Mr. Frank Perez
General Manager
Central Concrete Supermix, Incorporated
Concrete Plant No. 6
1817 Powerline Road
Deerfield Beach, Florida 33442

Dear Mr. Perez:

This is to acknowledge that your notification of intent to use the authority of Rule 62-210.310 to operate your **Concrete Batching Plant** facility was received on August 31, 2009. We have assigned ARMS No. 0112353-004 to this facility.

As you know, pursuant to Florida Statutes section 403.814, authority to operate under general permits commences thirty (30) days after receipt of the registration form unless you have been notified by this office that your facility has not shown entitlement to operate pursuant to the rule provisions.

If you have or expect any administrative changes in your mailing address, location address, responsible official, or telephone number, please notify the Department at the following address:

Air General Permits Office
Bureau of Air Monitoring and Mobile Sources MS 5510
Department of Environmental Protection
2600 Blair Stone Road
Tallahassee, FL 32399-2400

For your information, authority to operate pursuant to Rule 62-210.310 expires after five (5) years. Therefore, a new registration form must be received no later than five (5) years after the date your notice was received as indicated above. If your general permit rule conditions require testing, such testing must be completed within the time frame specified in the rule.

If you have any additional questions, please contact Dickson Dibble at 850/921-9586.

Sincerely,

Sandra F. Veazey, Chief
Bureau of Air Monitoring
and Mobile Sources

RECEIVED

SEP 02 2009

**CONCRETE BATCHING PLANT
AIR GENERAL PERMIT REGISTRATION FORM**

Part II. Notification to Permitting Office
(Detach and submit to appropriate permitting office; keep copy onsite) Bureau of Air Monitoring & Mobile Sources

Instructions: To give notice to the Department of an eligible facility's intent to use this air general permit, the owner or operator of the facility must detach and complete this part of the Air General Permit Registration Form and submit it to the appropriate Department of Environmental Protection or local air pollution control program office which has permitting authority. Please type or print clearly all information, and enclose the appropriate air general permit registration processing fee pursuant to Rule 62-4.050, F.A.C. (\$100 as of the effective date of this form)

0112353-004

Registration Type

Check one:

INITIAL REGISTRATION - Notification of intent to:

- Construct and operate a proposed new facility.
- Operate an existing facility not currently using an air general permit (e.g., a facility proposing to go from an air operation permit to an air general permit).

RE-REGISTRATION (for facilities currently using an air general permit) - Notification of intent to:

- Continue operating the facility after expiration of the current term of air general permit use.
- Continue operating the facility after a change of ownership.
- Make an equipment change requiring re-registration pursuant to Rule 62-210.310(2)(e), F.A.C., or any other change not considered an administrative correction under Rule 62-210.310(2)(d), F.A.C.

Surrender of Existing Air Operation Permit(s) - For Initial Registrations Only

If the facility currently holds one or more air operation permits, such permit(s) must be surrendered by the owner or operator upon the effective date of this air general permit. In such case, check the first box, and indicate the operation permits being surrendered. If no air operation permits are held by the facility, check the second box.

- All existing air operation permits for this facility are hereby surrendered upon the effective date of this air general permit; specifically permit number(s): _____
- No air operation permits currently exist for this facility.

Owner/Authorized Representative Statement

This statement must be signed and dated by the person named above as owner or authorized representative

I, the undersigned, am the owner or authorized representative of the owner or operator of the facility addressed in this Air General Permit Registration Form. I hereby certify, based on information and belief formed after reasonable inquiry, that the facility addressed in this registration form is eligible for use of this air general permit and that the statements made in this registration form are true, accurate and complete. Further, I agree to operate and maintain the facility described in this registration form so as to comply with all applicable standards for control of air pollutant emissions found in the statutes of the State of Florida and rules of the Department of Environmental Protection and revisions thereof.

I will promptly notify the Department of any changes to the information contained in this registration form.

Partial enclosure

Description of Reasonable Precautions

Below, or as an attachment to this form, provide details of all types of reasonable precautions to be used to prevent unconfined emissions at the facility.

Description of Facility

Below, or as an attachment to this form, provide a description of the concrete batching plant operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe all air pollutant-emitting processes and equipment at the facility, and identify any air pollution control measures or equipment used.

The facility operates a Ready- Mixed Concrete Batch Plant at a rate of 100 Ton/Hr

Cementitious storage facility consists of two silos, one for cement and other for slsg.

Dustly-Dustless, Mod. D144 baghouses serve each silo, and a Dustly Dustless Mod. 18VD baghouse the weigh hopper at the truck loadout.

Good Morning Dickson,

As per your telephone conversation with Frank, this email is to confirm that the information given to you by Tom Figari is correct.

If you have any further concerns or questions, don't hesitate to contact me.

Have a great Weekend! ☺

Dear Maggie,

I just got off the phone with Tom. Tom did not have any equipment details, but simply said that there have been no changes since 2004 and since he has been there during the last fifteen (15) years. He did say that Mr. Perez can verify the equipment at the plant.

I will wait until you hear from Mr. Perez confirming that what he has on the form (attached), Page 10, is the actual equipment installed at the plant. Once I receive that confirmation from him, through you via e-mail, I will then make any changes that are needed to our database.

Thank you for your assistance and have a great evening!

Sincerely,

Dickson E. Dibble

I spoke to our Plant Manager at that facility and he informed me there hasn't been any change since 2004. He will be calling you, to answer the questions.

Hope this helps, let me know if you need anything else.

Maggie,

Per our conversation just a few moments ago, you will find below and above as an attachment, the e-mail which I sent to Mr. Perez on September 9, 2009. Since Mr. Perez has not yet responded to my request I am getting a bit concerned. If I am not in receipt of the information by no later than September 30, 2009, I will have to deny the registration to renew the Concrete Batching Plant Air General Permit Registration for Plant No. 6, and I would rather not have to do that.

Thank you for any assistance that you can provide.

Have a nice evening!

Sincerely,

Dickson E. Dibble

Subject: Facility ID# 0112353, Central Concrete Supermix Inc dba Central concrete Supermix-Plant #6, 1817 S. Powerline Rd, Deerfield Beach, FL 33442

Dear Mr. Perez,

I am currently in the middle of the review and registration process for the purpose of renewal of the subject item facility's Concrete Batching Plant Air General Permit Registration.

I have a couple of questions that came up during the initial review for which I need confirmation.

1. The registration form which you have submitted indicates that there may have been a Change of Equipment (silo emission control units) since the previous registration renewal in 2004. I need confirmation from you before I alter the data in our database. Our records indicate that both of your silos at this facility are each controlled by individual Stephen's baghouses, Model SV-270. Your form indicates that the two silo baghouses are Dusty-Dustless Model D144.
2. Secondly we have no information in our database for the weigh hopper at the truck load-out or an associated emission control device. Your registration indicates that the weigh hopper emissions at the truck load-out are controlled by a Dusty-Dustless Model 18VD baghouse.
3. How are the silo baghouses mounted? Silotop or ground mounted? Is the weigh hopper dust collection point ducted and/or shrouded at the load-out to a central unit?

This is just a reminder, that whenever there is a change of process and/or emission control equipment and/or processes, rules require that a new registration form be filed prior to the installation of the new equipment, or changes in process occur.

Thank you for your attention to these matters and any clarification which you can provide to the above concerns. You may send your clarifications by e-mail and I will simply attach your e-mail as an addendum to your original registration.

Have a great day!

Sincerely,

Dickson E. Dibble
