Panama City, Florida 32405

Dear Mr. Peterson:

This is to acknowledge that your notification of intent to use the authority of Rule 62-210.310 to operate your facility was received on August 18, 2008. We have assigned ARMS No. 7775532-001 to this facility.

As you know, pursuant to Florida Statutes section 403.814, authority to operate under general permits commences (30) thirty days after receipt of the registration form unless you have been notified by this office that your facility has not shown entitlement to operate pursuant to the rule provisions.

For your information, authority to operate pursuant to Rule 62-210.310 expires after 5 years. Therefore, a new registration form must be received no later than (5) five years after the date your notice was received as indicated above. If your general permit rule conditions require testing, such testing must be completed within the time frame specified in the rule.

If you have any additional questions, please contact Dickson Dibble at 850/921-9586.

Sincerely,

Sandra F. Veazey, Chief  
Bureau of Air Monitoring  
and Mobile Sources

**CONCRETE BATCHING PLANT  
AIR GENERAL PERMIT REGISTRATION FORM**

RECEIVED  
AUG 18 2008

**Part II. Notification to Permitting Office**

(Detach and submit to appropriate permitting office; keep copy onsite)

**Instructions:** To give notice to the Department of an eligible facility's intent to use this air general permit, the owner or operator of the facility must detach and complete this part of the Air General Permit Registration Form and submit it to the appropriate Department of Environmental Protection or local air pollution control program office which has permitting authority. Please type or print clearly all information, and enclose the appropriate air general permit registration processing fee pursuant to Rule 62-4.050, F.A.C. (\$100 as of the effective date of this form)

**7775532-001**

**Registration Type**

Check one:

**INITIAL REGISTRATION** - Notification of intent to:

- Construct and operate a proposed new facility.
- Operate an existing facility not currently using an air general permit (e.g., a facility proposing to go from an air operation permit to an air general permit).

**RE-REGISTRATION** (for facilities currently using an air general permit) - Notification of intent to:

- Continue operating the facility after expiration of the current term of air general permit use.
- Continue operating the facility after a change of ownership.
- Make an equipment change requiring re-registration pursuant to Rule 62-210.310(2)(e), F.A.C., or any other change not considered an administrative correction under Rule 62-210.310(2)(d), F.A.C.

**Surrender of Existing Air Operation Permit(s) - For Initial Registrations Only**

If the facility currently holds one or more air operation permits, such permit(s) must be surrendered by the owner or operator upon the effective date of this air general permit. In such case, check the first box, and indicate the operation permits being surrendered. If no air operation permits are held by the facility, check the second box.

- All existing air operation permits for this facility are hereby surrendered upon the effective date of this air general permit; specifically permit number(s): \_\_\_\_\_
- No air operation permits currently exist for this facility.

**Description of Reasonable Precautions**

Below, or as an attachment to this form, provide details of all types of reasonable precautions to be used to prevent unconfined emissions at the facility.

This temporary concrete batch plant will be erected and used for the mixing of concrete for the runways during construction of the International Panama City Airport. The main entrance roads to the airport are paved. Other unimproved surfaces will be wetted, as needed, to prevent unnecessary emissions from truck traffic. Material stockpiles used for the concrete will be wetted to control emissions. A spray bar will be utilized to control emissions during concrete batching.

### Description of Facility

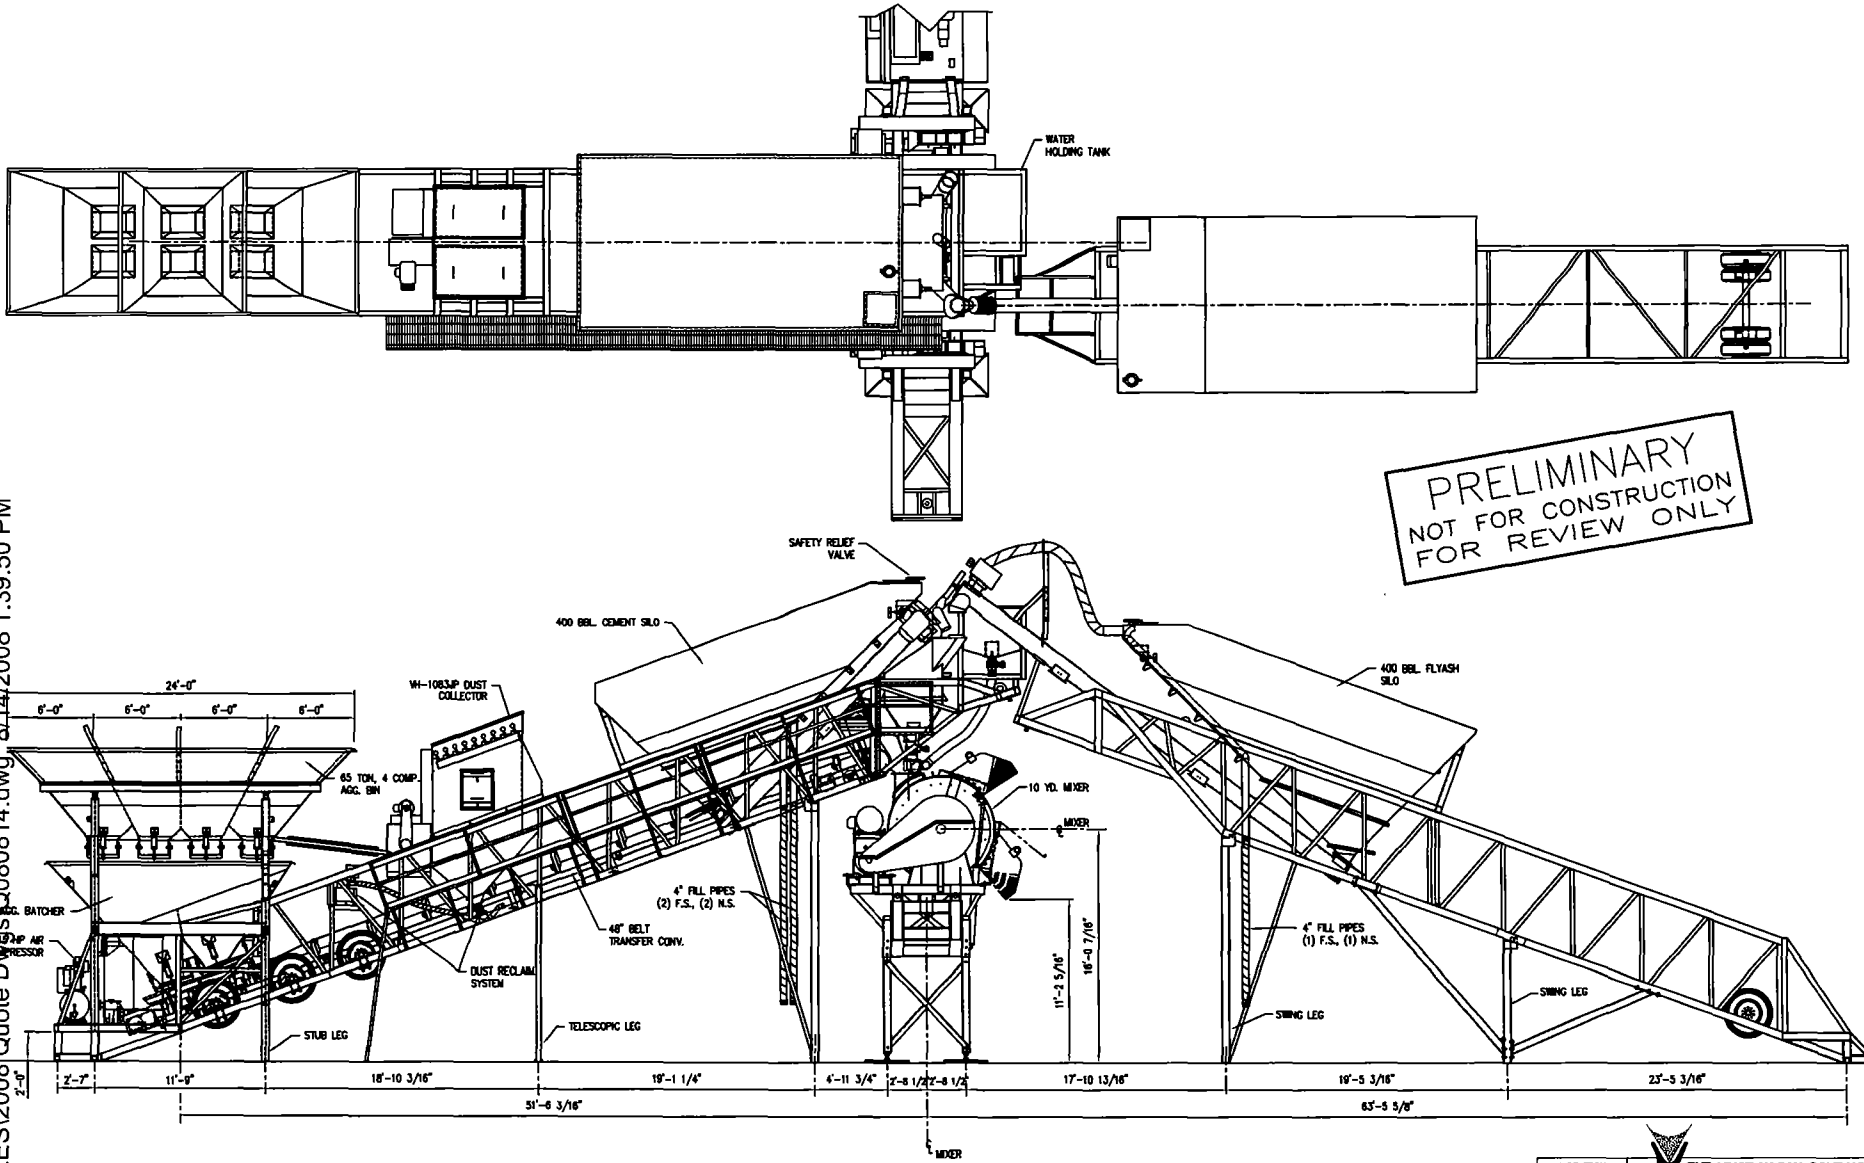

Below, or as an attachment to this form, provide a description of the concrete batching plant operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe all air pollutant-emitting processes and equipment at the facility, and identify any air pollution control measures or equipment used.

An Air General Permit is being requested to operate a mobile concrete batch plant that will be temporarily located at the site of the new Panama City International Airport. At this time, the plant will be used to supply the concrete for the runways.

The plant will weigh or meter cement and pozzolans, sand, rock, water and admixtures into a plant-mounted central horizontal mixer. The mixed concrete will then be loaded into dump truck which will haul the concrete to the runways. The requested operating schedule is 24 hrs/day, 7 days/week and 52 weeks/year. The typical production rate is approximately 200 cubic yards/hour of wet concrete.

The plant is manufactured by Vince Hagan Co. and has two (2) silos for the storage of cement (64 ton silo) and pozzolans (64 ton silo). Each silo is equipped with Vince Hagan Top Dust Collection Baghouses located on the top of each of the silo storage compartments. The baghouses are equipped with 99 6-inch diameter polyester fume bags with approximately 1083 sq. ft. of cloth area. Emissions during batching will be controlled by a spray bar system. The typical loading rate for the silos will be approximately 25 tons/hr.

**RE: Air General Permit Submittal for New Facility, A Materials Group., Inc.**

Dear Mr. Dibble:

Please find enclosed two (2) copies of the Air General Permit application for a temporary Concrete Batch Plant located at the Panama City International Airport construction site. This facility will operate at this location for approximately 1 to 1 ½ years. A check for \$100.00 has been enclosed for each plant to cover the processing of the permit.

Once operational, a VE Test will be performed within 30 days.

If you have any additional questions concerning this matter, please call me at (386) 752-7585 ext. 243.

Sincerely,
