Dear Pat & Kathleen,

On March 9th, 2012, SWD's Sherrill Culliver changed the Facility Status to INACTIVE per the attached CEMEX letter (.pdf file).

I don't recall whether I notified either of you or not, in order that the file(s) on this facility can be closed out and the e-files be updated. I was unable to find a copy of the letter in the facility's e-file, so I assumed that I failed to notify you at that time.

Better late than never, so let this serve as my notification to you.

If you have any questions, comments or concerns please e-mail or call.

Thank you all for your great support work!

Have a great weekend!

Regards,

Dick

Re: Cemex Construction Materials Florida, LLC
Portable Plant Relocation
South Bay RM to Moore Haven RM
7775593-002-AG

Dear Mr. Dibble,

REGISTRATION # 1 ↓
Enclosed, please find the Concrete Batching Plant Air General Notification Form as well as the appropriate processing fee for the relocation of the above porable plant from South Bay to Moore Haven. The General Permit notification is being submitted as in addition to its relocation we will also be adding a C&W CP-1220 dust collector to the plant.

ADMINISTRATIVE # 2 ↓
In addition the existing plant located at our Moore Haven RM plant 0430007-004-AG is being removed from the property. As a result we respectfully request that the emissions units associated with this permit be inactivated

If you have any questions please do not hesitate to contact me.

Sincerely,

Jason Jones
Environmental Manager
West Florida
