units which are located on one or more contiguous or adjacent properties, and which are under the control of the same person (or persons under common control).

“Owner” or “Operator” - Any person or entity who or which owns, leases, operates, controls or supervises an emissions unit or facility.

“Relocatable Facility” - A facility such as, but not limited to, an asphalt plant, portable power generator, or concrete batch plant, which is designed to be physically moved to, and operated on, different sites by being wholly or partially dismantled and re-erected in essentially the same configuration. It shall not be operable while in transit.

“Unconfined Emissions” - Emissions which escape and become airborne from unenclosed operations or which are emitted into the atmosphere without being conducted through a stack.

RE: General air permit renewals for six CEMEX concrete facilities.

Dear Sirs:

Attached with this letter are six (6) FDEP Air General Permit Registration Forms and six checks, each in the amount of \$100.00. This information is being submitted to your office in order to request renewal of general air permits for six of our concrete facilities located in Broward County, Florida. The various locations, permit numbers and check numbers are itemized on the next page for your convenience.

If you have any questions concerning these applications or need additional information to complete your reviews, please contact us at (561) 820-8415.

Sincerely,

A handwritten signature in black ink, appearing to read "J. Porter".
