Facility Contact (If different from Responsible Official)

9. Name and Title of Facility Contact (For example, plant manager):	SAME AS ABOVE		
10. Facility Contact Address:	SAME		
Street Address:			
City:	County:	Zip Code:	
11. Facility Contact Telephone Number:	Telephone: () - SAME	Fax: () -	

Facility Information

1.(a) DRY-TO-DRY MACHINES ONLY

How many dry-to-dry machines do you have on-site?

For each dry-to-dry machine on-site, please provide the following information:

Date Initially Purchased From Manufacturer	Status (circle one)	Control Device Required* (circle one)	Date Control Device Installed (if already included at time of purchase, write "SAME")
12-1-96	Existing	RC/CA	SAME
_____	Existing/New	RC/CA/None required	_____
_____	Existing/New	RC/CA/None required	_____

*CONTROL DEVICE KEY: RC = refrigerated condenser CA = carbon adsorber

1.(b) TRANSFER MACHINES ONLY

How many washers do you have on-site?

How many dryers/reclaimers do you have on-site?

If the transfer machine was purchased from the manufacturer prior to or on December 9, 1991, it is an **EXISTING** unit. If the transfer machine was purchased from the manufacturer between December 9, 1991 and September 22, 1993, it is a **NEW** unit (no units purchased after September 22, 1993 are allowed to operate under this general permit). For each transfer machine on-site, please provide the following information:

Date Initially Purchased From Manufacturer	Status (circle one)	Control Device Required* (circle one)	Date Control Device Installed (if already included at time of purchase, write "SAME")
_____	Existing/New	RC/CA/None required	_____
_____	Existing/New	RC/CA/None required	_____
_____	Existing/New	RC/CA/None required	_____

*CONTROL DEVICE KEY: RC = refrigerated condenser CA = carbon adsorber

2.(a) How much perchloroethylene (perc) have you used within the last 12 months?

gallons (You must fill this in)

(b) If less than 12 months, how many?

Check why it is less than 12 months: New owner: Did not keep records:

New store: New machine

Unopened store (date of expected opening _____)

3. What is the facility's source classification based on the definitions found in section (3) of Part II?
Indicate with an "X". Select one classification only.)

- Small Area Source
- Dry-to-dry machines only on-site (used less than 140 gallons of perc per year)
- Transfer only on-site (used less than 200 gallons of perc per year)
- Both machine types on-site (used less than 140 gallons of perc per year)
- Large Area Source
- Dry-to-dry machines only on-site (used 140 - 2,100 gallons of perc per year)
- Transfer only on-site (used 200 - 1,800 gallons of perc per year)
- Both machine types on-site (used 140 - 1,800 gallons of perc per year)

4. What control technology is required on machines pursuant to section (5) of Part II of this notification form?
(Indicate with an "X".)

- | | |
|--|--|
| <u>Existing machines at small area source</u>
(NONE REQUIRED) <input type="checkbox"/> | <u>New machines at small area source</u>
Refrigerated condenser <input checked="" type="checkbox"/> |
| <u>Existing machines at large area source</u>
Carbon adsorber <input type="checkbox"/>
Refrigerated condenser <input type="checkbox"/> | <u>New machines at large area source</u>
Refrigerated condenser <input type="checkbox"/> |

5. A facility which contains non-exempt emissions units shall not be eligible to use the general permit pursuant to Rule 62-213.300, F.A.C. Verify that all steam and hot water generating units on-site meet the following exemption criteria or that no such units exist on-site (see attached memo for the criteria).

All steam and hot water generating units exempt OR
No such units on-site

How many boilers do you have on-site?

For each boiler, indicate its horsepower (HP) rating:

What type of fuel do you use? propane natural gas
 No. 2 fuel oil No. 4 fuel oil
 No. 6 fuel oil Other (please list) _____

6. Equipment Monitoring and Recordkeeping Information

Check all logs which are required to be kept on-site in accordance with the requirements of this general permit:

- (a) Purchase receipts and solvent purchases/solvent addition log
- (b) Leak detection inspection and repair
- (c) Refrigerated condenser temperature monitoring
- (d) Carbon adsorber exhaust perc concentration monitoring
- (e) Startup, shutdown, malfunction plan

7. Surrender of Existing DEP Air Permit(s)

Please indicate with an "X" the appropriate selection:

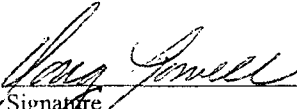

- I hereby surrender all existing DEP air permits authorizing operation of the facility indicated in this notification form; the permit number(s) are 09 10 332
- No DEP air permits currently exist for the operation of the facility indicated in this notification form.

Responsible Official Certification

I, the undersigned, am the responsible official, as defined in Part II of this form, of the facility addressed in this notification. I hereby certify, based on information and belief formed after reasonable inquiry, that the statements made in this notification are true, accurate and complete. Further, I agree to operate and maintain the air pollutant emissions units and air pollution control equipment described above so as to comply with all terms and conditions of this general permit as set forth in Part II of this notification form.

I will promptly notify the Department of any changes to the information contained in this notification.

Dear Mr. Doug Lowell,

It was a pleasure talking with you today regarding the Perchloroethylene Dry Cleaner Air General Permit Notification Form which you submitted on behalf of the Marriott's World Center. The purpose of this registration form is for the renewal of the Marriott's entitlement to operate a Perchloroethylene Dry Cleaning facility. The current entitlement to operate is due to expire on October 13, 2007.

I have begun the entitlement review process (commencing on 8/31/07 for thirty (30) days), and while doing so have discovered that some of the requested information on the form is missing.

I have attached a .pdf file that is an electronic copy of the form which you submitted. Please download the file and print it and complete question number five (#5) which I have "highlighted" in yellow. You previously indicated on question five of the form that all units are exempt, but the remaining information on question five was omitted.

During our conversation, you also indicated that you will have to send this to your engineering department to obtain the correct information. Please be reminded that I cannot complete the processing of your application until I have received the information requested, and I don't want to have to deny your entitlement to operate.

See attached form:

5. A facility which contains non-exempt emissions units shall not be eligible to use the general permit pursuant to Rule 62-213.300, F.A.C. Verify that all steam and hot water generating units on-site meet the following exemption criteria or that no such units exist on-site (see attached memo for the criteria).

All steam and hot water generating units exempt **OR**
 No such units on-site

How many boilers do you have on-site?

For each boiler, indicate its horsepower (HP) rating:

What type of fuel do you use? propane natural gas
 No. 2 fuel oil No. 4 fuel oil
 No. 6 fuel oil Other (please list)

9/5/2007

It is important that I receive the missing information and completed form **as soon as possible**, but **no later than Friday, September 28th, 2007**.

Thank you very much for your attention to this matter. If you have any questions, please don't hesitate to call me.

Sincerely,

Dickson E. Dibble

Dear Mr. Doug Lowell,

It was a pleasure talking with you today regarding the Perchloroethylene Dry Cleaner Air General Permit Notification Form which you submitted on behalf of the Marriott's World Center. The purpose of this registration form is for the renewal of the Marriott's entitlement to operate a Perchloroethylene Dry Cleaning facility. The current entitlement to operate is due to expire on October 13, 2007.

I have begun the entitlement review process (commencing on 8/31/07 for thirty (30) days), and while doing so have discovered that some of the requested information on the form is missing.

I have attached a .pdf file that is an electronic copy of the form which you submitted. Please download the file and print it and complete question number five (#5) which I have "highlighted" in yellow. You previously indicated on question five of the form that all units are exempt, but the remaining information on question five was omitted.

During our conversation, you also indicated that you will have to send this to your engineering department to obtain the correct information. Please be reminded that I cannot complete the processing of your application until I have received the information requested, and I don't want to have to deny your entitlement to operate.

See attached form:

5. A facility which contains non-exempt emissions units shall not be eligible to use the general permit pursuant to Rule 62-213.300, F.A.C. Verify that all steam and hot water generating units on-site meet the following exemption criteria or that no such units exist on-site (see attached memo for the criteria).

All steam and hot water generating units exempt **OR**
 No such units on-site

How many boilers do you have on-site?

For each boiler, indicate its horsepower (HP) rating:

What type of fuel do you use? propane natural gas
 No. 2 fuel oil No. 4 fuel oil
 No. 6 fuel oil Other (please list)

It is important that I receive the missing information and completed form **as soon as possible**, but **no later than Friday, September 28th, 2007**.

Thank you very much for your attention to this matter. If you have any questions, please don't hesitate to call me.

Sincerely,

Dickson E. Dibble
