Mr. John T. White, CEO
B.E.T.E.R. Mix, Incorporated
Odessa Plant
2430 Marathon Road
Odessa, Florida 33556

Dear Mr. White:

This is to acknowledge that your notification of intent to use the authority of Rule 62-210.310 to operate your facility was received on February 5, 2009. We have assigned ARMS No. 1010074-006 to this facility. 005

As you know, pursuant to Florida Statutes section 403.814, authority to operate under general permits commences thirty (30) days after receipt of the registration form unless you have been notified by this office that your facility has not shown entitlement to operate pursuant to the rule provisions.

For your information, authority to operate pursuant to Rule 62-210.310 expires after five (5) years. Therefore, a new registration form must be received no later than five (5) years after the date your notice was received as indicated above. If your general permit rule conditions require testing, such testing must be completed within the time frame specified in the rule.

If you have any additional questions, please contact Dickson Dibble at 850/921-9586.

Sincerely,

Sandra F. Veazey, Chief
Bureau of Air Monitoring
and Mobile Sources

FEB 09 2009
MICHIGAN DEPARTMENT OF ENVIRONMENTAL PROTECTION

CONCRETE BATCHING PLANT
AIR GENERAL PERMIT REGISTRATION FORM

Part II. Notification to Permitting Office
(Detach and submit to appropriate permitting office; keep copy onsite)

Instructions: To give notice to the Department of an eligible facility's intent to use this air general permit, the owner or operator of the facility must detach and complete this part of the Air General Permit Registration Form and submit it to the appropriate Department of Environmental Protection or local air pollution control program office which has permitting authority. Please type or print clearly all information, and enclose the appropriate air general permit registration processing fee pursuant to Rule 62-4.050, F.A.C. (\$100 as of the effective date of this form)

1010074-006
005

Registration Type

Check one:

INITIAL REGISTRATION - Notification of intent to:

- Construct and operate a proposed new facility.
- Operate an existing facility not currently using an air general permit (e.g., a facility proposing to go from an air operation permit to an air general permit).

RE-REGISTRATION (for facilities currently using an air general permit) - Notification of intent to:

- Continue operating the facility after expiration of the current term of air general permit use.
- Continue operating the facility after a change of ownership.
- Make an equipment change requiring re-registration pursuant to Rule 62-210.310(2)(e), F.A.C., or any other change not considered an administrative correction under Rule 62-210.310(2)(d), F.A.C.

Surrender of Existing Air Operation Permit(s) - For Initial Registrations Only

If the facility currently holds one or more air operation permits, such permit(s) must be surrendered by the owner or operator upon the effective date of this air general permit. In such case, check the first box, and indicate the operation permits being surrendered. If no air operation permits are held by the facility, check the second box.

- All existing air operation permits for this facility are hereby surrendered upon the effective date of this air general permit; specifically permit number(s):
1010074-004-AG
- No air operation permits currently exist for this facility.

Owner/Authorized Representative Statement

This statement must be signed and dated by the person named above as owner or authorized representative

I, the undersigned, am the owner or authorized representative of the owner or operator of the facility addressed in this Air General Permit Registration Form. I hereby certify, based on information and belief formed after reasonable inquiry, that the facility addressed in this registration form is eligible for use of this air general permit and that the statements made in this registration form are true, accurate and complete. Further, I agree to operate and maintain the facility described in this registration form so as to comply with all applicable standards for control of air pollutant emissions found in the statutes of the State of Florida and rules of the Department of Environmental Protection and revisions thereof.

I will promptly notify the Department of any changes to the information contained in this registration form.

Description of Facility

Below, or as an attachment to this form, provide a description of the concrete batching plant operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe all air pollutant-emitting processes and equipment at the facility, and identify any air pollution control measures or equipment used.

This is a two silo concrete batching facility manufactured by Vince-Hagen. The silos contain cement (Silo 1) and flyash (Silo 2). The silos are filled pneumatically from trucks. Particulate emissions from silo filling are controlled by baghouses. Each silo has a C & W Model CP-305 baghouse. **Batching and truck loading emissions are controlled by a C & W Model CWRA-140 dust collector.**

Each CP305 bag house contains eight filter cartridges. The CWRA-140 dust collector contains twelve cartridges. The CWRA-140 has been elevated to feed collected dust back into the loading operation.

Reasonable Precautions to Prevent Emissions of Unconfined Particulate Matter
2430 Marathon Road, Odessa, Pasco County, Florida

B.E.T.ER Mix, Inc. will at all times take reasonable precautions to prevent its Cement Batch Plant and associated facilities from emitting unconfined particulate matter. These precautions will include:

- 1) Maintaining and operating all air pollution control equipment required by the General Permit.
- 2) Watering roads as necessary to prevent vehicular traffic from entraining dust.
- 3) Posting and enforcing a 5 miles per hour (mph) speed limit in all areas.
- 4) Performing regular maintenance of roads, yards, and parking areas to prevent accumulation of dust.
- 5) Training equipment operators to minimize drop heights during loading and unloading operations.

Leroy,

I need confirmation from you that it is in-fact located on, or controls the emissions from the batcher/truck load-out location. One additional question, Is it "ground-mounted" or mounted on the batcher/load-out structure?

Thank you for your assistance and have a great weekend!

Dick

Dick,

It controls the emissions from the batcher truck load out location and it mounted on the structure.

Thanks, Leroy
