Gary,

This is a confirmation of your request.

Just now, as I have proceeded down through my pile of things to do, according to the order of time-stamped documents, I found that next in line was your request to INACTIVATE the subject item facility. It is standard protocol for me that once I have inactivated a facility I will confirm back to the requesting individual that it has been done.

When I went into ARMS to inactivate FLORIDA JR MIX, I found that it had already been processed by someone else, so in case you were unaware the facility has been INACTIVATED.

By the way, I wanted to let you know how much I appreciated your kind words and support during Wednesday's Permitting Teleconference. Instead of being so defensive, I probably should have asked the gentleman to be more specific and to provide the example(s) to which he was referring and gone from there. Hindsight is better than no sight.

Anyway, thank-you and have a great weekend!

Dick

Subject: Florida Jr. Mix, 1030470

Attached is a letter from the facility requesting the general permit be rescinded. A 9/3/08 inspection verified the cement silo was removed.

We are removing the facility from our database. If you agree, please inactivate in ARMS.

Re: Florida Jr. Mix  
Concrete Batch Plant  
Facility ID #: 1030470

Dear Ms. Zhang-Torres:

This is to inform you that the above referenced facility has ceased operations and the cement silo has been removed from the site. There are no plans to restart this facility in the future. Please make note of this in your files.

If you have any questions regarding this matter please call our office at your convenience.

Very Truly Yours,

SOUTHERN ENVIRONMENTAL  
SCIENCES, INC.
