Dear Business Owner

It has been come to my attention that your dry cleaning business at 4952 N UNIVERSITY DR does not have an air permit. I work for the Department's Division of Air Resources Management Small Business Assistance Program. This program acts as your environmental advocate, to assist you with your business's environmental compliance. Our job is to help you understand what your business needs to do to be in compliance, offer you technical advice to that end and to assist you in applying for the necessary permits.

Again, I'm contacting you unsolicited to remind you that if your business uses PERC, you need to obtain a title V permit. This requirement for a permit is implemented through Chapter 62-213, Florida Administrative Code and enforced by both Department of Environmental Protection and Broward County environmental inspectors. I have enclosed a title V general permit notification form for your use. The first 10 pages explain the laws, pages 11 and 12 are instructions for completing the form and the last 3 pages are the actual notification form.

If you need any assistance understanding or completing the notification form, or if I can offer other assistance, please call me at our toll free number 800-722-7457. Our program operates in the strictest confidence, information you share with our office is not available to compliance and enforcement personnel. I encourage you to apply for a permit as soon as possible and avoid enforcement.

Sincerely,

Thomas LeDew

Dear Business Owner:

The United States Environmental Protection Agency has promulgated regulations to establish air pollution permit requirements enacted by the Clean Air Act Amendments of 1990. The Department administers these regulations in the State of Florida and has implemented those requirements through Chapter 62-213, Florida Administrative Code (F.A.C.), Operation Permits for Major Sources of Air Pollution.

Your business may be subject to these permitting requirements. However, if your business qualifies as a "small business", you may be eligible to operate under a Title V Air General Permit. Enclosed is a Title V Air General Permit Notification Form that you may use to notify the Department if your business is eligible and you wish to claim entitlement to use this general permit.

If you claim entitlement for your facility to use the general permit, the Responsible Official (R.O.) for the facility, as defined in Part II of the notification form, must certify that the facility qualifies for the general permit and must ensure that it complies with all applicable terms and conditions of the general permit. The notification form must be completed and submitted to the Department at least 30 days prior to beginning operation.

Please submit an original form, completed and certified (signed by the R.O.), to the following address. A copy of this notification form must be kept at the facility.
