Dick,

The SWD has inactivated the GP noted above. It appears the last permitting action for this GP was handled by you so I am forwarding the necessary information to you so you can update your files. Feel free to contact me if you have any questions.

Have a great weekend,  
Danielle

I (Chris Haines) performed a drive-by inspection of the above-described facility in order to confirm the plant's alleged shut-down status. Around 11:00AM I arrived at the plant and first observed that the gates to both entrances of the plant were shut and locked. The plant seemed to be not in operation; no cars were parked at the facility, no lights were on, and no personnel were present. The attached digital-photo log details these findings. I left the facility shortly afterwards around 11:05.

Mr. Jacobs:

Our records show that visible emissions testing was not conducted at the Wildwood plant in 2010. If testing was performed, kindly provide a scanned copy of the test. If this facility was not operating in 2010, please send an email stating same with the date of shutdown.

Thank you for your assistance.
