Registration Type

Check one:

INITIAL REGISTRATION - Notification of intent to:

- Construct and operate a proposed new facility.
- Operate an existing facility not currently using an air general permit (e.g., a facility proposing to go from an air operation permit to an air general permit).

RE-REGISTRATION (for facilities currently using an air general permit) - Notification of intent to:

- Continue operating the facility after expiration of the current term of air general permit use.
- Continue operating the facility after a change of ownership.
- Make an equipment change requiring re-registration pursuant to Rule 62-210.310(2)(e), F.A.C., or any other change not considered an administrative correction under Rule 62-210.310(2)(d), F.A.C.

Surrender of Existing Air Operation Permit(s) - For Initial Registrations Only

If the facility currently holds one or more air operation permits, such permit(s) must be surrendered by the owner or operator upon the effective date of this air general permit. In such case, check the first box, and indicate the operation permits being surrendered. If no air operation permits are held by the facility, check the second box.

- All existing air operation permits for this facility are hereby surrendered upon the effective date of this air general permit; specifically permit number(s):
1170390
- No air operation permits currently exist for this facility.

Description of Facility

Below, or as an attachment to this form, provide a description of the printing operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Information should include a description of the number and types of printing processes, presses and ink systems being used at the facility. Describe all air pollutant-emitting processes and equipment at the facility, and identify any air pollution control measures or equipment used.

The facility consists of a pre-press area containing plate making equipment, a pressroom containing non-heatset offset printing presses and a UV coater and a finishing/bindery area containing cutters, folders, and stitchers. The finishing/bindery area doesn't contain any processes that generate air emissions. There is no air pollution control equipment at the facility. All VOC and HAP emissions are fugitive to the inside of the building.

The list of equipment for the pre-press and press room areas is the following:

Press Room

- Heidelberg Speedmaster XL105-6+L Sheetfed Offset Press Serial#FS000511
- Heidelberg Speedmaster SM102-5P3 Sheetfed Offset Press Serial#540356
- Halm Industries Envelopemaster EM4315 Sheetfed Offset Press Serial EM57019
- Halm Industries Jet Press JP TWOD P Sheetfed Offset Press Serial 1834R
