Draft/Proposed Permit No. 0310045-028-AV
Draft Permit No. 0310045-027-AC

NGS/SJRPP/ST Facility

PROJECT TYPE: Title V Air Operation Permit, 1st Revision of Permit No. 0310045-020-AV
Minor Source Air Construction Permit - Combustion of Landfill Gas in the CFB Boiler
Nos. 1 and 2

PROJECT DESCRIPTION

This project is for a Title V air operation permit revision to include multiple air construction (AC) permit projects and for the concurrent processing of a minor source AC permit to allow the combustion of landfill gas in the CFB Boiler Nos. 1 and 2. The Statement of Basis contains more details on the specific revisions made to the Title V air operation permit.

This project is subject to the general preconstruction review requirements in Rule 62-212.300, Florida Administrative Code (F.A.C.) and is not subject to the preconstruction review requirements for major stationary sources in Rule 62-212.400, F.A.C. for the Prevention of Significant Deterioration (PSD) of Air Quality. The Department's full review of the project and rationale for issuing the draft air construction permit is provided in the Technical Evaluation and Preliminary Determination.

I HEREBY CERTIFY that the air pollution control engineering features described in the above referenced application and subject to the proposed permit conditions provide reasonable assurance of compliance with applicable provisions of Chapter 403, Florida Statutes, and F.A.C. Chapters 62-4 and 62-204 through 62-297. However, I have not evaluated and I do not certify any other aspects of the proposal outside of my area of expertise (including, but not limited to, the electrical, civil, mechanical, structural, hydrological, geological and meteorological features).
