

Florida Department of Environmental Protection

Bob Martinez Center 2600 Blair Stone Road Tallahassee, Florida 32399-2400 Charlie Crist Governor

Jeff Kottkamp Lt. Governor

Michael W. Sole Secretary

October 15, 2008

Mr. Sigurd Bo
Environmental Manger
CEMEX Construction Materials Florida, LLC
Baymeadows Ready-Mix Plant
7460 Phillips Highway
Jacksonville, Florida 32216

Dear Mr. Bo:

This is to acknowledge that your notification of intent to use the authority of Rule 62-210.310 to operate your facility was received on September 11, 2008. We have assigned ARMS No. <u>0310276-004</u> to this facility.

As you know, pursuant to Florida Statutes section 403.814, authority to operate under general permits commences thirty (30) days after receipt of the registration form unless you have been notified by this office that your facility has not shown entitlement to operate pursuant to the rule provisions.

For your information, authority to operate pursuant to Rule 62-210.310 expires after five (5) years. Therefore, a new registration form must be received no later than five (5) years after the date your notice was received as indicated above. If your general permit rule conditions require testing, such testing must be completed within the time frame specified in the rule.

If you have any additional questions, please contact Dickson Dibble at 850/921-9586.

Sincerely,

Sandra F. Veazey, Chief Bureau of Air Monitoring and Mobile Sources

SFV/pg

CONCRETE BATCHING PLANT AIR GENERAL PERMIT REGISTRATION FORM

Part II. Notification to Permitting Office

(Detach and submit to appropriate permitting office; keep copy onsite)

Instructions: To give notice to the Department of an eligible facility's intent to use this air general permit, the owner or operator of the facility must detach and complete this part of the Air General Permit Registration Form and submit it to the appropriate Department of Environmental Protection or local air pollution control program office which has permitting authority. Please type or print clearly all information, and enclose the appropriate air general permit registration processing fee pursuant to Rule 62-4.050(4)(o), F.A.C. (\$100 as of the effective date of this form)

62-4.050(4)(o), F.A.C. (\$100 as of the effective date of this form)
Registration Type 02-4.050(4)(0), F.A.C. (\$100 as of the effective date of this form) 03/0276-00
Check one:
INITIAL REGISTRATION - Notification of intent to: ☐ Construct and operate a proposed new facility. ☐ Operate an existing facility not currently using an air general permit (e.g., a facility proposing to go from an air operation permit to an air general permit).
RE-REGISTRATION (for facilities currently using an air general permit) - Notification of intent to: Continue operating the facility after expiration of the current term of air general permit use. Continue operating the facility after a change of ownership. Make an equipment change requiring re-registration pursuant to Rule 62-210.310(2)(e), F.A.C., or any other change not considered an administrative correction under Rule 62-210.310(2)(d), F.A.C.
Surrender of Existing Air Operation Permit(s) - For Initial Registrations Only
If the facility currently holds one or more air operation permits, such permit(s) must be surrendered by the owner or operator upon the effective date of this air general permit. In such case, check the first box, and indicate the operation permits being surrendered. If no air operation permits are held by the facility, check the second box. All existing air operation permits for this facility are hereby surrendered upon the effective date of this air general permit; specifically permit number(s): 0310276-003-AG
No air operation permits currently exist for this facility.

Facility Start-Up Date (Estimated start-up date of proposed new facility.)(N/A for existing facility) N/A

DEP Form No. 62-210.920(2)(b) Effective: January 10, 2007

Description of Facility

Below, or as an attachment to this form, provide a description of the concrete batching plant operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe all air pollutant-emitting processes and equipment at the facility, and identify any air pollution control measures or equipment used.

This facility consists of a ready-mix plant, using cement, flyash, slag and aggregate materials to produce ready-mix concrete. Dust emissions from this plant are controlled by the following methods.

Emissions generated during pneumatic filling of the cement siloas are controlled by C&W CP305 baghouses.

Emissions generated during pneumatic filling of the Flyash / Slag silo is controlled by a C&W CP 230 baghouse

Emissions generated from the batching/truck loading operation are controlled by a shroud and a APPCO Model 60-7000 central dust collector, the emissions generated during the weighing of cement, flyash, and slag are also controlled by this collector.

Emission Units (EU'S) are as follows:

Cement Silo Compartment 1: Point ID No: 01
Cement Silo Compartment 2: Point ID No: 02
Flyash / Slag Silo: Point ID No: 03
Truck Loadout and Weigh Hopper: Point ID No: 04

DEP Form No. 62-210.920(2)(b) Effective: January 10, 2007

Owner/Authorized Representative Name and Position Title (Person who, by signing this form below, certifies that the facility is eligible to use this air general permit.) Print Name and Title: Sigurd Bo, Environmental Manager - Central Materials Division Owner/Authorized Representative Mailing Address Organization/Firm:CEMEX Construction Materials Florida, L.L.C. DEP Form No. 62-210.920(2)(b) Effective: January 10, 2007

Type of Facility Check one: Stationary Facility ☐ Relocatable Facility Type(s) of Reasonable Precautions Used to Prevent Unconfined Emissions Check all precautions to be used for the management of roads, parking areas, stock piles and yards: Pave Roads Pave Parking Areas Pave Yards Maintain Roads/Parking/Yards Use Water Application **Use Dust Suppressant** Remove Particulate Matter Reduce Stock Pile Height ☐ Install Wind Breaks Check all precautions to be used for the management of drop points to trucks: Spray Bar ☐ Chute ☐ Enclosure Partial enclosure **Description of Reasonable Precautions** Below, or as an attachment to this form, provide details of all types of reasonable precautions to be used to prevent unconfined emissions at the facility. CEMEX Construction Materials Florida, L.L.C. takes reasonable precautions to control unconfined emissions from hoppers, storage and conveying equipment, conveyor drop points, truck loading and unloading, roads, parking areas, stock piles and yards as required by Rule 62-296.320(4)(c), F.A.C. The following are the precautions taken at this facility. Regular sweeping and/or the application of water to the yard is used to control airborne emissions. Regular removal of particulate matter from roads, paved areas and work areas serves to reduce airborne particulate matter. The height of stock piles are reduced and the aggregates are continuously sprayed to mitigate wind entrainment of particulate matter. The loadout area is partially enclosed to prevent emissions at the drop point into the truck.
