If the dry-to-dry machine was purchased from the manufacturer prior to or on December 9, 1991, it is an **EXISTING** unit. If the dry-to-dry machine was purchased from the manufacturer after December 9, 1991, it is a **NEW** unit. Beginning with dry-to-dry machines, enter the date the machine was initially purchased from the manufacturer in the dd-mth-yy format. If you do not know the exact date of purchase, but can confirm it was prior to December 9, 1991, enter 08-DEC-91. Indicate the status of the machine as either new or existing. Circle the required control equipment for that machine (if required) and enter the date of its installation (in the dd-mth-yy format). If control equipment is required, but has not yet been installed, indicate this with an "X". If the control device was already included at the time of purchase, enter "SAME". Up to three dry-to-dry machines may be entered across this table. Complete the other table for transfer machines located at the facility, as applicable. Submit additional copies of these tables if more than three machines per type are located at the facility.
2. Enter the total amount, in gallons, of perchloroethylene consumed during the preceding twelve months. If this amount represents a period of less than twelve months, indicate the actual time period used to determine solvent consumption and the reason for this discrepancy (for example, new store). New owners should attempt to obtain solvent purchase records from the previous owner.
3. Using the amount of perc entered in No. 2 above, select the facility's classification. The classification is based on the definitions found in paragraph (3) of Part II.
4. Indicate which control technology is required on machines pursuant to paragraph (5) of Part II, based upon the selection in No. 3 above. Existing small area sources are not required to install any additional control equipment.
5. Indicate with an "X" that all steam and hot water generating units on-site are exempt from permitting pursuant to Rule 62-210.300(3), F.A.C., or that the facility has no such units on-site. Provide information on the quantities of boilers, their horsepower rating(s), and fuel used.

**Equipment Monitoring and Recordkeeping Information**

6. Indicate all logs which are required to be kept on-site in accordance with the requirements of this notification form with an "X".

**Surrender of Existing DEP Air Permit(s)**

7. Rule 62-213.300(2)(a)2., F.A.C., makes the surrender of all existing DEP air permits authorizing the operation of a facility a condition precedent for the entitlement to a DEP air general permit. Indicate whether the responsible official surrenders such permit(s) or whether no such permit(s) exist with an "X" and list all existing DEP air permit numbers.

**Responsible Official Certification**

This statement must be both printed and signed by the person named on page 13, Field 6, of this form.

To: Users of the Title V Air General Permit

Records in the Division of Air Resource Management indicate that you have claimed eligibility for your facility to operate under a Title V Air General Permit (TV AGP) pursuant to Chapter 62-213, Florida Administrative Code (F.A.C.).

As a source of air pollution subject to Title V of the Federal Clean Air Act, your facility is entitled to operate for no more than five (5) years with a permit under Section § 403.0872 Florida Statutes (F.S.). Rule 62-213.300, F.A.C., establishes that the duration of the permit is for five (5) years, and no later than thirty (30) days prior to the fifth anniversary of the filing of intent to use this general permit, the responsible official shall submit a new notice of intent which shall contain all current information regarding the facility.

The enclosed notification form is for your convenience if you wish to maintain your eligibility. **As the Responsible Official (R/O) for this facility, please complete the form, sign your name, date it, and submit it to the following address:**

**Title V Air General Permit Program  
Bureau of Air Monitoring and Mobile Sources, MS5510  
Department of Environmental Protection  
2600 Blair Stone Road  
Tallahassee, Florida 32399-2400**

*It is important to note that facilities not in compliance with the conditions of their existing TV AGP may not be eligible to use a new TV AGP after the existing authority period expires. Such facilities will be required to make application for an Air Operating Permit as a major source under Title V. It is very important for facilities to assure that they are now in compliance with their TV AGP conditions to avoid this costly situation.*
