Veronica,

The critical question that I will need answered with regard to the referenced facility will ultimately determine the process.

Q? - **Is this a change of ownership** or not?

Ans #1 - If **not** a change of ownership, but simply an administrative change such as a name, address, or phone number of the facility or authorized representative not associated with a change in ownership or with a physical relocation of the facility or any emissions units or operations comprising the facility; or any other similar minor administrative change at the facility, the hard copy original letter will suffice. If this is the case then the letter should have been mailed to the following address:

3/27/2008

FDEP

DARM/BAMMS

Air General Permits Section, MS5510

2600 Blair Stone Road

Tallahassee, Florida 32399-2400

Ans #2 - If this is a change of ownership, then a new Nonmetallic Mineral Processing Plant (Crushers) Air General Permit Registration Form and a \$100.00 processing fee is required. If this is the case, the form and fee should be mailed to the following address: *(If permitted through one of our Local Program offices the form and fee will be mailed to that appropriate Local Program office.)*

Please note: The copy of the attached letter, addressed to the above P.O. Box address is the address of our Finance & Accounting Department and is expressly for the purpose of receiving and processing the application fee, time stamping the registration form and forwarding it on to me. In this situation I can't be certain that the letter will arrive in my office.

Thank you for clarifying whether or not this is a transfer of ownership event.

Thank you, and have a great day!

Dick
