Re: Draft Air Permit No. PSD-FL-350A  
Project No. 0010087-031-AC  
Florida Rock Industries, Inc.  
Thompson S. Baker Cement Plant  
Modifications of Permit No. PSD-FL-350 (Project No. 0010087-013-AC)

Dear Mr. Horner:

On January 18, 2008, you submitted an application requesting minor revisions modifications to emissions units No. 009 and 011 in air Permit No. PSD-FL-350 (Project No. 0010087-013-AC) and to extend the expiration date from July 21, 2008 to September 30, 2009. This facility is located in Alachua County at 4000 NW County Road 235, Newberry, Florida. Enclosed are the following documents.

- The Technical Evaluation and Preliminary Determination summarizes the technical review of the application and provides the rationale for making the preliminary determination to issue a Draft Permit.
- The proposed Draft Permit includes the specific conditions that regulate the emissions units.
- The Written Notice of Intent to Issue Air Permit provides important information regarding: the intent to issue an air permit for the proposed project; the requirements for publishing a Public Notice of the intent to issue an air permit; the procedures for submitting comments on the Draft Permit; the process for filing a petition for an administrative hearing; and the availability of mediation.
- The Public Notice of Intent to Issue Air Permit is the actual notice that you must have published in the legal advertisement section of a newspaper of general circulation in the area affected by this project.

If you have any questions, please contact the Project Engineer, Corrie Branum, at 850/921-8968.

Sincerely,

Trina Vielhauer, Chief  
Bureau of Air Regulation

## WRITTEN NOTICE OF INTENT TO ISSUE AIR PERMIT

---

file or identification number, if known; (b) The name, address, and telephone number of the petitioner; the name, address and telephone number of the petitioner's representative, if any, which shall be the address for service purposes during the course of the proceeding; and an explanation of how the petitioner's substantial interests will be affected by the agency determination; (c) A statement of when and how each petitioner received notice of the agency action or proposed decision; (d) A statement of all disputed issues of material fact. If there are none, the petition must so state; (e) A concise statement of the ultimate facts alleged, including the specific facts the petitioner contends warrant reversal or modification of the agency's proposed action; (f) A statement of the specific rules or statutes the petitioner contends require reversal or modification of the agency's proposed action including an explanation of how the alleged facts relate to the specific rules or statutes; and, (g) A statement of the relief sought by the petitioner, stating precisely the action the petitioner wishes the agency to take with respect to the agency's proposed action. A petition that does not dispute the material facts upon which the Permitting Authority's action is based shall state that no such facts are in dispute and otherwise shall contain the same information as set forth above, as required by Rule 28-106.301, F.A.C.

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the Permitting Authority's final action may be different from the position taken by it in this Written Notice of Intent to Issue Air Permit. Persons whose substantial interests will be affected by any such final decision of the Permitting Authority on the application have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above.

**Mediation:** Mediation is not available in this proceeding.

Executed in Tallahassee, Florida.
