Mr. Ron Wohlfiel  
President  
P.A.W. Materials  
Steadman Rock Crushing/Processing Plant  
17728 US Highway 41  
Spring Hill, Florida 34610

Dear Mr. Wohlfiel:

This is to acknowledge that your notification of intent to use the authority of Rule 62-210.310 to operate your facility was received on July 22, 2008. We have assigned ARMS No. 7770420-007 to this facility.

As you know, pursuant to Florida Statutes section 403.814, authority to operate under general permits commences thirty days after receipt of the registration form unless you have been notified by this office that your facility has not shown entitlement to operate pursuant to the rule provisions.

For your information, authority to operate pursuant to Rule 62-210.310 expires after 5 years. Therefore, a new registration form must be received no later than 5 years after the date your notice was received as indicated above. If your general permit rule conditions require testing, such testing must be completed within the time frame specified in the rule.

If you have any additional questions, please contact Dickson Dibble at 850/921-9586.

Sincerely,

Sandra F. Veazey, Chief  
Bureau of Air Monitoring  
and Mobile Sources

SFV/pg

JUL 24 2008

RECEIVED

**Part II. Notification to Permitting Office**

(Detach and submit to appropriate permitting office; keep copy onsite)

**Instructions:** To give notice to the Department of an eligible facility's intent to use this air general permit, the owner or operator of the facility must detach and complete this part of the Air General Permit Registration Form and submit it to the appropriate Department of Environmental Protection or local air pollution control program office which has permitting authority. Please type or print clearly all information, and enclose the appropriate air general permit registration processing fee pursuant to Rule 62-4.050, F.A.C. (\$100 as of the effective date of this form)

7770420-007  
JUL 18 2008

**Registration Type**

Check one:

**INITIAL REGISTRATION** - Notification of intent to:

- Construct and operate a proposed new facility.
- Operate an existing facility not currently using an air general permit (e.g., a facility proposing to go from an air operation permit to an air general permit).

**RE-REGISTRATION** (for facilities currently using an air general permit) - Notification of intent to:

- Continue operating the facility after expiration of the current term of air general permit use.
- Continue operating the facility after a change of ownership.
- Make an equipment change requiring re-registration pursuant to Rule 62-210.310(2)(e), F.A.C., or any other change not considered an administrative correction under Rule 62-210.310(2)(d), F.A.C.

**Surrender of Existing Air Operation Permit(s) - For Initial Registrations Only**

If the facility currently holds one or more air operation permits, such permit(s) must be surrendered by the owner or operator upon the effective date of this air general permit. In such case, check the first box, and indicate the operation permits being surrendered. If no air operation permits are held by the facility, check the second box.

- All existing air operation permits for this facility are hereby surrendered upon the effective date of this air general permit; specifically permit number(s): \_\_\_\_\_
- No air operation permits currently exist for this facility.

**General Facility Information**

**Facility Owner/Company Name** (Name of corporation, agency, or individual owner who or which owns, leases, operates, controls, or supervises the facility.)

P.A.W. Materials

**Site Name** (Name, if any, of the facility site; e.g., Plant A, Metropolis Plant, etc. If more than one facility is owned, a registration form must be completed for each.)

Steadman Rock Crushing/Processing Plant

**Facility Location** (Provide the physical location of the facility, not necessarily the mailing address.)

**Owner/Authorized Representative Statement**

This statement must be signed and dated by the person named above as owner or authorized representative

*I, the undersigned, am the owner or authorized representative of the owner or operator of the facility addressed in this Air General Permit Registration Form. I hereby certify, based on information and belief formed after reasonable inquiry, that the facility addressed in this registration form is eligible for use of this air general permit and that the statements made in this registration form are true, accurate and complete. Further, I agree to operate and maintain the facility described in this registration form so as to comply with all applicable standards for control of air pollutant emissions found in the statutes of the State of Florida and rules of the Department of Environmental Protection and revisions thereof.*

*I will promptly notify the Department of any changes to the information contained in this registration form.*

**Type of Facility**

Check one:

Stationary Facility

Relocatable Facility

**Type(s) of Precautions Used to Prevent Unconfined Emissions**

Check all that apply for the management of roads, parking areas, stock piles and yards:

Maintain Roads/Parking/Yards

Use Water Application

Use Dust Suppressant

Remove Particulate Matter

Reduce Stock Pile Height

Install Wind Breaks

Check the location of spray bars at the nonmetallic mineral processing plant:

Feeders

Entrance to "Crusher"

Exit of "Crusher"

Classifier Screens

Conveyor Drop Points

**Description of Reasonable Precautions**

Below, or as an attachment to this form, provide details of all types of reasonable precautions to be used to prevent unconfined emissions at the facility.

**Please see Attachment 1.**

Dept. Of Environmental Protection

JUL 18 2007

Southwest District

**Description of Facility**

Below, or as an attachment to this form, provide a description of the nonmetallic mineral processing operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe all air pollutant-emitting processes and equipment at the facility, and identify any air pollution control measures or equipment used.

The unit is a Steadman Machine Company, Model No. 4260H, Grand Slam Material Crushing/Processing Plant that processes nonmetallic minerals (materials) such as reclaimed asphalt, gravel, and concrete.

1. Material received from trucks is dumped on the ground in outdoor storage piles.
2. Emission Point Number 1:
  - A. Material from the outdoor storage piles is transferred by front-end loader to a vibrating grizzly Feeder.
3. Emission point number 1, top of crusher: From the bottom of the Grizzly Feeder the material is transferred directly (dropped) into the top of a crusher.
4. Emission Point Number 2: From the bottom of the crusher the material drops onto Conveyor Belt No. 1.
5. Emission Point Number 3: Conveyor Belt No. 1 transfers the material to outdoor storage piles, to conveyor belt No. 2, or to a rotating screener.
6. Emission Point Number 4: Conveyor Belt No. 2 transfers the material to outdoor storage piles or to a rotating screener.
7. Emission Point Number 5: Material from the rotating screener is transferred to outdoor storage piles.
8. Material from the outdoor storage piles is then transferred to trucks by front-end loaders.

Water spray dust suppression systems are located at the grizzly feeders, crushers, conveyor belt drop points, screens, and discharge pans and are used as necessary to control unconfined particulate emissions.

### **Precautions To Prevent Unconfined Particulate Emissions**

- Water shall be applied as necessary to the facility grounds;
- Rock crushers are equipped with water spray bar dust suppression system located at the grizzly feeders, crushers, conveyor belt drop points, screens and discharge pans.
- Unpaved roads and gravel piles are wetted down 3 times a day depending on weather conditions.

**Subject:** RE: AIRS ID# 7770420

Ron,

Also, just a reminder, please don't forget to request a withdrawl of the renewal registration for the relocatable Pegson Crusher (AIRS ID# 7775162).

As you mentioned during our telephone conversation the Pegson unit is now and forever classified as a permanent stationary unit at the 14211 SR 54, Odessa site under the Air Curtain Incinerator Permit # 1010378-006-AO. To support that position and according to your comments, if ever moved the Pegson unit will be sold rather than be relocated.

Thank you,

*Dick*

**Sent:** Wednesday, August 13, 2008 1:37 PM

**Subject:** AIRS ID# 7770420

Ron,

There is always one more question, but at least I'm not calling you on the phone.

With the Steadman crusher the **Air General** Permit (AG) (AIRS ID# 7770420) for the relocatable our database indicates there is an additional Emission Unit of the following description: **Portable Caterpillar -Lima 40KW/400 H.P. Generator.**

Is the above accurate or not, because there is no reference on your renewal form regarding the source of power or energy supply for the crusher? If the above is in fact the power source for the Steadman please let me know, or if different please advise and supply the make, model, s/n, and hp, fuel source, and if it is a generator the kW.

Thank you for your assistance.

*Dick*
