Dear Mr. Garrett:

This is in response to your letter dated June 28, 1995 requesting extension and modification of permit AC03-232460 for Arizona Chemical's G380 Rosin Treater System.

This letter modifies permit AC03-232460 issued October 13, 1993 as follows.

Specific Condition 4 is changed from:

The maximum estimated emission rate for volatile organic compounds is 30 tons/year. Demonstration of compliance with this requirement shall be made in accordance with Specific Condition 7 of this permit.

to:

The allowable emission rate for volatile organic compounds is 9.29 lbs/hour (average/batch) and 39 tons/year.

All other specific conditions of the permit remain unchanged. This letter shall be attached to and made a part of permit AC03-232460.

Sincerely,

Ed K. Middleswart, P.E.
