Lakeland, Florida 33810

Dear Mr. Grant:

This is to acknowledge that your notification of intent to use the authority of Rule 62-210.310 to operate your **Nonmetallic Mineral Processing Plants (Crushers)** facility was received on June 25, 2009. We have assigned ARMS No. 7775533-002 to this facility.

As you know, pursuant to Florida Statutes section 403.814, authority to operate under general permits commences thirty (30) days after receipt of the registration form unless you have been notified by this office that your facility has not shown entitlement to operate pursuant to the rule provisions.

For your information, authority to operate pursuant to Rule 62-210.310 expires after five (5) years. Therefore, a new registration form must be received no later than five (5) years after the date your notice was received as indicated above. If your general permit rule conditions require testing, such testing must be completed within the time frame specified in the rule.

If you have any additional questions, please contact Dickson Dibble at 850/921-9586.

Sincerely,

  
Sandra F. Veazey, Chief  
Bureau of Air Monitoring  
and Mobile Sources

## Part II. Notification to Permitting Office

(Detach and submit to appropriate permitting office; keep copy onsite)

**Instructions:** To give notice to the Department of an eligible facility's intent to use this air general permit, the owner or operator of the facility must detach and complete this part of the Air General Permit Registration Form and submit it to the appropriate Department of Environmental Protection or local air pollution control program office which has permitting authority. Please type or print clearly all information, and enclose the appropriate air general permit registration processing fee pursuant to Rule 62-4.050, F.A.C. (\$100 as of the effective date of this form)

## Registration Type

Check one:

**INITIAL REGISTRATION** - Notification of intent to:

- Construct and operate a proposed new facility.  
 Operate an existing facility not currently using an air general permit (e.g., a facility proposing to go from an air operation permit to an air general permit).

**RE-REGISTRATION** (for facilities currently using an air general permit) - Notification of intent to:

- Continue operating the facility after expiration of the current term of air general permit use.  
 Continue operating the facility after a change of ownership.  
 Make an equipment change requiring re-registration pursuant to Rule 62-210.310(2)(e), F.A.C., or any other change not considered an administrative correction under Rule 62-210.310(2)(d), F.A.C.

**Surrender of Existing Air Operation Permit(s) - For Initial Registrations Only**

If the facility currently holds one or more air operation permits, such permit(s) must be surrendered by the owner or operator upon the effective date of this air general permit. In such case, check the first box, and indicate the operation permits being surrendered. If no air operation permits are held by the facility, check the second box.

- All existing air operation permits for this facility are hereby surrendered upon the effective date of this air general permit; specifically permit number(s): \_\_\_\_\_  
 No air operation permits currently exist for this facility.

Description of Reasonable Precautions

Below, or as an attachment to this form, provide details of all types of reasonable precautions to be used to prevent unconfined emissions at the facility.

Water will be used as a dust suppressant when necessary. This crusher will be responsible for the immediate area surrounding the portable crusher at above facility location.

The operator of this unit had agreed to adhere to the procedures and conditions for the use of this Air General Permit Registration.

**Description of Facility**

Below, or as an attachment to this form, provide a description of the nonmetallic mineral processing operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe all air pollutant-emitting processes and equipment at the facility, and identify any air pollution control measures or equipment used.

This is an application to operate a relocatable non metallic mineral crusher manufactured by *TESAB* on *JUNE 2001*. It is a Model I *1012 TRACK*, SN *7108362*. The crusher is powered by a CAT *3306* 300HP engine at *1800* RPM. The belt is *32* long, 3'3" wide with a discharge height of *11'*. The design capacity is 200 TPH. There are three spray bars on the crusher, one is located at the in-feed to the crusher, the second bar is located at the out-put and the third bar is located at the end of the product discharge conveyor. Each bar is 48" long.

This unit is owned by Powerscreen of Florida, Inc. and is intended to be used as lease/rental equipment. Powerscreen of Florida, Inc. will not be operating or overseeing the operation of this machine.

Good afternoon Richard!

Thank you for your inquiry.

I am sorry that this took so long, but I have finally found some information that looks very similar to the information which you provided in your e-mail below.

Immediately below are Screen Prints taken from our database for the unit information to which I think you are referring. The Air General permit # is currently 7775533-001-AG.

Dick,  
Good afternoon. Perhaps you can help me. We acquired a crusher from a customer in Florida who claims he has a Permit# in place for his facility. All I have is the machine details and the customer name. Can you inquire as to whether this info is in your database.  
Machine : Tesab 1012T Impact crusher, Ser#7108362  
Customer: H&R Transport Services, Parkland FL.  
Any assistance would be helpful.  
Thanks,
