Saint Petersburg, Florida 33704

Re: Facility No.: 1030466-003

Dear Ms. Jochumsen:

The Department has received the Title V General Permit Notification Form for the dry cleaning facility that you submitted on January 18, 2005.

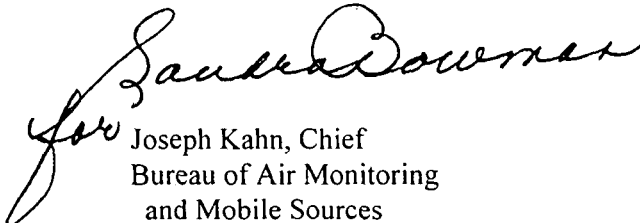

Please note that in January of each year the Department will be mailing fee notices to those facilities using the Title V general permit. This annual operation fee is \$50 and it is due and payable between January 15 and March 1 of each year the facility is in operation and is subject to the requirements of the Title V general permit.

If you have or expect to have any changes in your mailing address, location address, responsible official, or phone number, please notify the Department at the following address:

Title V General Permits Office
Bureau of Air Monitoring and Mobile Sources MS 5510
Department of Environmental Protection
2600 Blair Stone Road
Tallahassee, FL 32399-2400

If there are any changes in the facility status, including change of operating parameters or equipment, or if you have any additional questions regarding the Title V General Permit Program, please contact the district or local air program compliance inspector in your area.

Sincerely,

Joseph Kahn, Chief
Bureau of Air Monitoring
and Mobile Sources

JK/jw

PERCHLOROETHYLENE (Perc) Dry Cleaning Notification to EPA & FLDEP

Each owner or operator of a Perc dry cleaning facility shall submit to the EPA and FLDEP by registered mail on or before July 28, 2008 a notification of compliance status providing the following information and signed by a responsible official who shall certify its accuracy:

FLDEP Facility ID Number: 040208480
1030466

The name and address of the owner or operator;
Donald Sochomsen
Name of the owner or operator of the dry cleaning facility

1800 4th St. N.
Mailing address of the owner or operator of the dry cleaning facility

St Petersburg FL 33704
Mailing address line 2
City State Zip Code

The address (that is, physical location) of the dry cleaning facility;
Value Cleaners
Name of the dry cleaning facility

1800 4th St. N.
Address of the dry cleaning facility (physical location)

St. Petersburg FL 33704
Address line 2
City State Zip Code

Is the Perc dry cleaning machine located in a building with a residence(s), even if the residence is vacant at the time of this notification?

Check one: No Yes

Is the Perc dry cleaning machine located in a building with other tenants, leased space, or owner occupants?

Check one: No Yes

Is the Perc dry cleaning operation a major or area source?

Major Source: Perc consumption is greater than 2100 gallons/year
 Area Source: Perc consumption is 2100 gallons/year or below

The yearly Perc solvent consumption: 105 gallons
(How much Perc did you buy over the last 12 months?)

Is the Perc dry cleaning operation in compliance with each applicable requirement of the Federal Standard of 40 CFR §63.322?

Check one: No Yes

All information contained in this statement is accurate and true.

Donald Sochomsen
Signature of the Responsible Official for the dry cleaning facility

PERCHLOROETHYLENE DRY CLEANER
 AIR GENERAL PERMIT NOTIFICATION FORM

Part III. Notification of Intent to Use General Permit

Prior to filling out this form, please read the instructions provided at the end of the form. Send completed form to the address listed in the instructions and keep a copy of the form for your files.

Facility Name and Location

1. Facility Owner/Company Name (Name of corporation, agency, or individual owner): <i>Value of Tampa Inc.</i>
2. Site Name (For example, plant name or number): <i>Value Cleaners</i>
3. Hazardous Waste Generator Identification Number: <i>FLCESQG</i>
4. Facility Location: Street Address: <i>1800 4th ST N</i> City: <i>St Petersburg</i> County: <i>Pinellas</i> Zip Code: <i>33704</i>
5. Facility Identification Number (DEP Use ONLY - do not fill in): <i>1030466-003</i>

Responsible Official

6. Name and Title of Responsible Official: Name: <i>Laurie Jochemsen</i> Title: <i>President</i>	
7. Responsible Official Mailing Address: Organization/Firm: <i>1800 4th ST N</i> Street Address: City: <i>St. Petersburg</i> County: <i>Pinellas</i> Zip Code: <i>33704</i>	
8. Responsible Official Telephone Number: Telephone: <i>(727) 822 3159/201</i> Fax: <i>(727) 822-1607</i>	

Facility Contact (If different from Responsible Official)

9. Name and Title of Facility Contact (For example, plant manager):		
10. Facility Contact Address: Street Address: City: County: Zip Code:		
11. Facility Contact Telephone Number: Telephone: () - Fax: () -		

000-240001

3. What is the facility's source classification based on the definitions found in section (3) of Part II?
 Indicate with an "X". Select one classification only.)

- Small Area Source
- Dry-to-dry machines only on-site (used less than 140 gallons of perc per year)
 - Transfer only on-site (used less than 200 gallons of perc per year)
 - Both machine types on-site (used less than 140 gallons of perc per year)
- Large Area Source
- Dry-to-dry machines only on-site (used 140 - 2,100 gallons of perc per year)
 - Transfer only on-site (used 200 - 1,800 gallons of perc per year)
 - Both machine types on-site (used 140 - 1,800 gallons of perc per year)

4. What control technology is required on machines pursuant to section (5) of Part II of this notification form?
 (Indicate with an "X".)

- | | |
|--|---|
| <u>Existing machines at small area source</u>
(NONE REQUIRED) <input type="checkbox"/> | <u>New machines at small area source</u>
Refrigerated condenser <input type="checkbox"/> |
| <u>Existing machines at large area source</u>
Carbon adsorber <input checked="" type="checkbox"/>
Refrigerated condenser <input checked="" type="checkbox"/> | <u>New machines at large area source</u>
Refrigerated condenser <input type="checkbox"/> |

5. A facility which contains non-exempt emissions units shall not be eligible to use the general permit pursuant to Rule 62-213.300, F.A.C. Verify that all steam and hot water generating units on-site meet the following exemption criteria or that no such units exist on-site (see attached memo for the criteria).

All steam and hot water generating units exempt OR
 No such units on-site

How many boilers do you have on-site?

For each boiler, indicate its horsepower (HP) rating:

What type of fuel do you use? propane natural gas
 No. 2 fuel oil No. 4 fuel oil
 No. 6 fuel oil Other (please list) _____

6. Equipment Monitoring and Recordkeeping Information

Check all logs which are required to be kept on-site in accordance with the requirements of this general permit:

- (a) Purchase receipts and solvent purchases/solvent addition log
- (b) Leak detection inspection and repair
- (c) Refrigerated condenser temperature monitoring
- (d) Carbon adsorber exhaust perc concentration monitoring
- (e) Startup, shutdown, malfunction plan

Facility Information

1.(a) DRY-TO-DRY MACHINES ONLY

How many dry-to-dry machines do you have on-site? [1]

For each dry-to-dry machine on-site, please provide the following information:

Date Initially Purchased From Manufacturer	Status (circle one)	Control Device Required* (circle one)	Date Control Device Installed (if already included at time of purchase, write "SAME")
11/99	Existing/New	RC/CA/None required	11/99
_____	Existing/New	RC/CA/None required	_____
_____	Existing/New	RC/CA/None required	_____

*CONTROL DEVICE KEY: RC = refrigerated condenser CA = carbon adsorber

1.(b) TRANSFER MACHINES ONLY

How many washers do you have on-site? [_____]

How many dryers/reclaimers do you have on-site? [_____]

If the transfer machine was purchased from the manufacturer prior to or on December 9, 1991, it is an **EXISTING** unit. If the transfer machine was purchased from the manufacturer between December 9, 1991 and September 22, 1993, it is a **NEW** unit (no units purchased after September 22, 1993 are allowed to operate under this general permit). For each transfer machine on-site, please provide the following information:

Date Initially Purchased From Manufacturer	Status (circle one)	Control Device Required* (circle one)	Date Control Device Installed (if already included at time of purchase, write "SAME")
_____	Existing/New	RC/CA/None required	_____
_____	Existing/New	RC/CA/None required	_____
_____	Existing/New	RC/CA/None required	_____

*CONTROL DEVICE KEY: RC = refrigerated condenser CA = carbon adsorber

2.(a) How much perchloroethylene (perc) have you used within the last 12 months?

[276] gallons (You must fill this in) Dec 2004

(b) If less than 12 months, how many? [_____] months

Check why it is less than 12 months: New owner: [] Did not keep records: [_____]

New store: [_____] New machine [_____]

Unopened store [_____] (date of expected opening _____)

7. Surrender of Existing DEP Air Permit(s)

Please indicate with an "X" the appropriate selection:

- I hereby surrender all existing DEP air permits authorizing operation of the facility indicated in this notification form; the permit number(s) are 1030466-002-AG.
- No DEP air permits currently exist for the operation of the facility indicated in this notification form.

Responsible Official Certification

I, the undersigned, am the responsible official, as defined in Part II of this form, of the facility addressed in this notification. I hereby certify, based on information and belief formed after reasonable inquiry, that the statements made in this notification are true, accurate and complete. Further, I agree to operate and maintain the air pollutant emissions units and air pollution control equipment described above so as to comply with all terms and conditions of this general permit as set forth in Part II of this notification form.

I will promptly notify the Department of any changes to the information contained in this notification.

Instructions for Completing Part III of Notification Form

The Perchloroethylene Dry Cleaning Facility Notification of Intent to Use General Permit, Part III of this form, shall be completed and submitted to the Division of Air Resources Management **at least 30 days prior to beginning operations under the general permit.** Please type or print clearly all information. A copy of this notification form shall be kept on-site and made available for review by Department personnel.

The responsible official of the facility, as defined in Part II of this notification form, is responsible for ensuring that the facility complies with all applicable terms and conditions of this general permit, as set forth in Part II of this form.

Mail the signed and completed Part III of this form to:

General Permits Section
Bureau of Air Monitoring and Mobile Sources, MS 551C
Department of Environmental Protection
2600 Blair Stone Road
Tallahassee, FL 32399-2400

Facility Name and Location

1. **Facility Owner/Company Name** - Enter the name of the corporation, agency, or individual that has ownership or control of the dry cleaning facility for which this notification is submitted.
2. **Site Name** - Enter the common name, if any, of the facility site; for example, Plant A, Metropolis plant, etc. If more than one facility is owned, a notification form must be completed for each.
3. **Hazardous Waste Generator Identification Number** - Enter the hazardous waste generator identification number, if known, assigned by the Department to the facility.
4. **Facility Location** - Enter the street address and zip code of the facility and the city and county in which it is located.
5. **Facility Identification Number (DEP Use ONLY)** - Please leave this space blank. DEP will enter the facility identification number assigned to you by ARMS.

Responsible Official

6. **Name and Title of Responsible Official** - Enter the name and title of the designated responsible official for the facility who, by signing this form, is certifying that the facility is eligible for a general permit pursuant to the requirements of Part II of this notification form and Rule 62-213.300, F.A.C.
7. **Responsible Official Mailing Address** - Enter the mailing address for the responsible official if different than the address entered in No. 4 above.
8. **Responsible Official Telephone Number** - Enter the telephone number and facsimile number, if available, at which the responsible official can be contacted.

Facility Contact

9. **Name and Title of Facility Contact** - Enter the name of the facility contact, if other than the responsible official. For example, a plant manager could be designated as the facility contact for Department inspections.

40 CFR Part 63 - NOTIFICATION OF COMPLIANCE STATUS REPORT

Applicable Rule: 40 CFR Part 63, Subpart M--National Perchloroethylene Air Emission Standards for Dry Cleaning Facilities. The original regulation was published in the Federal Register on September 22, 1993, amended on July 27, 2006 and September 21, 2006. The amended regulation requires all dry cleaning facilities using perchloroethylene to submit this Notification of Compliance Status in accordance with §63.324(f).

NOTE: All affected facilities must complete and submit a Notification of Compliance Status Report to the Department of Environmental Management on or before **July 28, 2008**.

RECEIVED

Source Information: Print or type the following for each separately located dry cleaning plant. The owner of more than one plant must fill out a separate form for each plant.

Responsible Official Name Young Soon Lee	Company Name Tony's Cleaners & Shoe Repair		
Permit Number: 1030446-002-AG	Plant Telephone Area Code & Number 727-595-3686		
Plant Street Address 12007 Indian Rocks Road	City Largo	State FL	Zip Code 33774

Is facility located in a building with a residence? A residence is any dwelling or housing in which people reside excluding short-term housing that is occupied by the same person for a period of less than 180 days (such as a hotel room). Please answer yes even if the residence is vacant at the time of this notification.

Yes No

Is facility located in a building with no other tenants, leased space, or owner occupants (i.e., a free-standing building)?

Yes No

Perchloroethylene Consumption

Enter the total volume of perchloroethylene purchased for ALL of the machines at the dry cleaning plant over the past 12 months (based on actual purchase receipts) below.

Note: If you do not use perchloroethylene solvent, check the appropriate box below and enter the name of the solvent used and the gallons of the alternative solvent purchased. If you do not use any perchloroethylene solvent, you do not have to answer any further questions. Go directly to the certification section on page 3.

15 gallons of perchloroethylene purchased / 12 months OR We do not use perchloroethylene

Name of alternative solvent used:

 gal alternative solvent purchased / 12 months

Source Category: Choose one of the following based on your perchloroethylene usage:

- Small Area Source** Facility never uses more than 140 gallons of perc in a consecutive 12 month period.
- Large Area Source** Facility uses more than 140 gallons but not more than 2,100 gallons of perc in a consecutive 12 month period.
- Major Source** At any time, facility uses more than 2,100 gallons of perc in a consecutive 12 month period.

Compliance Status: Answer all questions below, unless directed to do otherwise.

1.	Do you keep the dry cleaning machine door closed, except for loading and unloading? [40 CFR 63.322(c)]	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
2.	Do you operate and maintain the dry cleaning system according to manufacturers' specifications and recommendations? [40 CFR 63.322(d)]	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
3.	Do you drain cartridge filters in their housing or other sealed container for a minimum of 24 hours before removal from your facility? [40 CFR 63.322(i)]	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
4.	Do you store all perchloroethylene and waste that contains perchloroethylene in non-leaking covered containers? [40 CFR 63.322(j)]	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
5.	Do you inspect the following components <u>weekly</u> for <u>perceptible leaks</u> while the dry cleaning system is operating? [40 CFR 63.322(k)] " <u>Perceptible leak</u> " means perchloroethylene vapor leak that is obvious from the odor of perchloroethylene, visual observation of perchloroethylene, or the detection of gas flow by passing fingers over the surface of the equipment.	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
	<ul style="list-style-type: none"> • Hose and pipe connections, fittings, couplings, and valves • Door gaskets and seatings • Filter gaskets and seatings • Pumps • Solvent tanks and containers • Water separators • Muck cookers • Stills • Exhaust dampers • Diverter valves • All filter housings 	
	(*sources may inspect <u>bi-weekly</u> if the machine was installed before 12/9/91 and purchase less than 140 gal perc/12 month period)	
6.	Are the components identified in question 5 (above) inspected <u>monthly</u> for <u>vapor leaks</u> while the component is in operation using a halogenated hydrocarbon detector or PCE gas analyzer? [40 CFR 63.322(o)(1)] " <u>Vapor leak</u> " means a perchloroethylene vapor concentration exceeding 25 parts per million by volume as indicated by a halogenated hydrocarbon detector or PCE (perc) gas analyzer.	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
7.	Are you complying with the following leak repair requirements: [40 CFR 63.322(m)]	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
	<ul style="list-style-type: none"> • All leaks must be repaired within 24 hours. • If repairs are required, parts must be ordered within two working days. • All parts received must be installed within five working days. 	
Refrigerated Condenser		
8.	Is a refrigerated condenser installed on the dry cleaning system? [40 CFR 63.322(b)(1)] Note: New dry-to-dry equipment (constructed or reconstructed on or after 12/9/1991) must have a refrigerated condenser.	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
9.	Are you complying with the following requirements associated with the refrigerated condenser?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
	<ul style="list-style-type: none"> • The air-perchloroethylene gas-vapor stream is not vented to atmosphere while the dry cleaning drum rotates. [40 CFR 63.322(e)(1)] • The refrigeration system high pressure and low pressure is monitored <u>weekly</u> during the drying phase to determine if they are in the range specified in the manufacturer's operating instructions. <p style="text-align: center;"><u>Or</u></p> <p>The temperature of the air-perchloroethylene gas-vapor stream on the outlet side of the refrigerated condenser is measured <u>weekly</u> to determine that it is equal to or less than 45° F (±2° F) or 7.2° C (±1.1° C) before the end of the cool-down or drying cycle while the gas-vapor stream is flowing through the condenser. [40 CFR 63.323(a)(1)]</p>	
Carbon Adsorber ("sniffer") The operator must have either a refrigerated condenser on each dry cleaning machine, OR use a sniffer carbon adsorber, only if the sniffer was installed before September 22, 1993.		
10.	Are any of your dry cleaning systems controlled using a carbon adsorber ("sniffer") on a dry cleaning system installed between 12/9/91 and 9/22/93? [40 CFR 63.322(a)(2)].	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No*
*Skip question 11 if you answer "NO" to this question.		

11. Are you complying with the following requirements associated with the sniffer carbon adsorber? Yes
 No
 [40 CFR 63.322(g)]
- The carbon adsorber is not bypassed to vent or release any air-perchloroethylene gas-vapor stream to the atmosphere at any time. [40 CFR 63.322(g)(1)]
 - The concentration of the perchloroethylene (PCE) in the exhaust of the carbon adsorber is measured weekly with a colorimetric detector tube or PCE gas analyzer. The measurement is taken at the end of the last dry cleaning cycle prior to desorption of the carbon adsorber or removal of the activated carbon to determine that the PCE concentration is equal to or less than 100 parts per million by volume. [40 CFR 63.323(b)]

Only answer question 12 if dry cleaning system was installed after 12/21/05 [40 CFR 63.320(b)(2)]

12. Do all dry-to-dry machines initially installed after 12/21/05 have a refrigerated condenser AND non-vented carbon adsorber (4th generation machine or better)? [40 CFR 63.322(o)(2)] Yes
 No

Only answer questions 13 and 14 if your facility is a major source (see page 1)

13. Is the air-perchloroethylene gas-vapor stream remaining in the machine at the end of the dry cleaning cycle vented to a carbon adsorber immediately before or as the door of the dry cleaning machine is opened? [40 CFR 63.322(b)(3)] Yes
 No

14. Are you complying with the following requirements associated with the carbon adsorber? Yes
 No
- The carbon adsorber is not bypassed to vent or release any air-perchloroethylene gas-vapor stream to the atmosphere at any time. [40 CFR 63.322(g)(1)]
 - The concentration of the perchloroethylene (PCE) in the exhaust of the carbon adsorber is measured weekly with a colorimetric detector tube or PCE gas analyzer. The measurement is taken at the end of the last dry cleaning cycle prior to desorption of the carbon adsorber or removal of the activated carbon to determine that the PCE concentration is equal to or less than 100 parts per million by volume. [40 CFR 63.323(b)]
 - The concentration of perchloroethylene (PCE) in the dry cleaning machine drum at the end of the dry cleaning cycle is measured weekly to ensure that the concentration of PCE is less than 300 parts per million per volume. A colorimetric detector tube or PCE gas analyzer is used to take the measurements. [40 CFR 63.323(c)]

Certification: The Responsible Official must certify below that all of the information presented in this initial report is accurate and true.

Name of the Responsible Official for the dry cleaning plant

Young Soon Lee

I certify the information contained in this report to be accurate and true to the best of my knowledge and that this plant is in compliance with all applicable control device and monitoring requirements listed in this report.
