15835 Brothers Court  
Fort Myers, Florida 33912

Dear Mr. Leveque:

This is to acknowledge that your notification of intent to use the authority of Rule 62-210.310 to operate your facility was received on August 25, 2008. We have assigned ARMS No: 0710112-004 to this facility.

As you know, pursuant to Florida Statutes section 403.814, authority to operate under general permits commences thirty (30) days after receipt of the registration form unless you have been notified by this office that your facility has not shown entitlement to operate pursuant to the rule provisions.

For your information, authority to operate pursuant to Rule 62-210.310 expires after five (5) years. Therefore, a new registration form must be received no later than five (5) years after the date your notice was received as indicated above. If your general permit rule conditions require testing, such testing must be completed within the time frame specified in the rule.

If you have any additional questions, please contact Dickson Dibble at 850/921-9586.

Sincerely,

Sandra F. Veazey, Chief  
Bureau of Air Monitoring  
and Mobile Sources

CAST POLYMER OPERATIONS AIR GENERAL PERMIT REGISTRATION FORM

Part II. Notification to Permitting Office

(Detach and submit to appropriate permitting office; keep copy onsite)

Instructions: To give notice to the Department of an eligible facility's intent to use this air general permit, the owner or operator of the facility must detach and complete this part of the Air General Permit Registration Form and submit it to the appropriate Department of Environmental Protection or local air pollution control program office which has permitting authority. Please type or print clearly all information, and enclose the appropriate air general permit registration processing fee pursuant to Rule 62-4.050, F.A.C. (\$100 as of the effective date of this form)

0710112-004

Registration Type

Check one:

INITIAL REGISTRATION - Notification of intent to:

- Construct and operate a proposed new facility.
Operate an existing facility not currently using an air general permit (e.g., a facility proposing to go from an air operation permit to an air general permit).

RE-REGISTRATION (for facilities currently using an air general permit) - Notification of intent to:

- Continue operating the facility after expiration of the current term of air general permit use.
Continue operating the facility after a change of ownership.
Make an equipment change requiring re-registration pursuant to Rule 62-210.310(2)(e), F.A.C., or any other change not considered an administrative correction under Rule 62-210.310(2)(d), F.A.C.

Surrender of Existing Air Operation Permit(s) - For Initial Registrations Only

If the facility currently holds one or more air operation permits, such permit(s) must be surrendered by the owner or operator upon the effective date of this air general permit. In such case, check the first box, and indicate the operation permits being surrendered. If no air operation permits are held by the facility, check the second box.

- All existing air operation permits for this facility are hereby surrendered upon the effective date of this air general permit; specifically permit number(s):
No air operation permits currently exist for this facility.

Dear Ms Perez and Mr. Roland Leveque,

Thank you for your timely response to my telephone request.

The information which you have supplied provides a good general description of your facility, but the form requests a little more specificity in the description. The form requests a basis for tracking future equipment or process changes at your facility. It also requests a description of all pollutant-emitting processes and identification of any pollution control measures or pollution control equipment used. Below is an actual cut-n-paste of the Description of Facility and the requested information from page 7 of the form for your reference.

**Description of Facility**

Below, or as an attachment to this form, provide a description of the cast polymer operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe all air pollutant-emitting processes and equipment at the facility, and identify any air pollution control measures or equipment used.

I apologize for not being a little more specific during our phone conversation regarding the information being sought.

Thank you for your attention to this matter.

Sincerely,

*Dickson E. Dibble*

The description of the facility for Corinthian Marble is as followed:

Manufacture culture marble vanity tops, showers, and tubs. Through a mold process which consist of a gel coat, marble dust filler with a resin bonding agent, and a wax polishing process. We have a vented spray booth for the gel coat and heater to dry the gel coat and vibrating table to remove air bubbles, and polishing tables.

If there is any other information you need please do not hesitate to call.

Thank You,

Kathi
