

PUBLIC NOTICE OF INTENT TO ISSUE AIR PERMITS

Environmental Protection and Growth Management Department
Environmental Engineering and Permitting Division
Draft Title V Air Operation Permit Revision No. 0110051-023-AV
Draft Air Construction Permit Modification No. 0110051-022-AC
Motiva Enterprises, LLC – Port Everglades West Terminal
Broward County, Florida

Applicant: The applicant for this project is Motiva Enterprises, LLC. The applicant's responsible official and mailing address is Jason Burnett, Regional Terminal Operations Manager, Motiva Enterprises, LLC, 500 Dallas Street, Houston, Texas 77002.

Facility Location: The applicant operates the existing Port Everglades Terminal, which is located in Broward County at 1180 Spangler Boulevard, Fort Lauderdale, Florida.

Project: The applicant applied May 26, 2017 to the Environmental Engineering and Permitting Division (EEPD) for an air construction permit modification and a revised Title V air operation permit. The existing facility consists of the following emission units.

- 014 Internal Floating Roof Storage Tanks. Nos.: 7, 8, 9,10,11,12 and 13 for Petroleum Products and Denatured Ethanol
- 015 Fixed Roof Storage Tanks for Additive, Diesel and Petroleum Contact Water (PCW).
- 001 Loading Rack with Two VRUs for Petroleum Products, Gasoline/Ethanol Blend, and Denatured Ethanol.
- 013 Piping and Equipment consisting of valves, fittings, and other equipment associated with petroleum products and ethanol loading or unloading operations
- 016 Emergency Generators and Fire Pump Diesel Engines consisting of two 250 KW emergency generators and one 123 hp fire pump. The three units are diesel –fired engines.

A concurrent construction permit and revision of the Title V permit 0110051-019-AV, (effective June 30, 2014) will be issued to replace the domed external floating roof (DEFR) on storage tank 8 (EU 014) with an aluminum internal floating roof (IFR) using different fittings than the existing roof. This replacement is expected to cause an increase in volatile organic compounds (VOC) emissions, while hazardous air pollutant (HAP) emissions are projected to be negligible. The facility- wide VOC emissions will increase from 178.2 to 182.5 tons per year (TPY), as a result of replacing the floating roof on storage tank 8 (EU 014). While emissions are expected to increase, these emissions do not exceed certain limits and therefore there are no changes to the regulatory and permitting requirements or the regulatory classification as a major Title V source for VOC.

Permitting Authority: Applications for air construction permits are subject to review in accordance with the provisions of Chapter 403 (Environmental Control), Part I (Pollution Control), Florida Statutes (F.S.) and Chapters 62-4 (Permits), 62-210 (Stationary Sources – General Requirements) and 62-212 (Stationary Sources – Preconstruction Review) of the Florida Administrative Code (F.A.C.). The proposed project is not exempt from air permitting requirements and an air permit is required to perform the proposed work.

Applications for Title V air operation permits are subject to review in accordance with the provisions of Chapter 403, Florida Statutes (F.S.) and Chapters 62-4, 62-210, 62-213 (Operating Permits for Major Sources of Air Pollution), of the Florida Administrative Code (F.A.C.). The proposed project is not exempt from air permitting requirements and a Title V air operation permit is required to operate the facility.

The EEPD is the Permitting Authority responsible for making a permit determination for these projects. The Permitting Authority's mailing and physical address is 1 North University Drive, Mailbox: 201, Plantation, Florida 33324. and the main telephone number is 954-519-1483.

Project File: A complete project file is available for public inspection during the normal business hours of 8:00 a.m. to 5:00 p.m., Monday through Friday (except legal holidays), at the address indicated above for the Permitting Authority. The complete project file includes the draft air construction permit, the draft/proposed Title V air operation permit, the Statement of Basis, the application, and the information submitted by the applicant,

(Public Notice to be Published in the Newspaper)

PUBLIC NOTICE OF INTENT TO ISSUE AIR PERMITS

exclusive of confidential records under Section 403.111, F.S. Interested persons may view the draft/proposed permits by visiting the following website: <https://fldep.dep.state.fl.us/air/emission/apds/default.asp> and entering the permit number shown above. Interested persons may contact the Permitting Authority's project review engineer for additional information at the address or phone number listed above.

Notice of Intent to Issue Air Permit: The Permitting Authority gives notice of its intent to issue an air construction permit to the applicant for the project described above. The applicant has provided reasonable assurance that operation of proposed equipment will not adversely impact air quality and that the project will comply with all appropriate provisions of Chapters 62-4, 62-204 (Air Pollution Control – General Provisions), 62-210, 62-212, 62-296 (Stationary Sources – Emissions Standards) and 62-297 (Stationary Sources – Emissions Monitoring), F.A.C. The Permitting Authority will issue a final permit in accordance with the conditions of the proposed draft air construction permit unless a timely petition for an administrative hearing is filed under Sections 120.569 and 120.57, F.S. or unless public comment received in accordance with this notice results in a different decision or a significant change of terms or conditions.

The Permitting Authority gives notice of its intent to issue a Title V air operation permit to the applicant for the project described above. The applicant has provided reasonable assurance that continued operation of existing equipment will not adversely impact air quality and that the project will comply with all appropriate provisions of Chapters 62-4, 62-204, 62-210, 62-212, 62-213, 62-296 and 62-297, F.A.C. The Permitting Authority will issue a final Title V air operation permit in accordance with the conditions of the draft Title V air operation permit unless a timely petition for an administrative hearing is filed under Sections 120.569 (Administrative Procedures Act (APA) - Decisions which affect substantial interests.) and 120.57, F.S. (APA – Additional procedures for particular cases) or unless public comment received in accordance with this notice results in a different decision or a significant change of terms or conditions.

Comments: The Permitting Authority will accept written comments concerning the draft air construction permit for a period of 14 days from the date of publication of the Public Notice. Written comments must be received by the Permitting Authority by close of business (4:30 p.m.) on or before the end of this 14-day period. If written comments received result in a significant change to the draft air construction permit, the Permitting Authority shall revise the draft air construction permit and require, if applicable, another Public Notice. All comments filed will be made available for public inspection.

The Permitting Authority will accept written comments concerning the draft Title V air operation permit for a period of 30 days from the date of publication of the Public Notice. Written comments must be received by the close of business (5:00 p.m.), on or before the end of this 30-day period by the Permitting Authority at the above address. As part of his or her comments, any person may also request that the Permitting Authority hold a public meeting on this permitting action. If the Permitting Authority determines there is sufficient interest for a public meeting, it will publish notice of the time, date, and location in the Florida Administrative Register (FAR). If a public meeting is requested within the 30-day comment period and conducted by the Permitting Authority, any oral and written comments received during the public meeting will also be considered by the Permitting Authority. If timely received written comments or comments received at a public meeting result in a significant change to the draft Title V air operation permit, the Permitting Authority shall issue a revised draft Title V air operation permit and require, if applicable, another Public Notice. All comments filed will be made available for public inspection. For additional information, contact the Permitting Authority at the above address or phone number.

Petitions: A person whose substantial interests are affected by the proposed permitting decision may petition for an administrative hearing in accordance with Sections 120.569 and 120.57, F.S. Petitions filed by any persons other than those entitled to written notice under Section 120.60(3) (APA – Licensing), F.S., must be filed within 14 days of publication of the Public Notice or receipt of a written notice, whichever occurs first. Under Section 120.60(3), F.S., however, any person who asked the Permitting Authority for notice of agency action may file a petition within 14 days of receipt of that notice, regardless of the date of publication. A petitioner shall mail a copy of the petition to the applicant at the address indicated above, at the time of filing. A petition for administrative hearing must contain the information set forth below and must be filed (received) with the Office of the Broward County Attorney, 115 South Andrews Avenue, Room: 423, Fort Lauderdale, Florida 33301-1872

(Public Notice to be Published in the Newspaper)

PUBLIC NOTICE OF INTENT TO ISSUE AIR PERMITS

before the deadline. The failure of any person to file a petition within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under Sections 120.569 and 120.57, F.S., or to intervene in this proceeding and participate as a party to it. Any subsequent intervention (in a proceeding initiated by another party) will be only at the approval of the presiding officer upon the filing of a motion in compliance with Rule 28-106.205 (Decisions Determining Substantial Interests – Intervention), F.A.C.

A petition that disputes the material facts on which the Permitting Authority's action is based must contain the following information: (a) The name and address of each agency affected and each agency's file or identification number, if known; (b) The name, address, any email address, telephone number and any facsimile number of the petitioner; the name, address, any email address, telephone number, and any facsimile number of the petitioner's representative, if any, which shall be the address for service purposes during the course of the proceeding; and an explanation of how the petitioner's substantial interests will be affected by the agency determination; (c) A statement of when and how each petitioner received notice of the agency action or proposed decision; (d) A statement of all disputed issues of material fact. If there are none, the petition must so indicate; (e) A concise statement of the ultimate facts alleged, including the specific facts the petitioner contends warrant reversal or modification of the agency's proposed action; (f) A statement of the specific rules or statutes the petitioner contends require reversal or modification of the agency's proposed action including an explanation of how the alleged facts relate to the specific rules or statutes; and, (g) A statement of the relief sought by the petitioner, stating precisely the action the petitioner wishes the agency to take with respect to the agency's proposed action. A petition that does not dispute the material facts upon which the Permitting Authority's action is based shall state that no such facts are in dispute and otherwise shall contain the same information as set forth above, as required by Rule 28-106.301 (Decisions Determining Substantial Interests – Initiation of Proceedings), F.A.C.

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the Permitting Authority's final action may be different from the position taken by it in this written notice of Intent to Issue Air Permit. Persons whose substantial interests will be affected by any such final decision of the Permitting Authority on the application have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above.

Mediation: Mediation is not available for this proceeding.

Objections: Finally, pursuant to 42 United States Code (U.S.C.) Section 7661d(b)(2), any person may petition the Administrator of the EPA within 60 days of the expiration of the Administrator's 45-day review period as established at 42 U.S.C. Section 7661d(b)(1), to object to the issuance of any Title V air operation permit. Any petition shall be based only on objections to the permit that were raised with reasonable specificity during the 30-day public comment period provided in the Public Notice, unless the petitioner demonstrates to the Administrator of the EPA that it was impracticable to raise such objections within the comment period or unless the grounds for such objection arose after the comment period. Filing of a petition with the Administrator of the EPA does not stay the effective date of any permit properly issued pursuant to the provisions of Chapter 62-213, F.A.C. Petitions filed with the Administrator of EPA must meet the requirements of 42 U.S.C. Section 7661d(b)(2) and must be filed with the Administrator of the EPA at: U.S. Environmental Protection Agency, Office of the Administrator, 1200 Pennsylvania Avenue, N.W., Mail Code: 1101A, Washington, DC 20460. For more information regarding EPA review and objections, visit EPA's Region 4 web site at <http://www2.epa.gov/caa-permitting/florida-proposed-title-v-permits>.
