SOURCE DESCRIPTION: Perc Dry Cleaner

CONTACT(S): Sal Sperlazza

Today's visit was to conduct the annual inspection.
The dry cleaning machine is the same one noted in the last inspection.
The machine was in operation today. No leaks or odors were noticed. The facility is very clean and apparently well maintained.
Mr. Sperlazza keeps all the records in a single file. The leak inspection and the temperature measurement have been taken every week. The perc rolling total and the purchase receipts indicated the total perc usage over the last 12 months was 130 gallons.
Mr. Sperlazza also suggested that the FDEP should issue a Certification to indicate that dry cleaner meets the requirement after each inspection.
Mr. Sperlazza does have a owners manual including startup, shutdown and malfunction plan.
