Re: Project No. 0050071-008-AC
Northwest Florida Holdings, Allanton Facility
Title V Source Air Construction Permit
Increase of Emissions to TV

Dear Mr. Munroe:

On March 19, 2013, we received an application requesting the removal of previously established facility-wide VOC, HAP and PM emissions limits, and an increase of VOC and HAP potential emissions above Title V thresholds.

This facility is located in Bay County at 13300 Allanton Road in Panama City, Florida. Enclosed are the following documents: the Written Notice of Intent to Issue Air Permit; the Public Notice of Intent to Issue Air Permit; the Technical Evaluation and Preliminary Determination; and, the Draft Permit and Appendices.

The previous draft permit and associated documents that were transmitted by the cover letter dated April 16, 2013, are hereby withdrawn and replaced by the enclosed documents.

The Public Notice of Intent to Issue Air Permit is the actual notice that you must have published in the legal advertisement section of a newspaper of general circulation in the area affected by this project.

If you have any questions, please contact the project engineer, Angelia Jackson, at 850.595.0598 or by e-mail at angelia.jackson@dep.state.fl.us.

Sincerely,

J. Charles Harp
Program Administrator
Waste Management/Air Resources
Northwest District
