## DIVISION OF AIR RESOURCE MANAGEMENT

# NONMETALLIC MINERAL PROCESSING PLANT (CRUSHER) AIR GENERAL PERMIT EXAMPLE REGISTRATION WORKSHEET

Facility Identification Number - If known (seven digit number) 7775042 RESOURCE MANAGEMENT Registration Type Check one: RESOURCE MANAGEMENT **INITIAL REGISTRATION** - Notification of intent to: Construct and operate a proposed new facility. Operate an existing permitted facility not currently using an air general permit (e.g., a facility proposing to go from an air operation permit to an air general permit). If the facility currently holds one or more air operation permits, such permit(s) must be surrendered by the owner or operator upon the effective date of this air general permit. (See "Surrender of Existing Air Operation Permit(s)" below.) Operates an existing facility not currently permitted or using an air general permit. **RE-REGISTRATION** (for facilities currently using an air general permit) - Notification of intent to: Continue operating the facility after expiration of the current term of air general permit use. Continue operating the facility after a change of ownership. Make an equipment change requiring re-registration pursuant to Rule 62-210.310(2)(e), F.A.C. Any other change not considered an administrative correction under Rule 62-210.310(2)(d), F.A.C. Surrender of Existing Air Operation Permit(s) - For Initial Registrations Only, if Applicable All existing air operation permits for this facility are hereby surrendered upon the effective date of this air general permit; specifically permit number(s): **General Facility Information** Facility Owner/Company Name (Name of corporation, agency, or individual owner who or which owns, leases, operates, controls, or supervises the facility.) Anderson Columbia Co., Inc. Site Name (Name, if any, of the facility site; e.g., Plant A, Metropolis Plant, etc. If more than one facility is owned, a complete registration must be submitted for each.) ACCI Concrete and Asphalt Crusher Facility Location (Physical location of the facility, not necessarily the mailing address.) Street Address: 2316 Hwy 71 City: Marianna County: Jackson Zip Code: 32448 Facility Start-Up Date (Estimated start-up date of proposed new facility.) (N/A for existing facility.)

Facility Contact							
Name and Position Title (Plant manager or person to be conta	acted regarding day-to-day	operations at the facility.)

Government Facility Code (check only one)							
Facility not owned or operated by a federal, state	on local gavenment						
=							
Facility owned or operated by the federal government.							
Facility owned or operated by the state.							
Facility owned or operated by the county.							
Facility owned or operated by the municipality.							
Facility owned or operated by a water management district.							
l .							

Type of Facility							
Check one:  Stationary Facility	Relocatable Facility						
Type(s) of Precautions Used to Prevent Unconfined Emissions  Check all that apply for the management of roads, parking areas, stock piles and yards:							
☐ Maintain Roads/Parking/Yards ☐ Remove Particulate Matter	■ Use Water Application ■ Reduce Stock Pile Height	Use Dust Suppressant Install Wind Breaks					
Check the location of spray bars at the nonmetallic mineral processing plant:							
Feeders	Entrance to "Crusher"	☐ Exit of "Crusher"					
☐ Classifier Screens	<b>■</b> Conveyor Drop Points						

#### **Emission Unit Details**

COMPONENT	MANUFACTURER	DATE OF	MODEL	SERIAL	RATED	SUBJECT TO
DESCRIPTION		MANUFACTURE	NUMBER	NUMBER	CAPACITY	40 CFR, PART
(e.g. primary, secondary					(tons/hr, hp)	60, SUBPART
crusher, screener,		·				000
conveyor, RICE* engine		•	],	1		(Yes or No)**
and fuel type, etc.)						
Jefferies Crusher	Astech	1982		82-105	>150 tons/hr	Yes
Diesel Engine	Caterpillar	1982	8V92		700 hp	Yes
Belt Conveyors	Astech	1982	NA	NA	>150 tons/hr	Yes
Screen	Deister	1982	USM2410-A	NA	>150 tons/hr	Yes
Radial Stacker	Unknown	NA	NA	NA	>150 tons/hr	Yes
Generator	Catepillar	1982	D398	NA	850 KW	Yes

<sup>\*</sup>RICE: Reciprocating Internal Combustion Engine

Stationary sand and gravel plants with a machine (or a maximum) rated capacity greater than 150 tons per hour Portable sand and gravel plants with a machine (or a maximum) rated capacity greater than 25 tons per hour Clay and pumice plants with a machine (or a maximum) rated capacity greater than 10 tons per hour

<sup>\*\*</sup>NMMP Facilities subject to Subpart OOO:

#### **Description of Facility**

Below, or as an attachment to this worksheet, provide a description of the nonmetallic mineral processing plant operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe material(s) processed, all air pollutant-emitting processes, and identify any air pollution control measures used. Mobile source equipment information is not needed (eg.: trucks, bulldozers, front-end loaders, etc.)

This portable crushing plant consists of a Astech Primary Crusher, a Deister Screen Deck and a Radial Stacker. The unit is powered by a Caterpillar Diesel Engine. This unit is primarly used to crush broken concrete and recycled asphalt products (RAP) that is generated from Anderson Columbia's road construction business. This material is usually hauled to a storage yard or back to one of our asphalt plants. When enough material has been stocked piled, the crusher is relocated to the facility to process the material. Once finished, the crusher is generally move to another location.

This portable crusher is mobilized to various Anderson Columbia asphalt plants in the NWDEP district as the need arises (only after proper notification).

Emissions are controlled by wetting the material at transfer points. Fugitive emissions are controlled by use of a water truck and restricting unnecessary traffic in the area.

#### **Helpful Definitions:**

- "Capacity" Per 40 CFR 60.671, the cumulative rated capacity of all initial crushers that are part of the plant.
- "Department" or "DEP" The State of Florida Department of Environmental Protection.
- "Emissions Unit" Any part or activity of a facility that emits or has the potential to emit any air pollutant.
- "Facility" All of the emissions units which are located on one or more contiguous or adjacent properties, and which are under the control of the same person (or persons under common control).
- "Owner" or "Operator" Any person or entity who or which owns, leases, operates, controls or supervises an emissions unit or facility.
- "Nonmetallic Mineral Processing Plant" Per 40 CFR 60.671, any combination of equipment that is used to crush or grind any nonmetallic mineral wherever located, including lime plants, power plants, steel mills, asphalt concrete plants, portland cement plants or any other facility processing nonmetallic minerals except as provided in 40 CFR §60.670 (b) and (c).
- "Relocatable Facility" A facility such as, but not limited to, an asphalt plant, portable power generator, or relocatable nonmetallic mineral processing plant, which is designed to be physically moved to, and operated on, different sites by being wholly or partially dismantled and re-erected in essentially the same configuration. It shall not be operable while in transit.
- "Screening Operation" Per 40 CFR 60.671, a device for separating material according to size by passing undersize material through one or more mesh surfaces (screens) in series and retaining oversize material on the mesh surfaces (screens). Grizzly feeders associated with truck dumping and static (non-moving) grizzlies used anywhere in the nonmetallic mineral processing plant are not considered to be screening operations.
- "Size" Per 40 CFR 60.671, the rated capacity in tons per hour of a crusher, grinding mill, bucket elevator, bagging operation, or enclosed truck or railcar loading station; the total surface are of the top screen of a screening operation; the width of a conveyor belt; and the rated capacity in tons of a storage bin.
- "Unconfined Emissions" Emissions which escape and become airborne from unenclosed operations or which are emitted into the atmosphere without being conducted through a stack.

DIVISION OF AIR
RESOURCE MANAGEMENT

RE: Air General Permit Renewal for Anderson Columbia Co., Inc. ACCI Concrete and Asphalt Crusher, (FDEP NO. 7775042).

To Whom It May Concern:

Please find enclosed one (1) copy of the Air General Permit renewal application for the above referenced crusher. A check for \$100.00 has been enclosed to cover the permit fees.

Please call me at (386) 752-7585 ext. 243 if you have any questions about this matter.

Sincerely,

ANDERSON COLUMBIA CO., INC.

Scott R. Cleveland, P.G. Environmental Manager
