Dear Mr. Somers:

This is to acknowledge that your notification of intent to use the authority of Rule 62-210.310 to operate your facility was received on August 4, 2008. We have assigned ARMS No. 0270018-003 to this facility.

As you know, pursuant to Florida Statutes section 403.814, authority to operate under general permits commences thirty days after receipt of the registration form unless you have been notified by this office that your facility has not shown entitlement to operate pursuant to the rule provisions.

For your information, authority to operate pursuant to Rule 62-210.310 expires after 5 years. Therefore, a new registration form must be received no later than 5 years after the date your notice was received as indicated above. If your general permit rule conditions require testing, such testing must be completed within the time frame specified in the rule.

If you have any additional questions, please contact Dickson Dibble at 850/921-9586.

This Air General Permit Registration is to add a dust collector to the existing weigh hopper and batcher at the Tremron Arcadia facility. Emissions from the weigh hopper and batcher will be controlled by a C&W Modular Cartridge Plus Series Dust Collector, Model MCP-12500 (EU 007). The weigh hopper and batcher are located inside the plant, the dust collector will be located outside of the plant. The Tremron Arcadia facility produces concrete paver stones. The Tremron Arcadia facility consists of offices, paver manufacturing machinery, cement storage silos, conveyors, aggregate storage areas and various support equipment. The plant operates two production lines with six storage silos. All silos will employ WAM Silotop Ro1 Series cartridge dust collectors to control emissions from pneumatic loading of product from tanker truck to the silos.
