FPL Cape Canaveral Energy Center  
Conversion Project

Dear Mr. LaBauve:

On December 30, 2008, FPL submitted an air permit application to construct a nominal 1,250 megawatts (MW) natural gas-fueled combined cycle unit and to shut down and dismantle the two 400 MW residual oil and gas-fueled units at the Cape Canaveral Plant. Enclosed are the following documents:

- Written Notice of Intent to Issue Air Construction Permit;
- Public Notice of Intent to Issue Air Construction Permit (Public Notice);
- Technical Evaluation and Preliminary Determination; and
- Draft Air Construction Permit.

The Public Notice is the actual notice that you must have published in the legal advertisement section of a newspaper of general circulation in the area affected by this project.

If you have any questions, please contact the Project Engineer, Teresa Heron, at (850) 921-9529 or A. A. Linero, Program Administrator at (850) 921-9523.

Sincerely,

Trina L. Vielhauer, Chief  
Bureau of Air Regulation
