Mr. Morris Williams
Materials Recovery Director
Cash Development, LLC
Coastal Landfill Disposal of Florida, LLC
11416 Houston Avenue
Hudson, Florida 34667

Dear Mr. Williams:

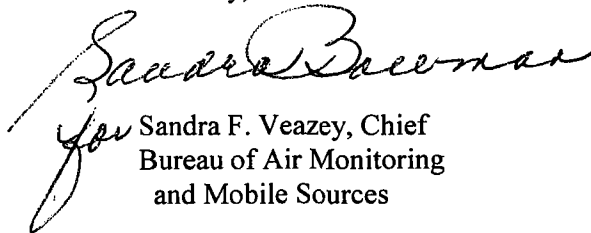

This is to acknowledge that your notification of intent to use the authority of Rule 62-210.310 to operate your facility was received on December 1, 2008. We have assigned ARMS No. 7775554-001 to this facility.

As you know, pursuant to Florida Statutes section 403.814, authority to operate under general permits commences thirty (30) days after receipt of the registration form unless you have been notified by this office that your facility has not shown entitlement to operate pursuant to the rule provisions.

For your information, authority to operate pursuant to Rule 62-210.310 expires after five (5) years. Therefore, a new registration form must be received no later than five (5) years after the date your notice was received as indicated above. If your general permit rule conditions require testing, such testing must be completed within the time frame specified in the rule.

If you have any additional questions, please contact Dickson Dibble at 850/921-9586.

Sincerely,

Sandra F. Veazey, Chief
Bureau of Air Monitoring
and Mobile Sources

RECEIVED

Part II. Notification to Permitting Office

(Detach and submit to appropriate permitting office; keep copy onsite)

Instructions: To give notice to the Department of an eligible facility's intent to use this air general permit, the owner or operator of the facility must detach and complete this part of the Air General Permit Registration Form and submit it to the appropriate Department of Environmental Protection or local air pollution control program office which has permitting authority. Please type or print clearly all information, and enclose the appropriate air general permit registration processing fee pursuant to Rule 62-4.050, F.A.C. (\$100 as of the effective date of this form)

7775554-001

Registration Type

Check one:

INITIAL REGISTRATION - Notification of intent to:

- Construct and operate a proposed new facility.
- Operate an existing facility not currently using an air general permit (e.g., a facility proposing to go from an air operation permit to an air general permit).

RE-REGISTRATION (for facilities currently using an air general permit) - Notification of intent to:

- Continue operating the facility after expiration of the current term of air general permit use.
- Continue operating the facility after a change of ownership.
- Make an equipment change requiring re-registration pursuant to Rule 62-210.310(2)(e), F.A.C., or any other change not considered an administrative correction under Rule 62-210.310(2)(d), F.A.C.

Surrender of Existing Air Operation Permit(s) - For Initial Registrations Only

If the facility currently holds one or more air operation permits, such permit(s) must be surrendered by the owner or operator upon the effective date of this air general permit. In such case, check the first box, and indicate the operation-permits being surrendered. If no air-operation permits are held by the facility, check the second box.

- All existing air operation permits for this facility are hereby surrendered upon the effective date of this air general permit; specifically permit number(s): _____
- No air operation permits currently exist for this facility.

General Facility Information

Facility Owner/Company Name (Name of corporation, agency, or individual owner who or which owns, leases, operates, controls, or supervises the facility.)

Cash Development, LLC

Site Name (Name, if any, of the facility site; e.g., Plant A, Metropolis Plant, etc. If more than one facility is owned, a registration form must be completed for each.)

Coastal Landfill Disposal of Florida, LLC

Facility Location (Provide the physical location of the facility, not necessarily the mailing address.)

Street Address: 11416 Houston Ave.

City: Hudson, FL

County: Pasco

Zip Code: 34607

Facility Start-Up Date (Estimated start-up date of proposed new facility.)(N/A for existing facility)

12-01-08

Owner/Authorized Representative

Name and Position Title (Person who, by signing this form below, certifies that the facility is eligible to use this air general permit.)

Print Name and Title: John Thompson, Management Support

Owner/Authorized Representative Mailing Address

Owner/Authorized Representative Statement

This statement must be signed and dated by the person named above as owner or authorized representative

I, the undersigned, am the owner or authorized representative of the owner or operator of the facility addressed in this Air General Permit Registration Form. I hereby certify, based on information and belief formed after reasonable inquiry, that the facility addressed in this registration form is eligible for use of this air general permit and that the statements made in this registration form are true, accurate and complete. Further, I agree to operate and maintain the facility described in this registration form so as to comply with all applicable standards for control of air pollutant emissions found in the statutes of the State of Florida and rules of the Department of Environmental Protection and revisions thereof.

I will promptly notify the Department of any changes to the information contained in this registration form.

Type of Facility

Check one:

Stationary Facility Relocatable Facility

Type(s) of Precautions Used to Prevent Unconfined Emissions

Check all that apply for the management of roads, parking areas, stock piles and yards:

Maintain Roads/Parking/Yards Use Water Application Use Dust Suppressant
 Remove Particulate Matter Reduce Stock Pile Height Install Wind Breaks

Check the location of spray bars at the nonmetallic mineral processing plant:

Feeders Entrance to "Crusher" Exit of "Crusher"
 Classifier Screens Conveyor Drop Points

Description of Reasonable Precautions

Below, or as an attachment to this form, provide details of all types of reasonable precautions to be used to prevent unconfined emissions at the facility.

See Exhibit "A"

Description of Facility

Below, or as an attachment to this form, provide a description of the nonmetallic mineral processing operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe all air pollutant-emitting processes and equipment at the facility, and identify any air pollution control measures or equipment used.

See Exhibit "B"

ATTACHMENT "A"

Metso ST352 Portable Screening Plant

The Metso ST352 Portable Screening Plant receives damped-down, dust-controlled material from the Metso LT1110 Portable Crusher, designed and manufactured with a sophisticated water atomization system to control and minimize operating emissions. A maintenance program is in place to sustain maximum operating efficiency and emission control throughout the effective life of the apparatus. Unconfined emission control and minimization is central to the facility owner's site management plan. Tactics employed to achieve optimum results include a company-owned and -operated water tanker to damp down roadways, yards and staging areas; stockpile height management; stockpile dust control via spray-sprinklers and, where need be, a flow of water to the top of the pile for percolated saturation of the material below; and concrete barrier wind-breaks. In extreme wind events, the facility owner is prepared to avoid unconfined emissions by covering potential problems with a layer of soil.

ATTACHMENT "B"

Metso ST352 Portable Screening Plant

The Metso ST352 Portable Screening Plant is a state-of-the-art screening system and companion piece to the Metso LT1110 Portable Concrete Crusher. It is powered by a diesel/hydraulic Deutz BF4M2012 100hp engine and comes equipped with one hopper conveyor, one product conveyor, one main conveyor and two side conveyors. It is a double-deck screener. Drop Point positions: hopper to main conveyor, main conveyor to screen and screen to over-size conveyors.

The screening plant is part of an integrated, well-designed and equipped emissions control system (see Exhibit "A").

With this facility, the owner will conduct ongoing concrete crushing operations (1) on the grounds of the firm's sister-company Coastal Landfill Disposal of Florida, a state-permitted Construction and Demolition (C&D) disposal and recycling business located at 11416 Houston Avenue, Hudson, Florida 34667 (FDEP C&D Permit#26095-005-SO/22) and (2) off-site throughout the west-central Florida marketplace. Products produced by the screening plant, including #57 stone, 5/8 inch-and-down filler material and concrete fines, will be used internally by the landfill and sold in the marketplace. Conveyor belts from the LT1110 crusher will feed the ST352 screening plant and, from there, product will be conveyed to stockpiles. Concrete dust generated in the feeding, screening, conveying and storage processes is the primary focus of all emissions strategies and tactics employed by the operator.

While the ST352 screen is intended to operate alongside the LT1110 crusher in the greatest majority of cases, there may be occasions when the two facilities are detached and operated separately. To cover those possibilities, Cash Development, LLC, applies for a separate air permit for the ST352 screen.

After printing this label:

1. Use the 'Print' button on this page to print your label to your laser or inkjet printer.
2. Fold the printed page along the horizontal line.
3. Place label in shipping pouch and affix it to your shipment so that the barcode portion of the label can be read and scanned.

Warning: Use only the printed original label for shipping. Using a photocopy of this label for shipping purposes is fraudulent and could result in additional billing charges, along with the cancellation of your FedEx account number.

Use of this system constitutes your agreement to the service conditions in the current FedEx Service Guide, available on fedex.com. FedEx will not be responsible for any claim in excess of \$100 per package, whether the result of loss, damage, delay, non-delivery, misdelivery, or misinformation, unless you declare a higher value, pay an additional charge, document your actual loss and file a timely claim. Limitations found in the current FedEx Service Guide apply. Your right to recover from FedEx for any loss, including intrinsic value of the package, loss of sales, income interest, profit, attorney's fees, costs, and other forms of damage whether direct, incidental, consequential, or special is limited to the greater of \$100 or the authorized declared value. Recovery cannot exceed actual documented loss. Maximum for items of extraordinary value is \$500, e.g. jewelry, precious metals, negotiable instruments and other items listed in our Service Guide. Written claims must be filed within strict time limits, see current FedEx Service Guide.
