Mr. Tommy Pearson
Vice-President
Reliable Fence, LandClearing
& Hauling, Incorporated
539 Northeast Candy Lane
Mayo, Florida 32066

Dear Mr. Pearson:

This is to acknowledge that your notification of intent to use the authority of Rule 62-210.310 to operate your facility was received on October 24, 2008. We have assigned ARMS No. 7775546-001 to this facility.

As you know, pursuant to Florida Statutes section 403.814, authority to operate under general permits commences thirty (30) days after receipt of the registration form unless you have been notified by this office that your facility has not shown entitlement to operate pursuant to the rule provisions.

For your information, authority to operate pursuant to Rule 62-210.310 expires after five (5) years. Therefore, a new registration form must be received no later than five (5) years after the date your notice was received as indicated above. If your general permit rule conditions require testing, such testing must be completed within the time frame specified in the rule.

If you have any additional questions, please contact Dickson Dibble at 850/921-9586.

Sincerely,

Sandra F. Veazey, Chief
Bureau of Air Monitoring
and Mobile Sources

SFV/pg

cc: Mr. Rick Banks, Northeast District

CONCRETE BATCHING PLANT AIR GENERAL PERMIT REGISTRATION FORM

Part II. Notification to Permitting Office (Detach and submit to appropriate permitting office; keep copy onsite)

Instructions: To give notice to the Department of an eligible facility's intent to use this air general permit, the owner or operator of the facility must detach and complete this part of the Air General Permit Registration Form and submit it to the appropriate Department of Environmental Protection or local air pollution control program office which has permitting authority. Please type or print clearly all information, and enclose the appropriate air general permit registration processing fee pursuant to Rule 62-4.050, F.A.C. (\$100 as of the effective date of this form)

7775546-001

Registration Type

Check one: INITIAL REGISTRATION - Notification of intent to: [X] Construct and operate a proposed new facility. [] Operate an existing facility not currently using an air general permit (e.g., a facility proposing to go from an air operation permit to an air general permit). RE-REGISTRATION (for facilities currently using an air general permit) - Notification of intent to: [] Continue operating the facility after expiration of the current term of air general permit use. [] Continue operating the facility after a change of ownership. [] Make an equipment change requiring re-registration pursuant to Rule 62-210.310(2)(e), F.A.C., or any other change not considered an administrative correction under Rule 62-210.310(2)(d), F.A.C.

Surrender of Existing Air Operation Permit(s) - For Initial Registrations Only

If the facility currently holds one or more air operation permits, such permit(s) must be surrendered by the owner or operator upon the effective date of this air general permit. In such case, check the first box, and indicate the operation permits being surrendered. If no air operation permits are held by the facility, check the second box. [] All existing air operation permits for this facility are hereby surrendered upon the effective date of this air general permit; specifically permit number(s): [X] No air operation permits currently exist for this facility.

General Facility Information

Facility Owner/Company Name (Name of corporation, agency, or individual owner who or which owns, leases, operates, controls, or supervises the facility.) Reliable Fence, Land Clearing & Hauling, Inc. Site Name (Name, if any, of the facility site; e.g., Plant A, Metropolis Plant, etc. If more than one facility is owned, a registration form must be completed for each.) Facility Location (Provide the physical location of the facility, not necessarily the mailing address.) Street Address: Industrial Ln City: Mayo County: LaFayette Zip Code: 32066 Facility Start-Up Date (Estimated start-up date of proposed new facility.)(N/A for existing facility)

Owner/Authorized Representative Statement

This statement must be signed and dated by the person named above as owner or authorized representative

I, the undersigned, am the owner or authorized representative of the owner or operator of the facility addressed in this Air General Permit Registration Form. I hereby certify, based on information and belief formed after reasonable inquiry, that the facility addressed in this registration form is eligible for use of this air general permit and that the statements made in this registration form are true, accurate and complete. Further, I agree to operate and maintain the facility described in this registration form so as to comply with all applicable standards for control of air pollutant emissions found in the statutes of the State of Florida and rules of the Department of Environmental Protection and revisions thereof.

I will promptly notify the Department of any changes to the information contained in this registration form.

Partial enclosure

Description of Reasonable Precautions

Below, or as an attachment to this form, provide details of all types of reasonable precautions to be used to prevent unconfined emissions at the facility.

This concrete plant doesn't have a cement silo, we use a tanker with a screw auger to move portland cement, this is not an air blower type.

Description of Facility

Below, or as an attachment to this form, provide a description of the concrete batching plant operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe all air pollutant-emitting processes and equipment at the facility, and identify any air pollution control measures or equipment used.

Every thing in this plant is moved
By screws or conveyors No AIR
There will be little dust
Concrete plant is at an
Industrial Park with paved road
and lot, we have bag filter on
cement batcher, and spray bar
at loading point, this is a small
concrete plant.

Department of Environmental Protection

Division of Air Resource Management

CONCRETE BATCHING PLANT AIR GENERAL PERMIT REGISTRATION FORM

Part I. Procedures and Conditions for Use of Air General Permit

The Department of Environmental Protection ("Department" or "DEP") has established an "air general permit" at Florida Administrative Code ("F.A.C.") Rule 62-210.310(5)(b) for concrete batching plants. An air general permit is an authorization by rule to construct or operate a specific type of air pollutant emitting facility. Use of such authorization by any individual facility does not require action by the Department. The terms and conditions of the air general permit are set forth in the rule, rather than in a separately issued air construction or air operation permit.

The owner or operator of an eligible facility comprising one or more concrete batching plants may register to use the air general permit at Rule 62-210.310(5)(b), F.A.C., by following the general procedures given at Rule 62-210.310(2), F.A.C., the text of which is provided below. The owner or operator shall notify the Department of the facility's intent to use this general permit by submitting Part II of this registration form to the appropriate Department of Environmental Protection or local air pollution control program office which has permitting authority. Questions concerning this air general permit or the registration process may be directed to any such office or to the Department's small business assistance program at 1-800-SBAP-HLP (1-800-722-7457).

The owner or operator of a facility who properly registers to use this air general permit, and who is not denied use of the air general permit by the Department, is authorized to construct and operate the facility in accordance with the general terms and conditions of Rule 62-210.310(3), F.A.C., and the specific terms and conditions of Rule 62-210.310(5)(b), F.A.C. The text of these two rules is also provided below, followed by definitions of words and phrases used in the rules and on this form. A facility using this air general permit shall not be entitled to use more than one air general permit for the facility.

Rule 62-210.310(2), F.A.C.

(2) General Procedures. This subsection sets forth general procedures for use of any of the air general permits provided at subsections 62-210.310(4) and (5), F.A.C.

(a) Determination of Eligibility. The owner or operator of a proposed new or existing facility shall determine the facility's eligibility to use an air general permit under this rule. A facility is eligible to use an air general permit under this rule if it meets any specific eligibility criteria given in the applicable air general permit at subsection 62-210.310(4) or (5), F.A.C., and the following general criteria.

1. The facility shall not emit nor have the potential to emit 10 tons per year or more of any hazardous air pollutant, 25 tons per year or more of any combination of hazardous air pollutants, or 100 tons per year or more of any other regulated air pollutant; be collocated with, or relocated to, such a facility; or create such a facility in combination with any other collocated facilities, emissions units, or pollutant-emitting activities, including any such facility, emissions unit, or activity that is otherwise exempt from air permitting.

2. The facility shall not contain any emissions units or activities not covered by the applicable air general permit, except:

a. Units and activities that are exempt from permitting pursuant to subsection 62-210.300(3), F.A.C., or Rule 62-4.040, F.A.C.; and

b. Units and activities that are authorized by another air general permit where such other air general permit and the air general permit of interest specifically allow the use of one another at the same facility.

Subject: RE: Mayo Concrete Batching facility

To all,

FYI - Yesterday (10/28/08) I received a CCB Plant AGP Registration Form from **Reliable Fence, Land Clearing & Hauling Inc, Industrial Lane, Mayo FL, 32066** and signed by one Tommy Pearson. There was no Site name on the form, and since it is in Mayo, it surely must be the one to which Vince is referring to as Pearson's Ready-Mix.

It will probably appear in ARM's within the next few days as I have about 19 others to process before I get to that particular one. Please bear with me and thank you for your patience.

By the way Vince those were great pictures, and when I talked with Mr. Pearson I was under the impression that he was a one-man operation. So how many trucks did Anderson-Columbia really see? Just kidding, but since his silo is a semi-trailer/tanker w/a screw auger, he is submitting as a relocatable.

Have a great day! Brrrrrrrrrr...

Dick

Subject: RE: Mayo Concrete Batching facility

Rita,

Thanks for this information.

I inspected this facility 10/02/08 in response to complaints from Scott Cleveland of Anderson Columbia. The facility's name is Pearson's Ready Mix and they do not have a permit. I gave them the Air General Permit application for Concrete Batch Plants and Dick Dibble's contact information. I also emailed Dick Dibble pictures of this facility and another concrete batching operation (septic tank manufacturer) next to it. Dick Dibble told me that both facilities have contacted him and are submitting the applications for a GP.

Also, the Multimedia Team is inspecting the Mayo Industrial Park next month. These facilities are located within the Industrial Park. Lary will be conducting that inspection and I advised him ensure that general permit applications have been submitted to Dick Dibble.

Note: Please do not inform the facilities concerning the Multimedia Inspection.

Thanks,
Vince

Subject: Mayo Concrete Batching facility

Vince and John,

I just received a phone call today from Anderson Columbia. They have noticed concrete trucks out on the road last week from the facility located in Mayo.

I looked in ARMS under Lafayette county and do not see any recently permitted concrete batching facilities.

I told Anderson Columbia that I would pass this information onto compliance.

I will also check with Dick Dibble to see if they are in receipt of any general permits for concrete batching facilities within this county. However, once general permits are received, they are logged into ARMS. I didn't see any records of receipt in ARMS today when I looked.

Rita
