Dear Ms. Diltz;

Enclosed are the inspection reports for the facilities that the Environmental Protection Commission of Hillsborough County conducted in January, 2000. EPC staff inspected 18 possible and known NESHAP sources.

Seventeen (17) inspection reports are enclosed for the permitted (15) dry cleaners and (1) halogenated solvent degreaser. Annual Compliance Certifications are being addressed during our annual inspections and any completed forms are included. All ARMS entries for permitted (16) facilities have been made. Based on our inspections, the following corrections need to be made to your data base:

SOURCE DESCRIPTION: Perc Dry Cleaner

CONTACT(S): Randy Blanton

Today's visit was to conduct the annual inspection.  
The ownership was changed. The facility's name remains the same as Touch of Class Dry Cleaners. The new owner, Randy Blanton, bought this business on 10/18/99. He used to have the equipment business – sell dry cleaning machines in the Bay area.  
Mr. Blanton has logged the temperature and leak checks on a weekly basis since he's taken over the business. The perc usage was only 30 gallons for the past 12 months.  
The facility is very clean with the same machine. No odors or leaks were noticed.  
I gave Mr. Blanton the notification form for him to submit to FDEP. He said he will mail it out this weekend.
