Good afternoon Gentlemen:

I have been unable to contact you by phone so thought I would try by e-mail.

I have received your registration on June 15, 2012 for the purpose of renewing the expiring CCB AGP for the above referenced facility and I need some clarification as to the actual number of emission units located at the Clearwater Plant.

Our database indicates that you have three (3) emission units located at your Clearwater plant. They are shown as:

EU001-Cement Storage Silo North#1 350 bbl w/Bghse Stephens SV-170
EU002-Cement Storage Silo South#2 350 bbl w/ Bghse Stephens SV-170
EU003-Fly Ash Silo 350 bbl w/ Baghouse Stephens SV-170

The registration form which was submitted indicates that there is only one (1) emission unit, a 350 Bbl Cement Silo, at that location. Would you be so kind and confirm which is the case, so that I can continue with the review and processing of your renewal?

If you have any questions, comments or concerns please e-mail or call.

Thank you and have a great day and a Happy July 4th, Independence Day Holiday!

I look forward to hearing from you!

Sincerely yours,

Dickson E. Dibble
