Mr. James Patterson
Facility Manager
CEMEX Construction Materials Florida, LLC
11945 County Road 474
Clermont, Florida 34711

This is to acknowledge that your notification of intent to use the authority of Rule 62-210.310 to operate your facility was received on December 31, 2008. We have assigned ARMS No. 0694844-002 to this facility.

As you know, pursuant to Florida Statutes section 403.814, authority to operate under general permits commences thirty (30) days after receipt of the registration form unless you have been notified by this office that your facility has not shown entitlement to operate pursuant to the rule provisions.

For your information, authority to operate pursuant to Rule 62-210.310 expires after five (5) years. Therefore, a new registration form must be received no later than five (5) years after the date your notice was received as indicated above. If your general permit rule conditions require testing, such testing must be completed within the time frame specified in the rule.

If you have any additional questions, please contact Dickson Dibble at 850/921-9586.

Sincerely,

Sandra F. Veazey, Chief
Bureau of Air Monitoring
and Mobile Sources

**CONCRETE BATCHING PLANT
AIR GENERAL PERMIT REGISTRATION FORM**

Part II. Notification to Permitting Office
(Detach and submit to appropriate permitting office; keep copy onsite)

Instructions: To give notice to the Department of an eligible facility's intent to use this air general permit, the owner or operator of the facility must detach and complete this part of the Air General Permit Registration Form and submit it to the appropriate Department of Environmental Protection or local air pollution control program office which has permitting authority. Please type or print clearly all information, and enclose the appropriate air general permit registration processing fee pursuant to Rule 62-4.050, F.A.C. (\$100 as of the effective date of this form)

0694844-002

Registration Type

Check one:

INITIAL REGISTRATION - Notification of intent to:

- Construct and operate a proposed new facility.
- Operate an existing facility not currently using an air general permit (e.g., a facility proposing to go from an air operation permit to an air general permit).

RE-REGISTRATION (for facilities currently using an air general permit) - Notification of intent to:

- Continue operating the facility after expiration of the current term of air general permit use.
- Continue operating the facility after a change of ownership.
- Make an equipment change requiring re-registration pursuant to Rule 62-210.310(2)(e), F.A.C., or any other change not considered an administrative correction under Rule 62-210.310(2)(d), F.A.C.

Surrender of Existing Air Operation Permit(s) - For Initial Registrations Only

If the facility currently holds one or more air operation permits, such permit(s) must be surrendered by the owner or operator upon the effective date of this air general permit. In such case, check the first box, and indicate the operation permits being surrendered. If no air operation permits are held by the facility, check the second box.

- All existing air operation permits for this facility are hereby surrendered upon the effective date of this air general permit; specifically permit number(s): _____
- No air operation permits currently exist for this facility.

General Facility Information

Owner/Authorized Representative Statement

This statement must be signed and dated by the person named above as owner or authorized representative

I, the undersigned, am the owner or authorized representative of the owner or operator of the facility addressed in this Air General Permit Registration Form. I hereby certify, based on information and belief formed after reasonable inquiry, that the facility addressed in this registration form is eligible for use of this air general permit and that the statements made in this registration form are true, accurate and complete. Further, I agree to operate and maintain the facility described in this registration form so as to comply with all applicable standards for control of air pollutant emissions found in the statutes of the State of Florida and rules of the Department of Environmental Protection and revisions thereof.

I will promptly notify the Department of any changes to the information contained in this registration form.

DEP
DEC 10 2007

Description of Facility

Below, or as an attachment to this form, provide a description of the concrete batching plant operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe all air pollutant-emitting processes and equipment at the facility, and identify any air pollution control measures or equipment used.

The proposed Batching/Dura-Rock plant will be incorporated with an existing sand mine facility.
The batch plant is not yet constructed.

Subject: RE: 474 Dura Rock Facility Description

0694844-002

Mr. Dibble,
 The facility is permitted as a soil-cement (Dura-Rock) operation.
 The bag house is a silo top mounted unit.

Please let me know if you need any additional information.

Thanks you and have a great day!

James

Subject: RE: 474 Dura Rock Facility Description

Mr. Mott,
 Thank you very much for your very prompt response.
 It was a pleasure to speak with you yesterday regarding the missing Description of Facility information. The equipment information which you have supplied will satisfy what is requested on that portion of the application for any future equipment tracking, modifications, and equipment replacement purposes.
 However, I need some additional information. It appears from the information that you have supplied that this facility may be a soil augmentation facility, or is it a Ready-Mix plant, or a combination of both? I want to make certain of the primary purpose of the facility so I will be able to categorize it correctly in our data base.
 Thank you for your attention to this request, and I hope that you have a great day!
 Sincerely,

Dickson E. Dibble

Subject: 474 Dura Rock Facility Description

Mr. Dibble,

As per our phone conversation today, here is the facility description for the 474 Dura Rock general air permit.

Emissions Unit(s) Description:

- * Cement Silo No. 1 – 100 ton capacity (served by a bag house dust collector Jet Vent Model- JV-36-66)
- * Cement Silo No. 2 – 175 ton capacity (served by a bag house dust collector Jet Vent Model- JV-36-66)
- * Soil Cement Pug mill No. 1 – 1000 ton per hour capacity
- * Soil Cement Pug mill No.2 – 1000 ton per hour capacity (both pug mills will be served by a single bag house duct collector Flex Kleen Model 120 WSBS81)

Please let me know if you need any additional information.

Sincerely,

James Mott

Subject: Recently Received AG Registrations
Attachments: 0694844-002.pdf; 0694844-002 (2).pdf; 0694844-002 (3).pdf

The attached documents represent recently received air general permit registration forms for your area. As requested, each form has been scanned and attached for your office use. These registrations are currently in the 30-day review cycle. We request that any updates to EU information be made *after* the 30-day review cycle ends. The actual receipt date and other facility information may be obtained in GPCI.

The complete scanned file for each facility will be available in ADH Search after the 30-day review cycle.

If you have any questions or comments, please contact Dick Dibble at 850/921-9586 or by e-mail at dickson.dibble@dep.state.fl.us or Sandy Bowman at 850/921-9583 or by e-mail at sandy.bowman@dep.state.fl.us
