ISSUED 5/31/12

NONMETALLIC MINERAL PROCESSING PLANT (CRUSHER)
AIR GENERAL PERMIT EXAMPLE REGISTRATION WORKSHEET

Facility Identification Number - If known (seven digit number)

7775422 7775422-002

Registration Type

Check one:

INITIAL REGISTRATION - Notification of intent to:

- Construct and operate a proposed new facility.
- Operate an existing permitted facility not currently using an air general permit (e.g., a facility proposing to go from an air operation permit to an air general permit). If the facility currently holds one or more air operation permits, such permit(s) must be surrendered by the owner or operator upon the effective date of this air general permit. (See "Surrender of Existing Air Operation Permit(s)" below.)
- Operates an existing facility not currently permitted or using an air general permit.

RE-REGISTRATION (for facilities currently using an air general permit) - Notification of intent to:

- Continue operating the facility after expiration of the current term of air general permit use.
- Continue operating the facility after a change of ownership.
- Make an equipment change requiring re-registration pursuant to Rule 62-210.310(2)(e), F.A.C.
- Any other change not considered an administrative correction under Rule 62-210.310(2)(d), F.A.C.

Surrender of Existing Air Operation Permit(s) - For Initial Registrations Only, if Applicable

All existing air operation permits for this facility are hereby surrendered upon the effective date of this air general permit; specifically permit number(s):

General Facility Information

Facility Owner/Company Name (Name of corporation, agency, or individual owner who or which owns, leases, operates, controls, or supervises the facility.)
SET MATERIALS, INC.

Site Name (Name, if any, of the facility site; e.g., Plant A, Metropolis Plant, etc. If more than one facility is owned, a complete registration must be submitted for each.)
PORTABLE CRUSHER

Facility Location (Physical location of the facility, not necessarily the mailing address.)

Street Address: 1150 JOELSON ROAD

City: KISSIMMEE

County: OSCEOLA

Zip Code: 34744

Facility Start-Up Date (Estimated start-up date of proposed new facility.)(N/A for existing facility.)

09/01/2007

Facility Contact

Name and Position Title (Plant manager or person to be contacted regarding day-to-day operations at the facility.)

Print Name and Title: ERIC DREWRY VICE-PRESIDENT

Facility Contact Telephone Numbers

Telephone: 388-877-4133

Fax: 388-877-8453

Cell phone: 388-547-4644

E-mail: ERIC@SETMATERIALSINC.COM

Facility Contact Mailing Address

Organization/Firm: SET MATERIALS

Mailing Address: 800 HULL ROAD

City: ORMOND BEACH

County: VOLUSIA

Zip Code: 32174

Correspondence Contact/Representative (to serve as additional Department contact)

Name and Position Title

Print Name and Title: LORI ADAMS, OFFICE MANAGER

Correspondence Contact/Representative Telephone Numbers

Telephone: 388-877-1658

Fax: 388-677-8453

Cell phone: _____

E-mail: LORI@SETMATERIALSINC.COM

Correspondence Contact/Representative Mailing Address

Organization/Firm: SET MATERIALS

Mailing Address: 800 HULL ROAD

City: ORMOND BEACH

County: VOLUSIA

Zip Code: 32174

Government Facility Code (check only one)

- Facility not owned or operated by a federal, state, or local government.
- Facility owned or operated by the federal government.
- Facility owned or operated by the state.
- Facility owned or operated by the county.
- Facility owned or operated by the municipality.
- Facility owned or operated by a water management district.

Description of Facility

Below, or as an attachment to this worksheet, provide a description of the nonmetallic mineral processing plant operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe material(s) processed, all air pollutant-emitting processes, and identify any air pollution control measures used. Mobile source equipment information is not needed (eg.: trucks, bulldozers, front-end loaders, etc.)

On as needed basis we will water roadways;
 water stock piles of processed + unprocessed materials
 Control traffic to elivate dust, minimize stock pile heights

Helpful Definitions:

"Capacity" - Per 40 CFR 60.671, the cumulative rated capacity of all initial crushers that are part of the plant.

"Department" or "DEP" - The State of Florida Department of Environmental Protection.

"Emissions Unit" - Any part or activity of a facility that emits or has the potential to emit any air pollutant.

"Facility" - All of the emissions units which are located on one or more contiguous or adjacent properties, and which are under the control of the same person (or persons under common control).

"Owner" or "Operator" - Any person or entity who or which owns, leases, operates, controls or supervises an emissions unit or facility.

"Nonmetallic Mineral Processing Plant" - Per 40 CFR 60.671, any combination of equipment that is used to crush or grind any nonmetallic mineral wherever located, including lime plants, power plants, steel mills, asphalt concrete plants, portland cement plants or any other facility processing nonmetallic minerals except as provided in 40 CFR §60.670 (b) and (c).

"Relocatable Facility" - A facility such as, but not limited to, an asphalt plant, portable power generator, or relocatable nonmetallic mineral processing plant, which is designed to be physically moved to, and operated on, different sites by being wholly or partially dismantled and re-erected in essentially the same configuration. It shall not be operable while in transit.

"Screening Operation" - Per 40 CFR 60.671, a device for separating material according to size by passing undersize material through one or more mesh surfaces (screens) in series and retaining oversize material on the mesh surfaces (screens). Grizzly feeders associated with truck dumping and static (non-moving) grizzlies used anywhere in the nonmetallic mineral processing plant are not considered to be screening operations.

"Size" - Per 40 CFR 60.671, the rated capacity in tons per hour of a crusher, grinding mill, bucket elevator, bagging operation, or enclosed truck or railcar loading station; the total surface area of the top screen of a screening operation; the width of a conveyor belt; and the rated capacity in tons of a storage bin.

"Unconfined Emissions" - Emissions which escape and become airborne from unenclosed operations or which are emitted into the atmosphere without being conducted through a stack.

Importance: High

Good morning Dick,

I hope you enjoyed a nice weekend.

Wanted to ask you about the scenario addressed below to see if there is anything the Department can do to solve the facility error. I thought maybe you could do an administrative correction to fix the registrations. Since you handle the payment side I thought it best you handle the situation. If there is anything we can assist with on our end we'll be happy to, just let us know.

Warmest regards,

Danielle D. Henry

Subject: GP registration issue, Set Materials

Danielle,

Set Materials has two crushers registered with GPs. The facility IDs are 7770086 and 7775422. Both of these units were the same make and model (Eagle 1200). The serial number on 7770086 was 22204 and 7775422 is 306754. They no longer own the unit that was permitted under 7770086. However, when that unit came due for renewal, Lori Adams (the contact) submitted a new registration, thinking it was for the unit they do still own. Permit No. 7770086-002-AG was issued 5/31/2012.

Now, the unit they do still own (7775422/serial no. 306754) has come due for renewal. It wasn't until I called Lori last week to tell her the due date was coming up on 7775422 that she realized what happened. I've attached a registration that she sent to me where she corrected the fields from when she re-registered for 7770086. Is there anything that we can do to help correct the registration form—changing the renewal from 7770086 to 7775422, and letting 7770086 expire. Or will she have to submit a new registration form and pay the \$100 again? I was hoping to help her avoid that if possible.

Thanks,

Max Grondahl
